Mr Graham Bird Secretary Australasian Meat Industry Employees Union, The-Victorian Branch 62 Lygon Street CARLTON SOUTH VIC 3053

Dear Mr Bird

## Financial Return - year ending 30 June, 2007

Our records show the organisation's financial year ended recently. This letter outlines some of the things you must do to meet your financial reporting obligations and when you have to do them. For simplicity, we will call the documents you have to lodge with us your *financial return*.

This letter is intended as guide to the law applicable on the date of this letter, and should not be used as a substitute for legal or accounting advice. We only summarise some of the reporting requirements in this letter. More detailed information is at the end of this letter.

### Information on AIRC Website

We recommend you and your accountant/auditor also refer to the following documents on the Commission's website at <u>www.airc.gov.au</u>:

- RAO Schedule
- RAO Regulations
- <u>Registrar's Reporting Guidelines</u> All GPFR's must comply with these Guidelines. Please note that the Guidelines set out requirements that are *in addition* to those required by the Australian Accounting Standards.
- <u>RAO Fact Sheets</u> These Fact Sheets explain the requirements of the RAO Schedule many of them deal with financial reporting matters.

### **Reporting Unit**

Under the provisions of the Registration and Accountability of Organisations Schedule (RAO), Schedule 1 of the *Workplace Relations Act 1996*, reporting entities are known as "*reporting units*". Where an organisation is **not** divided into branches the reporting unit is the whole of the organisation. Where an organisation **is** divided into branches each branch will be a reporting unit unless the Industrial Registrar has determined a division of the organisation into reporting units on an alternative basis. We can discuss this with you if you need more information.

For simplicity, we will use the term "reporting unit" in this letter.

### Industrial Registrar's Guidelines

The Industrial Registrar's reporting guidelines set out certain disclosure requirements in addition to those prescribed by Australian Accounting Standards having in mind the nature of organisations registered under the Workplace Relations Act.

The disclosure requirements prescribed by the reporting guidelines are directed towards providing members of the reporting unit with information to enable them to gauge the performance of the committee of management and other holders of office in relation to the financial management of the reporting unit. In addition, the reporting guidelines seek to improve the quality of information available to users of the financial report about the reporting unit's economic support of, or economic dependency on, other reporting units of the organisation.

## Timeline Planner and Checklist

We have attached a <u>Timeline/Planner</u> (*Attachment A*) to help you **plan** your financial return and carry out all the necessary steps. We have also attached a <u>Document Checklist</u> (*Attachment B*) to **check** your documents before lodging them in the Registry. Both documents are abbreviated summaries of the relevant provisions of the RAO Schedule, RAO Regulations and the Industrial Registrar's Reporting Guidelines.

In the following section we describe some of the documents your reporting unit must prepare and the sequence of their preparation and completion.

### Three Reports

Your reporting unit must prepare two reports <u>as soon as practicable</u> after its financial year, which, together with the Auditor's Report, comprise the reporting unit's financial return.

1. **General Purpose Financial Report** - this must comply with the Australian Accounting Standards <u>and</u> the Industrial Registrar's Reporting Guidelines. The GPFR consists of:

(a) Financial Statements containing:

- a profit and loss statement, or other operating statement; and
- a balance sheet; and
- a statement of cash flows; and
- any other statements required by the Australian Accounting Standards; and

(b) Notes to the Financial Statements containing:

- notes required by the Australian Accounting Standards; and
- information required by the Industrial Registrar's Reporting Guidelines under section 255 including disclosures related to any recovery of wages activity; and

(c) Committee of Management Statement as required by the Registrar's Reporting Guidelines (a sample certificate for illustrative purposes is at Attachment C) including declarations related to the recovery of wages activity.

2. **Operating Report** - this report includes a review of your <u>reporting unit's</u> principal activities for the year and other specified information.

Your reporting unit must appoint an auditor to audit the GPFR and to provide:

3. an Auditor's Report.

### First Meeting (Committee of Management)

For simplicity, we will call the meeting at which the committee of management first considers the GPFR the first meeting. At the first meeting your committee, if satisfied that all is in order, will resolve to express its opinion on the GPFR and complete a Committee of Management Statement.

## The Auditor

ςŪ.

After the first meeting, the auditor takes the GPFR and the Committee of Management Statement and prepares a report on the GPFR. In practice, your auditor may have already completed most of his or her examination of your accounts. The auditor may only be waiting on the Committee to pass the required resolution and make the Statement before signing the report the same day.

## Informing Your Members

Your reporting unit must provide free of charge to the general membership, copies of the GPFR, the Operating Report and the Auditor's Report. RAO calls these the "full report". Under certain circumstances, your reporting unit can provide a more limited *concise report*.

The reporting unit can meet its obligation to provide copies of the full or concise report to members by publishing the report in a journal that is available to the members free of charge.

A reporting unit may meet this obligation in whole or in part by publication of the report in a journal published on a web site on the Internet dependent on:

a. the extent of the accessibility of the members of the reporting unit to the Internet; and

b. that the members are notified by the reporting unit in the usual manner in which it communicates with its members that the report has been so published at a specified Internet address.

The report must be provided within 5 or 6 months from the end of the financial year, depending on the internal arrangements of the organisation for the presentation of its financial reports.

## The Second Meeting - if it is a General Meeting of Members

After providing the full report to members it must be presented to a general meeting of members. For simplicity this is referred to as the *second meeting*.

Your reporting unit must always allow a minimum of 21 days for members to receive the full report before presenting it to a general meeting of members (s265(5)). The purpose of the interval is to enable the members to have time to consider the report and, if they wish, to attend the second meeting to discuss it.

If the rules of the organisation permit a general meeting to be a series of meetings held at different locations, the full report may be presented to such a series of meetings. In this case the 'date' of the general meeting is taken to be the date of the last meeting in the series (see s266(2)).

## The Second Meeting - if it is a Committee of Management Meeting

If the rules of your organisation contain a provision that allows up to 5% of members to demand a general meeting to be held consider the report (see s266(3)), it is permissible to present the report directly to a Committee of Management meeting.

## Lodge full report within 14 days of meeting

You must lodge a copy of the full report and any concise report in the Industrial Registry within 14 days of the second meeting. For your convenience you are encouraged to lodge the material electronically (see eFiling Tab at <u>www.airc.gov.au</u>).

The Secretary (or another officer appropriately authorised under the rules of the organisation) must *certify* that the full report is a copy of the one provided to members <u>and</u> presented to the second meeting and provide the date of the meeting (a sample certification for illustrative purposes is at *Attachment D*).

When we receive your return we will check that it includes the information you must provide your members and that you have provided it to them correctly.

## Complying with time limits

This letter has outlined some of the steps in preparing and lodging your return. Many of the steps must be completed within fixed time limits.

Failure to complete them in time could make your reporting unit or its officers liable to financial or "civil penalties".

### Extensions of Time

We appreciate that sometimes circumstances beyond your reporting unit's control may delay completion of a financial return. If you believe your reporting unit is going to be unable to meet a time limit tell us as soon as you know. We can advise you if the step is one for which you may apply under RAO to the Industrial Registrar for extra time to complete. The maximum extra time allowed can be no more than one month.

### Contact the Registry

We encourage you to contact the Registry on (02) 8374 6618 or by e-mail at belinda.penna@air.gov.au as early as possible if you believe preparation or lodgment of your return will be delayed or if you have any gueries. We can offer you advice on procedures but we cannot give you legal or accounting advice.

Yours sincerely

## NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2007

### NOTE 1: STATEMENT OF ACCOUNTING POLICIES

This financial report is a general purpose financial report that has been prepared in accordance with Accounting Standards, Australian Accounting Interpretations, other authoritative pronouncement of the Australian Accounting Standards Board and the Reporting Guidelines of the Industrial Registrar, RAO Schedule and RAO Regulations. The financial report complies with all Australian equivalents to International Financial Reporting Standards in their entirety.

The following is a summary of the significant accounting policies adopted by the entity in the preparation of the financial report.

### **Basis of Preparation**

### Reporting Basis and Conventions

The financial report has been prepared on an accruals basis using historical costs and does not take into account changing money values or, except where stated, current valuations of non current assets. Cost is based on the fair values of the consideration given in exchange for assets. The accounting policies have been consistently applied, unless otherwise stated.

### Accounting Policies

### (a) Going Concern

The financial report is prepared on the basis that the entity will continue as a going concern and that assets including property plant and equipment and liabilities would be realised in the normal course of business at their recorded values as at 30 June 2007.

### (b) Revenue

In accordance with generally accepted accounting principles for these types of organisations, membership contributions and capitation fees are accounted for on a cash basis.

### (c) Income Tax

No provision for income tax is necessary as "Trade Unions" are exempt from income tax under Section 50-15 (3.2) of the Income Tax Assessment Act 1997.

## NOTE 1: STATEMENT OF ACCOUNTING POLICIES continued

## (d) Property, Plant & Equipment

Each class of property, plant and equipment is carried at cost or fair value less, where applicable, any accumulated depreciation and impairment losses.

### Property

The Building Strata Title is shown at the fair value (being the amount for which an asset could be exchanged between knowledgeable willing parties in an arm's length transaction), less subsequent depreciation for buildings.

### Plant and equipment

Plant and equipment are measured on the cost basis less depreciation and impairment losses.

The carrying amount of plant and equipment is reviewed annually to ensure it is not in excess of the recoverable amount from these assets. The recoverable amount is assessed on the basis of the expected net cash flows that will be received from the assets employment and subsequent disposal. The expected net cash flows have been discounted to their present values in determining recoverable amounts.

### Depreciation

The depreciable amount of all fixed assets including property, but excluding artworks, are depreciated on a straight line or diminishing value basis over their useful lives to the entity commencing from the time the asset is held ready for use.

The depreciation rates used for each class of depreciable assets are:Property2.5%Plant & Equipment10%-50%

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at each balance sheet date. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

### (e) Impairment of Assets

At each reporting date, the entity reviews the carrying values of its assets to determine whether there is any indication that those assets have been impaired. If such an indication exists, the recoverable amount of the asset, being the higher of the asset's fair value less costs to sell and value in use, is compared to the asset's carrying value. Any excess of the asset's carrying value over its recoverable amount is expensed to the income statement.

Where it is not possible to estimate the recoverable amount of an individual asset, the entity estimates the recoverable amount of the cash-generating unit to which the asset belongs.

## (f) Employee Benefits

Provision is made for benefits accruing to employees in respect of wages and salaries, annual leave, sick leave and long service leave when it is probable that settlement will be required and they are capable of being measured reliably.

## Measurement of short-term and long-term employee benefits

Short-term employee benefits are those benefits that are expected to be settled within 12 months, and are measured at their nominal values using the remuneration rate expected to apply at the time of settlement. They include wages and salaries, annual leave, sick leave and long service leave that are expected to be settled within 12 months.

Long-term employee benefits are those benefits that are not expected to be settled within 12 months, and are measured at the present value of the estimated future cash outflows to be made by the entity in respect to services provided by employees up to the reporting date. They include long service leave not expected to be settled within 12 months.

The present value of long-term employee benefits is calculated in accordance with AASB 119: Employee Benefits. Long-term employee benefits are measured at the present value of expected future payments to be made in respect of services provided by employees up to the reporting date. Consideration is given to expected future wage and salary levels, experience of employee departures and periods of service. Expected future payments are discounted using interest rates on national Government guaranteed securities with terms to maturity that match, as closely as possible, the estimate future cash outflows.

### Classification of employee benefits as current and non-current liabilities

Employee benefit provisions are reported as current liabilities where the entity does not have an unconditional right to defer settlement for at least 12 months. Employee benefit provisions that are reported as non-current liabilities include long term benefits that do not qualify for recognition as a current liability, and are measured at present value.

### Superannuation

Contributions are made by the entity to an employee superannuation fund and are charged as expenses when incurred.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial report in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Committee of Management, as well as evaluating the overall presentation of the financial report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.
