Dear Mr Peck,

Financial Reports for Year Ended 30 June 2006 - FR2006/416
Schedule 1 of the Workplace Relations Act 1996 (RAO Schedule)

Thank you for the financial reports of the Association of Consulting Architects - Australia for the year ended 30 June 2006. The documents were lodged in the Industrial Registry on 15 December 2006.

The documents have been filed.

Although the documents have been filed, I would like to comment on one issue arising out of the reports. I make this comment to assist you when you next prepare financial reports and you do not need to take any further action in respect of the financial reports already lodged.

Operating Report

The Operating Report is also required to provide whether any officer or member of the organisation is a trustee of a superannuation entity (or a director of a company that is a trustee of a superannuation entity) where a criterion for being a trustee or director is that the officer or member is an officer or member of a registered organisation

In the event that no officer or member of the Organisation is a trustee or director of a superannuation entity, the Operating Report should include a comment to that effect.

Please do not hesitate to contact me by email at robert.pfeiffer@air.gov.au or on (03) 8661 7817 if you wish to discuss this letter.

A copy of the financial report has been placed on a website maintained by the Industrial Registry at <http://www.e-airc.gov.au/131n/financial>.

Yours sincerely,

NOTES TO AND FORMING PART OF THE ACCOUNTS
30 JUNE 2006**

1. STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES.

The significant policies which have been adopted in the preparation of the Financial Reports are;

(a) Statement of Compliance

The financial report is a general purpose financial report which has been prepared in accordance with Australian Accounting Standards ("AASBs"), Urgent Issues Group Interpretations ("UIGs") adopted by the Australian Accounting Standards Board ("AASB"). International Financial Reporting Standards ("IFRS") form the basis of Australian Accounting Standards ("AASBs"), adopted by the AASB, and for the purpose of this report are called Australian equivalents to IFRS ("AIFRS") to distinguish from previous Australian GAAP.

The financial report is a general purpose financial report which has been prepared in accordance with Australian Accounting Standards ("AASBs"), Urgent Issues Group Interpretations ("UIGs") adopted by the Australian Accounting Standards Board ("AASB") with the exception of:

AASB 3:	Business Combinations
AASB 124:	Related Party Disclosures

International Financial Reporting Standards ("IFRSs") form the basis of Australian Accounting Standards ("AASBs") adopted by the AASB, and for the purpose of this report are called Australian equivalents to IFRS ("AIFRS") to distinguish from previous Australian GAAP. The financial report of the Company also comply with IFRSs and interpretations adopted by the International Accounting Standards Board.

This is the Association's first financial report prepared in accordance with Australian Accounting Standards, being AIFRS, and AASB 1 *First-Time Adoption of Australian Equivalents to International Financial Reporting Standards* has been applied. An explanation of how the transition to AIFRS has affected the reported financial position, financial performance and cash flows of the Company is provided in Note 4.

(b) Basis of Preparation

The financial report has been prepared on the basis of historical cost and except where stated, does not take into account changing money values or current valuations of non-current assets. Cost is based on the fair values of the consideration given in exchange for assets.

In the application of AIFRS management is required to make judgements, estimates and assumptions about carrying values of assets and liabilities that are not readily apparent from other sources. The estimate and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstance, the results of which form the basis of making judgements. Actual results may differ from these estimates.

Accounting policies are selected and applied in a manner which ensures that the resultant financial information satisfies the concepts of relevance and reliability, thereby, ensuring that the substance of the underlying transactions and other events is reported.

The accounting policies have been consistently applied and, except where there is a change in accounting policy are consistent with those of the previous year.

THE ASSOCIATION OF CONSULTING ARCHITECTS AUSTRALIA

(2) Subsequent Costs
The Company recognises in the carrying amount of an item of property, plant and equipment the cost of replacing part of such an item when the cost is incurred if it is probable that the future economic benefits embodied within the item will flow to the Company and the cost of the item can be measured reliably. All other costs are recognised in the income statement as an expense as incurred.
(3) Depreciation
Depreciation is charged to the income statement on a straight-line basis over the estimated useful lives of each part of an item of property, plant & equipment. Land is not depreciated.
