Dear Mr Polglase,

Australian Education Union-Tasmania Branch Financial Report for the year ended 30 June 2013 - [FR2013/338]

I acknowledge receipt of the financial report of the Australian Education Union-Tasmania Branch. The documents were lodged with the Fair Work Commission on 17 February 2014.

The financial report was filed based on a primary review. This involved confirming that the financial reporting timelines required under s.253, s.265, s.266 and s.268 of the *Fair Work* (*Registered Organisations*) *Act 2009* (RO Act) have been satisfied, all documents required under s.268 of the RO Act were lodged and that various disclosure requirements under the Australian Accounting Standards, RO Act and reporting guidelines have been complied with. A primary review does not examine all disclosure requirements.

The financial report has now been filed I make the following comments to assist you when you next prepare a financial report. You are not required to take any further action in respect of the report lodged. The Fair Work Commission will confirm these concerns have been addressed prior to filing next year's report.

Reports must be provided to Members within 5 months of end of financial year where report is presented before committee of management meeting

The designated officer's certificate states that the financial report was provided to members on 2 December 2013, and presented to a committee of management meeting on 22 November 2013. Under section 265(5)(b) of the RO Act, where the report is presented to a Committee of Management meeting, the report must be provided to members within 5 months of the end of the financial year. If these dates are correct, the reporting unit should have applied for an extension of time for the provision of the financial report to members in accordance with section 265(5) of the RO Act. Please note that in future financial years a written request for extension of time signed by a relevant officer, including any reason for the delay, must be made prior to required date of lodgement.

## Documents must be lodged with the Fair Work Commission within 14 days of General Meeting

Section 268 of the RO Act, states that the full report and the designated officer's certificate are required to be lodged with the Fair Work Commission within 14 days of the meeting of the committee of management. The Designated Officer's Certificate indicates that this meeting occurred on 22 November 2013. If this is correct the full report should have been lodged with the Fair Work Commission by 6 December 2013.

The full report was lodged on 17 February 2014.

If these dates are correct, the branch should have applied for an extension of time to lodge the required reports and the designated officer's certificate in accordance with section 268 of the RO Act.

Please note that in future financial years a written request for an extension of time, signed by a relevant officer, including any reason for the delay, must be made prior to required date of lodgement.

## Outdated references to RAO Schedule

The RAO Schedule formed part of the prior legislation Workplace Relations Act 1996. This legislation is no longer in operation. Any references to a 'RAO Schedule' must be updated to reflect the current legislation, the *Fair Work (Registered Organisations) Act 2009*.

Please note that the financial report for the year ending 20 June 2014 may be subject to an advanced compliance review.

If you have any queries regarding this letter, please contact me on (03) 8661 7812 or via email at nick.salzberg@fwc.gov.au.

Yours sincerely

11.1.2 EB Updates

IT WAS MOVED Elizabeth Osborne, seconded Sallyann Geale: "That Branch Council has considered the proposed Industrial Agreement for Teaching Staff within the Department of Education and is angered by the offer.

At this time, and for reasons stated below, Council is not prepared to refer the draft Agreement to members for their consideration by way of a ballot.

The Claim formulated by the Union, after consultation with members, focussed on Quality Teaching and it:

- contained a number of no-cost proposals to better regulate teacher workloads which enable them to focus on their core business; educating their students; and
- made it clear that making Tasmanian Teachers the lowest paid in Australia was problematic, especially when national standards and

a national curriculum are being introduced along with Better Schools funding with its focus on Quality Teaching.

While negotiations have resulted in some progress on a range of matters, the proposed Agreement fails to address these matters.

## Council therefore:

- directs the Union's negotiators to continue negotiations with the employer;
- requests that the Premier, who supports quality teaching in quality public schools, intervenes in these negotiations to ensure that the issues of concern are addressed; and
- requires the Union negotiator to report back to Branch Council at an extraordinary meeting to be convened on Friday 29 November 2013.

At that meeting, Branch Council will consider the proposed Agreement and consider what further action should be taken."

CARRIED UNANIMOUSLY

IT WAS MOVED Nick Finlay, seconded Sallyann Geale:

"That Branch Council calls upon DoE teacher members to enforce their existing industrial entitlements, in particular:

- i) a maximum of 70 hours of attendance time per fortnight; and

## 14. Question Time

Cheryl Stratton

Higher duties allowance is not paid until 10 consecutive days are worked. It is the case for a lot of people that they cover principal duties for only days at a time but for a good part of the time. Seems to be unfair.

That State Manager advised that this is provided for in the Award. In the DoE teacher negotiations we sought to introduce a Deputy Principal classification

Nic Wilson

The AEC didn't do well with last round of elections – it appears some members did not receive get their ballot papers at all. Concern about this. Also seems that some people knew ballot results before the candidates received information. Is it possible for these concerns to be addressed and discussions had about whether this was a

demographic process?

The President advised that the AEU need to be made aware of specific cases, so that follow up

with the AEC can occur.

Warren McDonough

Is the AEU aware of the fiasco with the elections in that that people did not apply for positions because of the closing date and is the reason so many positions have been left vacant? The process needs to be easier for people to apply for positions and the casual vacancy elections need to be advertised ASAP.

The State Manager advised that casual vacancies will be advertised but this cannot be done until the

AEC advises the AEU of the dates. Information will be made available as soon as possible.

What is the AEU policy on members of the AEU staff (whether contract, temporary, etc) applying for positions on Executive and Council? The State Manager advised that all Councillors have been provided with a copy of the AEU Election Policy in their papers which was endorsed at an earlier Council meeting. As staff are sometimes contracted/seconded to the Union on a short term basis, they are still financial members of the AEU and therefore able to nominate for positions under the rules. The Industrial Officer advised as a member of the Union, who is also a staff member, a person is allowed to be elected to Executive, not a delegate of Council. However, as a member of Executive, a person is automatically a member of Council, not a delegate to Council.

## 15. Business brought forward by Executive

Nil

## 16. Any other business

The State Manager discussed with Councillors the tasks next week regarding EBA.

Monday, Tuesday, Wednesday are critical days for contact (phone calls/emails) to the Premier.

Councillors need to ensure members implement 'work to rule' action. Membership meetings starting Wednesday and continuing around the state. Appointments with Premier and DoE negotiators will be made by the AEU negotiating team.

The President thanked those members of Council who will not be attending next Friday's meeting and who will no longer be a member of Council for their service and contribution to the Union over many years.

Mandy Jackson thanked Pat MacLeod for all her hard work with Support Staff, over many years.

Nic Wilson recognised Greg Hales and thanked him for his 13 years of service.

#### NOTES TO THE FINANCIAL STATEMENTS

## For the period ended 30 June 2013

## NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

## (a) Basis of Preparation of the Financial Statements

The financial statements are general purpose financial statements and have been prepared in accordance with Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board (AASB) that apply for the reporting period and the Fair Work (Registered Organisation) Act 2009. For the purpose of preparing the general purpose financial statements, the Australian Education Union Tasmanian Branch is a not-for-profit entity.

The financial report covers the Australian Education Union Tasmanian Branch as an individual entity. The Australian Education Union Tasmanian Branch is a trade union in Tasmania governed by the Fair Work (Registered Organisations) Act 2009.

The financial statements have been prepared on an accrual basis and in accordance with the historical cost, except for certain assets and liabilities at measured at fair value, as explained in the accounting policies below. Historical cost is based on the fair values of the consideration given in exchange for assets. Except where stated, no allowance is made for the effect of changing prices on the results or the financial position. The financial statements are presented in Australian dollars.

## (b) Statement of Compliance

The financial report complies with Australian Accounting Standards, including International Financial Reporting Standards ('IFRS').

#### (c) Comparative Amounts

When required by Accounting Standards, comparative figures have been adjusted to conform to changes in presentation for the current financial year.

## (d) New Australian Accounting Standards

## Adoption of New Australian Accounting Standard Requirements

No accounting standard has been adopted earlier than the application date stated in the standard.

The accounting policies adopted are consistent with those of the previous financial year.

There are no new standards, amendments to standards or interpretations that were issued prior to sign off date that are expected to have a financial impact on the Union in the future reporting period.

## (e) Cash and Cash Equivalents

Cash is recognised at its nominal amount. Cash and cash equivalents includes cash on hand, deposits held at call with bank, other short-term highly liquid investments with original maturity of 3 months or less that are readily convertible to known amounts of cash and subject to insignificant risk of changes in value and bank overdrafts. Bank overdrafts are shown within short-term borrowings in current liabilities on the consolidated statement of financial position.

## NOTES TO THE FINANCIAL STATEMENTS

## For the period ended 30 June 2013

## NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### (f) Trade Debtors and Other Receivables

Trade receivables are recognised and carried at original invoice amount less a provision for any uncollectible debts. An estimate for doubtful debts is made when collection of the full amount is no longer probable. Bad debts are written-off as incurred.

#### (a) Other Current Assets

Financial assets at fair value through profit or loss are stated at fair value, with any gains or losses arising on measurement recognised in profit or loss. The net gain or loss recognised in profit or loss incorporates any dividend or interest earned on the financial asset and is included in the 'net movement in managed fund' line item in the statement of comprehensive income.

## (h) Land, Buildings, Plant and Equipment

#### Asset Recognition

Purchases of land, buildings, plant and equipment are recognised at cost in the Statement of Financial Position. The initial cost of an asset includes an estimate of the cost of dismantling and removing the item and restoring the site on which it is located.

#### Recoverable Amount

Non-current assets measured using the cost basis are not carried at an amount above their recoverable amount, and where a carrying value exceeds this recoverable amount, the asset is written down.

#### Depreciation

Depreciable property, plant and equipment assets are written-off to their estimated residual values over their estimated useful life using, in all cases, the straight line method of depreciation. Depreciation rates (useful lives), residual values and methods are reviewed at each reporting date and necessary adjustments are recognised in the current, or current and future reporting periods, as appropriate.

Depreciation rates applying to each class of depreciable asset are based on the following useful lives:

	2013	2012
Land and buildings	50 years	50 years
Plant and equipment	4 to 5 years	4 to 5 years
Computer equipment	2.5 to 3 years	2.5 to 3 years
Motor vehicles	4 to 5 years	4 to 5 years

#### Derecognition

An item of land, buildings, plant and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in the profit and loss.

## (i) Trade and Other Payables

Liabilities for trade creditors and other amounts are carried at cost which is the fair value of the consideration to be paid in the future for goods and services received, whether or not billed to the Union.

## (j) Employee Benefits

A liability is recognised for benefits accruing to employees in respect of wages and salaries, annual leave, long service leave and termination benefits when it is probable that settlement will be required and they are capable of being measured reliably.

Liabilities for short-term employee benefits (as defined in AASB 119 Employee Benefits) and termination benefits due within twelve months of the end of reporting period are measured at their nominal amounts. The nominal amount is calculated with regard to the rates expected to be paid on settlement of the liability.

Other long-term employee benefits are measured as the present value of the estimated future cash outflows to be made by the reporting unit in respect of services provided by employees up to reporting date.

#### (k) Revenue

Revenue is measured at the fair value of the consideration received or receivable.

Revenue from subscriptions is accounted for on an accrual basis and is recorded as revenue in the year to which it relates.

Donation income is recognised when it is received.

Interest revenue is recognised on an accrual basis using the effective interest method.

Rental revenue from operating leases is recognised on a straight-line basis over the term of the relevant lease.

## NOTES TO THE FINANCIAL STATEMENTS

## For the period ended 30 June 2013

## NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

## (m) Taxes

The Union is exempt from income tax under section 50.1 of the Income Tax Assessment Act 1997 however still has obligation for Fringe Benefits Tax (FBT) and the Goods and Services Tax (GST).

Revenue, expenses and assets are recognised net of GST except:

- where the amount of GST incurred is not recoverable form the taxation authority, in which case the GST is recognised as part of the cost of acquisition of the asset or as part of the expense item as applicable; and
- for receivables and payables.

The net amount of GST recoverable from, or payable to, the taxation authority is included as part of receivables of payables in the Statement of Financial Position. Commitments and contingencies are disclosed net of the amount of GST recoverable from or payable to, the taxation authority.

Cash flows are included in the cash flow statement on a gross basis. The GST component of cash flows arising from investing and financing activities which is recoverable from, or payable to, the Australian Taxation Office is classified within operating cash flows.

Credit risk is the risk of financial loss to the Union if a customer or counterparty to a financial instrument fails to meet its contractual obligations and arises principally from the Unions receivables from customers.

The entity's maximum exposure to credit risk at balance date in relation to each class of recognised financial assets, is the carrying amount of those assets as indicated in the balance sheet.

The Union does not have any material credit risk exposure to any single debtor or group of debtors under financial instruments entered into by the Union.

## (b) Interest rate risk

Interest rate risk is the risk that a financial instrument's value will fluctuate as a result of changes in market interest rates.

The majority of the Unions financial assets are held in interest bearing assets that are expected to mature within three months or in financial assets that reset to the prevalent market interest rate on a monthly or quarterly basis. As a result the Union is subject to limited exposure to interest rate risk due to fluctuations in the prevailing levels of market interest rates.

An increase / (decrease) in interest rates of 1% will have a corresponding effect on revenue of \$19,465 (2012, \$15,975).
