Dear Stephen Purvinas,

**Australian Licenced Aircraft Engineers Association  
Financial Report for the year ended 31 December 2018 – (FR2018/320)**

I acknowledge receipt of the financial report of the Australian Licenced Aircraft Engineers Association (**the reporting unit**). The documents were lodged with the Registered Organisations Commission (**the ROC**) on 9 July 2019. I also acknowledge receipt of the designated officer's certificate and subsection 255(2A) report which were lodged with the ROC on 6 August 2019.

The financial report has now been filed.

The financial report was filed based on a primary review. This involved confirming that the financial reporting timelines required under s.253, s.265, s.266 and s.268 of the *Fair Work (Registered Organisations) Act 2009* (**RO Act**) have been satisfied, all documents required under s.268 of the RO Act were lodged and that various disclosure requirements under the Australian Accounting Standards, RO Act and reporting guidelines have been complied with. A primary review does not examine all disclosure requirements.

Please note that the financial report for the year ending 31 December 2019 may be subject to an advanced compliance review.

You are not required to take any further action in respect of the report lodged, except for the requirements under the sub-heading *Statement of Loans, Grants and Donations*. The ROC will confirm these concerns have been addressed prior to filing next year's report.

**Timescale requirements**

As you are aware, an organisation is required under the RO Act to undertake certain steps in accordance with specified timelines. Information about these timeline requirements can be found on the ROC website. In particular, I draw your attention to the fact sheet titled *financial reporting process* which explains the timeline requirements, and the fact sheet titled *summary of financial reporting timelines* which sets out the timeline requirements in diagrammatical form.

I note that the following timescale requirements were not met:

Documents must be lodged with ROC within 14 days after the committee of management meeting

Section 268 of the RO Act requires a copy of the full report and the designated officer's certificate to be lodged with the ROC within 14 days after the meeting of the committee of management referred to in section 266. The designated officer's certificate indicates that this meeting occurred on 12 June 2019. If this is correct the documents should have been lodged with the ROC by 26 June 2019.

As indicated above, the full report was lodged on 9 July 2019 and the designated officer's certificate was lodged on 6 August 2019.

It appears that the reporting unit should have applied to the Commissioner for an extension of time to allow a longer period to lodge the required documents.

Please note that in future financial years if the reporting unit cannot lodge within the 14 day period prescribed, a written request for an extension of time, signed by a relevant officer, including any reason for the delay, must be made *prior to* the expiry of the 14 day period.

**General purpose financial report (GPFR)**

Statement of loans, grants and donations

Under subsection 237(1) of the RO Act, if an individual loan, grant or donation made by a branch exceeds \$1,000 a statement showing the relevant particulars of each must be lodged with the ROC within 90 days of the end of the financial year.

The financial statements disclose an individual donations of \$15,000 that exceeded \$1,000 during the financial year. A statement is therefore required to be lodged which complies with section 237. The statement should include a request for an extension of the 90 day deadline, signed and dated by the relevant officer, outlining the reason for the delay in lodgement.

A template loans, grants and donations form is available on the ROC website.

Grants and donations expense

The statement of comprehensive income and Note 3(g) *Grants and donations expense* disclose total expenditure for grants and donations for the financial year ended 31 December 2018 as \$19,712. This includes an amount of \$19,462 for *Contribution to Welfare Fund* which appears to be revenue and is disclosed as such in Note 2 *Revenue* and Note 18 *Mortality and other benefits*.

It appears that the total expenditure for grants and donations for the year ended 31 December 2018 is \$15,250 and has therefore been overstated in the statement of comprehensive income.

Please amend accordingly in next year's financial report of the reporting unit.

Nil activities disclosure

Item 21 of the reporting guidelines (**RGs**) states that if any of the activities identified within items 10-20 of the RGs have not occurred in the reporting period, a statement to this effect must be included either in the financial statements, the notes or in the officer's declaration statement. The notes contained nil activity information for all prescribed RG categories except the following:

- Having another entity administer the financial affairs of the reporting unit (RG19).

Please ensure in future years that the above mentioned items are disclosed in either the financial statements, the notes or in the officer's declaration statement as per the RGs.

**Operating Report**

Prescribed information in Operating report

Regulation 159(c) requires an operating report to contain the name of each person who has been a member of the committee of management of the reporting unit at any time during the reporting period, and the period for which he or she held such a position. The ROC takes the words "at any time" to mean that all persons, whether they held their position for the full year or for part of the year, must be included.

I note that the name of Wesley Bell appeared in the previous year's operating report but did not appear in this year's operating report. There was no indication that Wesley Bell had resigned during, or at the end of, the previous year, and without any such indication the question arises whether their names have been inadvertently omitted.

In future years, please ensure that all persons are included and the periods for which they held their position are clearly indicated.

### **Auditor's report**

#### Audit scope to include subsection 255(2A) report

A GPFR prepared under section 253 of the RO Act also includes the expenditure report required to be prepared under subsection 255(2A) as prescribed by RG 22.

The subsection 255(2A) report must be identified by title in the auditor's statement in accordance with paragraph 24(c) of Australian Auditing Standard *ASA 700 Forming an Opinion and Reporting on a Financial Report*.

A subsection 255(2A) report was lodged with the ROC on 6 August 2019 but the auditor did not refer to the statement in the auditor's report.

Please ensure in future years that the subsection 255(2A) report is audited before provided to members and lodged with the ROC.

### **Redaction of information from the GPFR**

#### Officer-Related party remuneration and payment disclosures

In the financial report, certain information disclosed in Note 24 *Disclosure required by ALAEA Rules* on page 42 has been redacted from the copy of the 2018 financial report by the ROC before publishing it on its website. Similar information was contained in previous financial reports and this information appears to reflect the requirement of the organisation's rule 37C that such information be disclosed to the members of the reporting unit. Please note that the ROC has also redacted this information from the published reports for the 2014, 2015, 2016, and 2017 financial years.

Part 2A of Chapter 9 contains new provisions which supersede those former provisions of the RO Act which had required organisations and branches to have, and comply with, their own rules concerning similar disclosure in relation to officer remuneration.

Section 293J of Part 2A now requires an organisation to provide its members and lodge with the ROC a copy of an officer and related party disclosure statement in respect of certain remuneration<sup>1</sup> and payments<sup>2</sup> paid during the relevant financial year. This requirement applied to the financial year ending 31 December 2018. The reporting unit's officer and related party disclosure statement was lodged with the ROC on 12 June 2019.

Please note that the officer and related party disclosure statement is separate from, and does not form part of, the GPFR required under section 253 of Part 3 of Chapter 8.

Further information about officer and related party statements may be found on the ROC website at the following link: [Disclosure obligations](#).

The ROC takes its obligations relating to privacy seriously and endeavours to ensure compliance with the requirements under the *Privacy Act 1988*. The redactions have been effected in accordance with the ROC privacy policy to protect the personal information of persons identified in the financial report. A copy of the ROC privacy policy can be found via [this link](#).

<sup>1</sup> see section 293BC

<sup>2</sup> see section 293G

## **Reporting Requirements**

The ROC website provides a number of factsheets in relation to the financial reporting process and associated timelines. The website also contains the s.253 RGs and a model set of financial statements.

The ROC recommends that reporting units use these model financial statements to assist in complying with the RO Act, the s.253 RGs and Australian Accounting Standards. Access to this information is available via [this link](#).

If you have any queries regarding this letter, please contact me on (03) 9603 0764 or via email at [kylie.ngo@roc.gov.au](mailto:kylie.ngo@roc.gov.au).

Yours sincerely,

A handwritten signature in black ink, appearing to be 'Kylie', with a long horizontal stroke extending to the right.

**Review of principal activities, the results of those activities and any significant changes in the nature of those activities during the year**

ALAEA has many stakeholders, including the members we care for and their families, our staff and volunteers, the broader community who use air travel, the government agencies that regulate the air travel industry and our suppliers. ALAEA's sees it position as being the peak body to advise government and assist in advising on the effective regulation of the air travel industry in respect of maintenance and safety issues which are paramount not only to those who use the air travel but to those who may be impacted by that air travel – notably the wider Australian community. There have been no significant changes in the nature of these activities.

In keeping with this philosophy the principal activities of ALAEA during the financial year achieved the following results:

- provided welfare and support facilities and other services including information on technical developments in the aircraft industry, journals and employment related information to members of ALAEA.
- provided legal representation for workplace related matters and negotiating Enterprise Bargaining Agreements (EBA's) and Australian Workplace Agreements (AWA's) on behalf of members of ALAEA.
- promoted and enforced high standards in aircraft maintenance.
- provided a means of liaison between the Civil Aviation Safety Authority and Licenced Aircraft Engineers in connection with all matters involving Licenced Aircraft Engineers and the general promotion of safety standards in the aircraft industry.

**Significant Changes in Financial Affairs**

In the opinion of the Committee of Management, there were no significant changes in the state of affairs of ALAEA that occurred during the financial year under review not otherwise disclosed in this report.

**Number of Members**

At balance date there were 3,041 members of ALAEA. This number consisted of 586 members that have chosen not to resign from the Association but have taken associate status, meaning they pay no dues and have relinquished voting rights but are entitled to ongoing representation and association benefits if required.

**THE AUSTRALIAN LICENCED AIRCRAFT ENGINEERS' ASSOCIATION**  
**ABN 84 234 747 620**

**Operating Report**  
**For the year ended 31 December, 2018**

**Number of Employees**

At balance date there were 10 equivalent full-time employees (2017:8).

**Rights of Members to Resign**

Part 6 of ALAEA's constitution provides the following:

- (1) A member of the Association may resign from membership by written notice addressed and delivered to the Federal secretary, or addressed and delivered to the officer performing the duties of the Federal Secretary at the Registered Office of the Association.
- (2) A member ceases to be eligible for membership if he ceases to be employed:
  - (a) in or in connection with an industry or industrial pursuit in respect of which the Association has constitutional coverage.
- (3) A notice of resignation from membership of the Association takes effect:
  - (a) where the member ceases to be eligible to become a member of the Association:
    - (i) on the day on which the notice is received by the Association; or
    - (ii) on the day specified in the notice, which is a day not earlier than the day when the member ceases to become a member;whichever is later.
  - (b) in any other cases, a member's notice of resignation shall take effect:
    - (i) at the end of two weeks after the notice is received by the Association;
    - (ii) or on the day specified in the notice;whichever is later.
- (4) Any dues payable but not paid by the former member, in relation to a period before the member's resignation from the Association took effect, may be sued for and recovered in the name of the Association, in a court of competent jurisdiction, as a debt due to the Association.
- (5) A notice delivered to the person mentioned in (1) above shall be taken to have been received by the Association when it is delivered.
- (6) A notice of resignation that has been received by the Association is not invalid because it was not addressed and delivered in accordance with (1) above.
- (7) A resignation from membership is valid even if it is not effected in accordance with this Rule if the member is informed in writing by on behalf of the Association that his resignation has been accepted.

**Contingencies and Commitments**

There are no contingencies or commitments other than stated at Notes 9 & 12.

**Officers or members who are a Trustee of a superannuation entity or Director of a company that is a Trustee of a superannuation entity where being a member or officer of a registered organisation is a criterion for them holding such position**

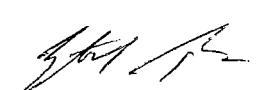

There are no officers or members holding such position.

Signed in accordance with a resolution of the Members of the Committee of Management.

**Committee of Management Statement**

On 15 MAY 2019, the Committee of Management of The Australian Licenced Aircraft Engineers' Association ("ALAEA") passed the following resolution in relation to the general purpose financial report ("GPFR") for the financial year ended 31 December 2018:

The Committee of Management declares in relation to the GPFR that in its opinion:

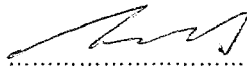

- (a) the financial statements and notes comply with the Australian Accounting Standards;
- (b) the financial statements and notes comply with any other requirements imposed by the Reporting Guidelines or Part 3 of Chapter 8 of the *Fair Work (Registered Organisations) Act 2009* (the RO Act);
- (c) the financial statements and notes give a true and fair view of the financial performance, financial position and cash flow of the reporting unit for the financial year to which they relate;
- (d) there are reasonable grounds to believe that the reporting unit will be able to pay its debts as and when they become due and payable;
- (e) during the financial year to which the GPFR relates and since the end of that year:
  - (i) meetings of the committee of management were held in accordance with the rules of the organisation; and
  - (ii) the financial affairs of the reporting unit have been managed in accordance with the rules of the organisation; and
  - (iii) the financial records of the reporting unit have been kept and maintained in accordance with the RO Act; and
  - (iv) the organisation is the sole reporting unit; and
  - (v) there has not been any request for information by a member of the reporting unit or Commissioner duly made under section 272 of the RO Act; and
  - (vi) no orders for inspection of financial records have been made by the FWC under section 273 of the RO Act.

This declaration is made in accordance with a resolution of the Committee of Management of ALAEA.

**NOTES TO THE FINANCIAL STATEMENTS for the year ended 31 December 2018**

**1. Statement of significant accounting policies**

The financial report covers The Australian Licenced Aircraft Engineers' Association (hereinafter also referred to as "ALAEA") as an individual not for profit entity. ALAEA is a Trade Union registered under the Fair Work (Registered Organisations) Act 2009 and is domiciled in Australia and affiliated to the ACTU.

**Basis of Preparation**

The financial statements are general purpose financial statements and have been prepared in accordance with Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board (AASB) that apply for the reporting period and the *Fair Work (Registered Organisation) Act 2009 (RO Act)*. For the purpose of preparing the general purpose financial statements, ALAEA is a not-for-profit entity.

The financial statements, except for the cash flow information, have been prepared on an accruals basis and are based on historical costs, modified, where applicable by the measurement at fair value of selected non-current assets, financial assets and financial liabilities. Except where stated, no allowance is made for the effect of changing prices on the results or the financial position. The amounts presented in the financial statements have been rounded to the nearest dollar.

No accounting standard has been adopted earlier than the application date stated in the standard.

Material accounting policies adopted in the preparation of these financial statements are presented below and have been consistently applied unless otherwise stated.

**Accounting Policies**

**(a) Revenue and Other Income**

Revenue from the sale of goods is recognised upon the delivery of goods to customers.

Revenue from members' subscriptions and joining fees entitles the member to services to be provided during the membership period and therefore revenue is recognised over the period that reflects the timing, nature and value of the benefits provided. Membership fees received relating to future financial periods are recognised as deferred income.

Interest revenue is recognised on a proportional basis taking into account the interest rates applicable to the financial assets.

Revenue from the rendering of a service is recognised upon the delivery of the service.

No amounts are included in the financial statements for services donated by volunteers.

All revenue is stated net of the amount of goods and services tax (GST).

**(b) Property, Plant and Equipment**

**Property**

Freehold land and buildings are measured on the cost basis less subsequent depreciation for buildings and impairment losses.

**THE AUSTRALIAN LICENCED AIRCRAFT ENGINEERS' ASSOCIATION**  
**ABN 84 234 747 620**

**NOTES TO THE FINANCIAL STATEMENTS for the year ended 31 December 2018**

**1. Statement of significant accounting policies (continued)**

**(b) Property, Plant and Equipment (continued)**

**Plant and Equipment**

Plant and equipment are measured on the cost basis and are therefore carried at cost less accumulated depreciation and any accumulated impairment losses.

ALAEA does not believe that it is necessary to revalue land and buildings at this time.

The carrying amount of plant and equipment is reviewed annually by the Committee to ensure it is not in excess of the recoverable amount from these assets. In the event the carrying amount of plant and equipment is greater than its estimated recoverable amount, the carrying amount is written down immediately to its estimated recoverable amount and impairment losses recognised either in profit or loss or as a revaluation decrease if the impairment losses relate to a revalued asset. A formal assessment of recoverable amount is made when impairment indicators are present (refer to Notes 1(c) and 1(d) for details of impairment).

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the association and the cost of the item can be measured reliably. All other repairs and maintenance are recognised as expenses in profit or loss during the financial period in which they are incurred.

**Depreciation**

The depreciable amount of all fixed assets including building and capitalised lease assets, but excluding freehold land, is depreciated on a straight line basis over their useful lives to ALAEA commencing from the time the asset is held ready for use. Leasehold improvements are depreciated over the shorter of either the unexpired period of the lease or the estimated useful lives of the improvements.

The depreciation rates used for each class of depreciable assets are:

<b>Class of fixed asset</b>	<b>Depreciation rate</b>	<b>Depreciation basis</b>
Buildings	5% - 10%	Prime cost
Office equipment & furniture	10% - 33.3%	Prime cost
Motor vehicles	12.5% - 15%	Prime cost

The assets' residual values and useful lives are reviewed and adjusted, if appropriate, at the end of each reporting period.

Each asset class's carrying amount is written down immediately to its recoverable amount if the class's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with the carrying amount. These gains or losses are included in the Statement of Comprehensive Income when the item is de-recognised. When revalued assets are sold, amounts included in the revaluation reserve relating to that asset are transferred to retained earnings.

**THE AUSTRALIAN LICENCED AIRCRAFT ENGINEERS' ASSOCIATION**  
**ABN 84 234 747 620**

**NOTES TO THE FINANCIAL STATEMENTS for the year ended 31 December 2018**

**1. Statement of significant accounting policies (continued)**

**(c) Financial Instruments**

**Initial Recognition & Measurement**

Financial assets and financial liabilities are recognised when ALAEA becomes a party to the contractual provisions of the instrument. For financial assets, this is the date that ALAEA commits to either purchase or sell the asset (i.e. trade date accounting is adopted).

Financial instruments (except for trade receivables) are initially measured at fair value plus transaction costs, except where the instrument is classified "at fair value through profit or loss", in which case transaction costs are expensed to profit or loss immediately.

Where available, quoted prices in an active market are used to determine fair value. In other circumstances, valuation techniques are adopted.

Trade receivables are initially measured at the transaction price if the trade receivables do not contain a significant financing component or if the practical expedient was applied as specified in AASB 15.63.

**Classification and Subsequent Measurement**

**Financial liabilities**

Financial liabilities are subsequently measured at:

- amortised cost; or
- fair value through profit and loss.

A financial liability is measured at fair value through profit and loss if the financial liability is:

- a contingent consideration of an acquirer in a business combination to which AASB 3: Business Combinations applies;
- held for trading; or
- initially designated as at fair value through profit or loss.

All other financial liability is subsequently measured at amortised cost using the effective interest method.

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest expense in profit or loss over the relevant period.

The effective interest rate is the internal rate of return of the financial asset or liability, that is, it is the rate that exactly discounts the estimated future cash flows through the expected life of the instrument to the net carrying amount at initial recognition.

A financial liability is held for trading if:

- it is incurred for the purpose of repurchasing or repaying in the near term;
- it is part of a portfolio where there is an actual pattern of short-term profit taking; or
- it is a derivative financial instrument (except for a derivative that is in a financial guarantee contract or a derivative that is in effective hedging relationships)

Any gains or losses arising on changes in fair value are recognised in profit or loss to the extent that they are not part of a designated hedging relationship.

The change in fair value of the financial liability attributable to changes in the issuer's credit risk is taken to other comprehensive income and is not subsequently reclassified to profit or loss. Instead, it is transferred to retained earnings upon derecognition of the financial liability.

If taking the change in credit risk in other comprehensive income enlarges or creates an accounting mismatch, then these gains or losses should be taken to profit or loss rather than other comprehensive income.

NOTES TO THE FINANCIAL STATEMENTS for the year ended 31 December 2018

1. Statement of significant accounting policies (continued)

(c) Financial Instruments (continued)

A financial liability cannot be reclassified. A financial liability cannot be reclassified.

**Financial assets**

Financial assets are subsequently measured at:

- amortised cost; or
- fair value through other comprehensive income; or
- fair value through profit and loss

on the basis of the two primary criteria:

- the contractual cash flow characteristics of the financial asset; and
- the business model for managing the financial assets.

A financial asset is subsequently measured at amortised cost if it meets the following conditions:

- the financial asset is managed solely to collect contractual cash flows; and
- the contractual terms within the financial asset give rise to cash flows that are solely payments of principal and interest on the principle amount outstanding on specified dates.

A financial asset is subsequently measured at fair value through other comprehensive income if it meets the following conditions:

- the contractual terms within the financial asset give rise to cash flows that are solely payments of principal and interest on the principle amount outstanding on specified dates; and
- the business model for managing the financial assets comprises both contractual cash flows collection and the selling of the financial asset.

**Fair value through profit or loss**

By default, all other financial assets that do not meet the conditions of amortised cost and fair value through other comprehensive income's measurement condition are subsequently measured at fair value through profit and loss.

The entity initially designates a financial instrument as measured at fair value through profit and loss if:

- it eliminates or significantly reduces a measurement or recognition inconsistency (often referred to as accounting mismatch) that would otherwise arise from measuring assets or liabilities or recognising the gains and losses on them on different bases;
- it is in accordance to the documented risk management or investment strategy and information about the entity was documented appropriately, so as the performance of the financial liability that was part of an entity's financial liabilities or financial assets can be managed and evaluated consistently on a fair value basis; and
- it is a hybrid contract that contains an embedded derivative that significantly modifies the cash flows otherwise required by the contract.

The initial designation of the financial instruments to measure at fair value through profit and loss is a one-time option on initial classification and is irrevocable until the financial asset is derecognised.

**Equity instruments**

At initial recognition, as long as the equity instrument is not held for trading or not a contingent consideration recognised by an acquirer in a business combination to which AASB 3 applies, the entity made an irrevocable election to measure the equity instruments in other comprehensive income, while the dividend revenue received on underlying equity instruments investment will still be recognised in profit and loss.

Regular way purchases and sales of financial assets are recognised and derecognised at settlement date in accordance with the entity's accounting policy.

NOTES TO THE FINANCIAL STATEMENTS for the year ended 31 December 2018

1. Statement of significant accounting policies (continued)

(c) Financial Instruments (continued)

**Derecognition**

Derecognition refers to the removal of a previously recognised financial asset or financial liability from the statement of financial position.

***Derecognition of financial liabilities***

A liability is derecognised when it is extinguished (ie when the obligation in the contract is discharged, cancelled or expires). An exchange of an existing financial liability for a new one with substantially modified terms, or a substantial modification to the terms of a financial liability, is treated as an extinguishment of the existing liability and recognition of a new financial liability.

The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss.

***Derecognition of financial assets***

A financial asset is derecognised when the holder's contractual rights to its cash flows expires, or the asset is transferred in such a way that all the risks and rewards of ownership are substantially transferred.

All the following criteria need to be satisfied for derecognition of a financial asset:

- the right to receive cash flows from the asset has expired or been transferred;
- all risk and rewards of ownership of the asset have been substantially transferred; and
- the entity no longer controls the asset (ie no practical ability to make unilateral decision to sell the asset to a third party).

On derecognition of a financial asset measured at amortised cost, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in profit or loss.

On derecognition of a debt instrument classified as at fair value through other comprehensive income, the cumulative gain or loss previously accumulated in the investment revaluation reserve is reclassified to profit or loss.

On derecognition of an investment in equity which was elected to be classified under fair value through other comprehensive income, the cumulative gain or loss previously accumulated in the investments revaluation reserve is not reclassified to profit or loss, but is transferred to retained earnings.

**Impairment**

The entity recognises a loss allowance for expected credit losses on:

- financial assets that are measured at amortised cost or fair value through other comprehensive income;
- lease receivables;
- contract assets (eg amount due from customers under construction contracts);
- loan commitments that are not measured at fair value through profit or loss; and
- financial guarantee contracts that are not measured at fair value through profit or loss.

Loss allowance is not recognised for:

- financial assets measured at fair value through profit or loss; or
- equity instruments measured at fair value through other comprehensive income.

**THE AUSTRALIAN LICENCED AIRCRAFT ENGINEERS' ASSOCIATION**  
**ABN 84 234 747 620**

**NOTES TO THE FINANCIAL STATEMENTS for the year ended 31 December 2018**

**1. Statement of significant accounting policies (continued)**

**(c) Financial Instruments (continued)**

**Impairment (continued)**

Expected credit losses are the probability-weighted estimate of credit losses over the expected life of a financial instrument. A credit loss is the difference between all contractual cash flows that are due and all cash flows expected to be received, all discounted at the original effective interest rate of the financial instrument.

The entity uses the following approaches to impairment, as applicable under AASB 9:

- the general approach;
- the simplified approach;
- the purchased or originated credit impaired approach; and
- low credit risk operational simplification.

*General approach*

Under the general approach, at each reporting period, the entity assesses whether the financial instruments are credit impaired, and if:

- the credit risk of the financial instrument has increased significantly since initial recognition, the entity measures the loss allowance of the financial instrument at an amount equal to the lifetime expected credit losses; and
- there is no significant increase in credit risk since initial recognition, the entity measures the loss allowance for that financial instrument at an amount equal to 12-month expected credit losses.

*Simplified approach*

The simplified approach does not require tracking of changes in credit risk at every reporting period, but instead requires the recognition of lifetime expected credit loss at all times.

This approach is applicable to:

- trade receivables or contract assets that result from transactions that are within the scope of AASB 15, that contain a significant financing component; and
- lease receivables.

In measuring the expected credit loss, a provision matrix for trade receivables is used, taking into consideration various data to get to an expected credit loss, (i.e. diversity of its customer base, appropriate groupings of its historical loss experience etc.).

*Purchased or originated credit-impaired approach*

For a financial asset that is considered to be credit impaired (not on acquisition or originations), the entity measures any change in its lifetime expected credit loss as the difference between the asset's gross carrying amount and the present value of estimated future cash flows discounted at the financial asset's original effective interest rate. Any adjustment is recognised in profit or loss as an impairment gain or loss.

The simplified approach does not require tracking of changes in credit risk at every reporting period, but instead requires the recognition of lifetime expected credit loss at all times.

Evidence of credit impairment includes:

- significant financial difficulty of the issuer or borrower;
- a breach of contract (eg default or past due event);
- where a lender has granted to the borrower a concession, due to borrower's financial difficulty, that the lender would not otherwise consider;
- where it is probable the borrower will enter bankruptcy or other financial reorganisation; and
- the disappearance of an active market for the financial asset because of financial difficulties.

**THE AUSTRALIAN LICENCED AIRCRAFT ENGINEERS' ASSOCIATION**  
**ABN 84 234 747 620**

**NOTES TO THE FINANCIAL STATEMENTS for the year ended 31 December 2018**

**1. Statement of significant accounting policies (continued)**

**(c) Financial Instruments (continued)**

**Impairment (continued)**

*Low credit risk operational simplification approach*

If a financial asset is determined to have low credit risk at the initial reporting date, the entity assumes that the credit risk has not increased significantly since initial recognition and accordingly can continue to recognise a loss allowance of 12-month expected credit loss.

A financial asset is considered to have low credit risk if:

- there is a low risk of default by the borrower;
- the borrower has strong capacity to meet its contractual cash flow obligations in the near term; and
- adverse changes in economic and business conditions in the longer term, may, but not necessarily, reduce the ability of the borrower to fulfil its contractual cash flow obligations.

A financial asset is not considered to carry low credit risk merely due to existence of collateral, or because a borrower has a lower risk of default than the risk inherent in the financial assets, or lower than the credit risk of the jurisdiction in which it operates.

*Recognition of expected credit losses in financial statements*

At each reporting date, the entity recognises the movement in the loss allowance as an impairment gain or loss in the statement of profit or loss and other comprehensive income.

The carrying amount of financial assets measured at amortised cost includes the loss allowance relating to that asset.

Assets measured at fair value through other comprehensive income are recognised at fair value with changes in fair value recognised in other comprehensive income. The amount in relation to change in credit risk is transferred from other comprehensive income to profit or loss at every reporting period.

For financial asset that are unrecognised (eg loan commitments yet to be drawn, financial guarantees), a provision for loss allowance is created in the statement of financial position to recognise the loss allowance.

**(d) Impairment of Assets**

At the end of each reporting period, ALAEA assesses whether there is any indication that an asset may be impaired. The assessment will consider both external and internal sources of information. If such an indication exists, an impairment test is carried out on the asset by comparing the recoverable amount of that asset, being the higher of the asset's fair value less costs of disposal and its value in use, to the asset's carrying amount. For non-cash generating specialised assets measured using the cost basis, the recoverable amount is determined using current replacement cost in AASB 13 Fair Value Measurement. Any excess of the asset's carrying amount over its recoverable amount is immediately recognised in profit or loss.

Where it is not possible to estimate the recoverable amount of an individual asset, ALAEA estimates the recoverable amount of the cash-generating unit to which the asset belongs.

**THE AUSTRALIAN LICENCED AIRCRAFT ENGINEERS' ASSOCIATION**  
**ABN 84 234 747 620**

**NOTES TO THE FINANCIAL STATEMENTS for the year ended 31 December 2018**

**1. Statement of significant accounting policies (continued)**

**(e) Employee Benefits**

**Short-term employee benefits**

Provision is made for ALAEA's obligation for short-term employee benefits. Short-term employee benefits are benefits (other than termination benefits) that are expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service, including wages, salaries and sick leave. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled.

ALAEA's obligations for short-term employee benefits such as wages, salaries and sick leave are recognised as a part of other payables in the statement of financial position.

**Other long-term employee benefits**

Provision is made for employees' annual leave entitlements not expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service. Other long-term employee benefits are measured at the present value of the expected future payments to be made to employees. In determining the liability, consideration is given to employee wage increases and the probability that the employee may not satisfy vesting requirements. Those cash outflows are discounted using market yields on national government bonds with terms to maturity that match the expected timing of cash flows. Any re-measurements of obligations of other long-term employee benefit obligations due to changes in assumptions are recognised in profit or loss in the periods in which the changes occur.

ALAEA's obligations for long-term employee benefits are presented as non-current provisions in its statement of financial position, except where the association does not have an unconditional right to defer settlement for at least 12 months after the end of the reporting period, in which case the obligations are presented as current provisions.

ALAEA makes contributions to employee superannuation plans (not controlled by ALAEA, its Trustees or its Committee members). Such contributions are charged as expenses as incurred. ALAEA has no legal obligation to cover any shortfall in those superannuation plans' obligations to provide benefits to employees on retirement.

**(f) Cash and Cash Equivalents**

Cash and cash equivalents include cash on hand, deposits held at call with banks, other short-term highly liquid investments with original maturities of six months to ten months.

**(g) Accounts receivable and other debtors**

Accounts receivable and other debtors include amounts due from members as well as amounts receivable from customers for goods sold in the ordinary course of business. Receivables expected to be collected within 12 months of the end of the reporting period are classified as current assets. All other receivables are classified as non-current assets.

Accounts receivable are initially recognised at fair value and subsequently measured at amortised cost using the effective interest rate method, less any provision for impairment. Refer to Note 1(c) and (d) for further discussion on the determination of impairment losses.

**THE AUSTRALIAN LICENCED AIRCRAFT ENGINEERS' ASSOCIATION**  
**ABN 84 234 747 620**

**NOTES TO THE FINANCIAL STATEMENTS for the year ended 31 December 2018**

**1. Statement of significant accounting policies (continued)**

**(h) Goods and Services Tax (GST)**

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO).

Receivables and payables are stated inclusive of the amount of GST receivable or payable. The net amount of GST recoverable from, or payable to, the ATO is included with other receivables or payables in the statement of financial position.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to, the ATO are presented as operating cash flows included in receipts from customers or payments to suppliers.

**(i) Income Tax and Fringe Benefits Tax**

ALAEA is a registered Trade Union and exempt from income tax under Section 50-1 of the Income Tax Assessment Act 1997.

ALAEA has obligations for Fringe Benefits Tax (FBT).

**(j) Intangibles**

Intangible assets with finite lives that are acquired separately are carried at cost less accumulated amortisation and accumulated impairment losses. Amortisation is recognised on a straight-line basis over their estimated useful life. The estimated useful lives and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis.

ALAEA acquired certain education manuals in prior years. The expected useful life of these manuals are 20-30 years. ALAEA has determined that due to this indefinite useful life that these assets will be carried at cost less accumulated impairment costs.

**(k) Provisions**

Provisions are recognised when ALAEA has a legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured. Provisions recognised represent the best estimate of the amounts required to settle the obligation at the end of reporting period.

**(l) Affiliation fee**

ALAEA is required to pay an annual affiliation fee to the ACTU. Other voluntary affiliation fees are also paid to other relevant organisations.

**(m) Comparative Figures**

Where required by Accounting Standards or the reporting requirements of the Fair Work Act (Registered Organisations) Act 2009 comparative figures have been adjusted to conform with changes in presentation for the current financial year.

Where the association retrospectively applies an accounting policy, makes a retrospective restatement or reclassifies items in its financial statements, a third statement of financial position as at the beginning of the preceding period is presented in addition to the minimum comparative financial statements.

**THE AUSTRALIAN LICENCED AIRCRAFT ENGINEERS' ASSOCIATION**  
**ABN 84 234 747 620**

**NOTES TO THE FINANCIAL STATEMENTS for the year ended 31 December 2018**

**1. Statement of significant accounting policies (continued)**

**(n) Accounts Payable and Other Payables**

Accounts payable and other payables represent the liability outstanding at the end of the reporting period for goods and services received by ALAEA during the reporting period and employee RDO's which remain unpaid. The balance (including employee RDO's as these may be taken at any time by employees or requested to be paid out at any time by employees) is recognised as a current liability with amounts other than all RDO's normally paid within 60 days of recognition of the liability.

**(o) Critical accounting estimates and judgments**

The Committee evaluates estimates and judgments incorporated into the financial statements based on historical knowledge and best available current information. Estimates assume a reasonable expectation of future events and are based on current trends and economic data, obtained both externally and within ALAEA.

**• Key estimates**

*Impairment - General*

ALAEA assesses impairment at the end of each reporting period by evaluation of conditions and events specific to ALAEA that may be indicative of impairment triggers. Recoverable amounts of relevant assets are re-assessed using estimates of sale values.

No impairment has been recognised in respect of intangible assets in the current year.

**• Key judgements**

*Provision for employee benefits (short term)*

For the purpose of measurement, AASB 119: Employee Benefits (September 2011) defines obligations for short-term employee benefits as obligations expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related services. As the association expects that all of its employees would use all of their annual leave entitlements earned during a reporting period before 12 months after the end of the reporting period, the association believes that obligations for annual leave entitlements satisfy the definition of short-term employee benefits and, therefore, can be measured at the (undiscounted) amounts expected to be paid to employees when the obligations are settled.

*Provision for employee benefits (long term)*

Provisions for employee benefits payable after 12 months from the reporting date are based on future wage and salary levels, experience of employee departures and periods of service, as discussed in Note 1(e). The amount of these provisions would change should any of these factors change in the next 12 months.

**(p) Going Concern\*\***

ALAEA is not reliant on any agreed financial support of another reporting unit to continue on a going concern basis.

ALAEA has not agreed to provide financial support to another reporting unit to ensure they can continue on a going concern basis.

The Management Committee has determined that the going concern basis of preparation of the financial report is appropriate.

**THE AUSTRALIAN LICENCED AIRCRAFT ENGINEERS' ASSOCIATION**  
**ABN 84 234 747 620**

**NOTES TO THE FINANCIAL STATEMENTS for the year ended 31 December 2018**

**1. Statement of significant accounting policies (continued)**

**(q) New and Amended Accounting Policies Adopted by the Association**

**Initial application of AASB 9: Financial Instruments**

The association has adopted AASB 9: Financial Instruments with a date of initial application of 1 January 2018. As a result the association has changed its financial instruments accounting policies as detailed in the significant accounting policies note 1(c).

Considering the initial application of AASB 9 during the financial period, financial statement line items have been affected for the current and prior period. Below in this note are the adjustments made to the affected financial statement line items.

**Disclosure: Initial application of AASB 9**

There were no financial assets/liabilities which the association had previously designated as at fair value through profit or loss under *AASB 139: Financial Instruments: Recognition and Measurement* that were subject to reclassification/elected reclassification upon the application of AASB 9.

There were no financial assets/liabilities which the association has elected to designate as at fair value through profit or loss at the date of initial application of AASB 9.

In applying AASB 9 and the related consequential amendments to other AASBs new requirements were introduced for the classification and measurement of financial assets and financial liabilities, as well as for impairment and general hedge accounting.

The date of initial application was 1 January 2018. The association has applied AASB 9 to instruments that have not been derecognised as at 1 January 2018 and has not applied AASB 9 to instruments that have already been derecognised as at 1 January 2018. Comparative amounts in relation to instruments that have not been derecognised as at 1 January 2018 have been restated where appropriate.

Financial assets in terms of AASB 9 need to be measured subsequently at either amortised cost or fair value on the basis of the association's business model and the cash flow characteristics of the financial assets, as follows:

- (a) debt investments that are held within a business model whose goal is to collect the contractual cash flows, and that have contractual cash flows that are purely payments of principal and interest on the principal amount outstanding, are subsequently measured at amortised cost;
- (b) debt investments that are held within a business model whose goal is both to collect contractual cash flows and to sell it, and that have contractual cash flows that are purely payments of principal and interest on the principal amount outstanding, are subsequently measured at fair value through other comprehensive income; and
- (c) all other debt investments and equity investments are measured at fair value through profit or loss.

Despite the issues mentioned above, the association may make irrevocable election at initial recognition of a financial asset as follows:

- (a) the association may choose to present subsequent changes in fair value of an equity investment that is not held for trading and not a contingent consideration in a business combination in other comprehensive income; and
- (b) amortised cost or fair value through other comprehensive income criteria as measured at fair value through profit or loss if this choice significantly reduces an accounting mismatch.

When an equity investment at fair value through other comprehensive income has a gain or loss previously recognised in other comprehensive income, it is not reclassified to profit or loss. However, when a debt investment at fair value through other comprehensive income is derecognised, the gain or loss recognised in other comprehensive income is reclassified from equity to profit or loss as a reclassification adjustment.

Debt instruments that are subsequently measured at amortised cost or at fair value through other comprehensive income are subject to impairment.

**THE AUSTRALIAN LICENCED AIRCRAFT ENGINEERS' ASSOCIATION**  
**ABN 84 234 747 620**

**NOTES TO THE FINANCIAL STATEMENTS for the year ended 31 December 2018**

**1. Statement of significant accounting policies (continued)**

**(q) New and Amended Accounting Policies Adopted by the Association (continued)**

**Disclosure: Initial application of AASB 9 (continued)**

The directors of the association determined the existing financial assets as at 1 January 2018 based on the facts and circumstances that were present and determined that the initial application of AASB 9 had the following effect:

- financial assets as held-to-maturity and loans and receivables that were measured at amortised cost continue to be measured at amortised cost under AASB 9 as they are held to collect contractual cash flows and these cash flows consist solely of payments of principal and interest on the principal amount outstanding.

This Note contains a table that shows the effect of classification of the financial assets upon initial application.

**Impairment**

As per AASB 9, an expected credit loss model is applied, not an incurred credit loss model as per the previous standard applicable (AASB 139). To reflect changes in credit risk, this expected credit loss model requires the association to account for expected credit losses since initial recognition.

AASB 9 also determines that a loss allowance for expected credit loss be recognised on debt investments subsequently measured at amortised cost or at fair value through other comprehensive income, lease receivables, contract assets, loan commitments and financial guarantee contracts as the impairment provision would apply to them.

If the credit risk on a financial instrument did not show significant change since initial recognition, an expected credit loss amount equal to 12-month expected credit losses are used. However, a loss allowance is recognised at an amount equal to the lifetime expected credit loss if the credit risk on that financial instrument has increased significantly since initial recognition, or if the instrument is an acquired credit-impaired financial asset.

There were no trade receivables at year end to which to apply impairment.

**Classification and measurement of financial liabilities**

AASB 9 determines that the classification and measurement of financial liabilities relates to changes in the fair value designated as at fair value through profit or loss attributable to changes in the credit risk.

AASB 9 further states that the movement in the fair value of financial liabilities that is attributable to changes in the credit risk of that liability needs to be shown in other comprehensive income unless the effect of the recognition constitutes accounting mismatch in profit or loss. Changes in fair value in relation to the financial liability's credit risk are transferred to retained surplus when the financial liability is derecognised and not reclassified through profit or loss. AASB 139 requires the fair value amount of the change of the financial liability designated as at fair value through profit or loss to be presented in profit or loss.

Apart from the above, the application of AASB 9 has had no impact on the classification and measurement of the association's financial liabilities.

**THE AUSTRALIAN LICENCED AIRCRAFT ENGINEERS' ASSOCIATION**  
**ABN 84 234 747 620**

**NOTES TO THE FINANCIAL STATEMENTS for the year ended 31 December 2018**

**1. Statement of significant accounting policies (continued)**

**(q) New and Amended Accounting Policies Adopted by the Association (continued)**  
**Classification and measurement of financial liabilities**

The following table represents the classification and measurement of financial assets and financial liabilities under AASB 9 and AASB 139 at the date of initial application, 1 January 2018.

Financial assets	Financial instrument category		Carrying amount AASB 9 recognition of additional loss allowance		
	AASB 139 original	AASB 9 new	AASB 139 original \$	AASB 9 new \$	AASB 9 new \$
<b>Current and non-current</b>					
Accounts receivable and other debtors	Loans and receivables (amortised cost)	Financial assets at amortised cost	-	-	-
Cash and cash equivalents	Loans and receivables (amortised cost)	Financial assets at amortised cost	3,852,148	-	3,852,148
<b>Financial liabilities</b>					
<b>Current and non-current</b>					
Trade payables and other payables	Amortised cost	Financial liabilities at amortised cost	266,765	-	266,765

There is no additional loss allowance resulting in AASB 9 initial application is due to the change in measurement category of each financial asset.

No impact on the financial asset's carrying amounts on initial application has occurred.

The amount of any financial assets and financial liabilities in the statement of financial position that were previously designated as measured at fair value through profit or loss have not been reclassified.

There were no financial assets or financial liabilities which the association has elected to designate as at fair value through profit or loss at the date of initial application of AASB 9.

There have been no AASB 9 adjustments made to statement of financial position in the current or comparative year.

There have been no AASB 9 adjustments made to statement of profit or loss and other comprehensive income in the current or comparative year.

**THE AUSTRALIAN LICENCED AIRCRAFT ENGINEERS' ASSOCIATION**  
**ABN 84 234 747 620**

**NOTES TO THE FINANCIAL STATEMENTS for the year ended 31 December 2018**

**1. Statement of significant accounting policies (continued)**

**(r) New Accounting Standards for Application in Future Periods**

Australian Accounting Standards and Interpretations that have recently been issued or amended but are not yet effective have not been adopted by the entity for the annual reporting period ended 31 December 2018. The new standards, interpretations and amendments are not expected to have a significant impact on the financial statements. ALAEA's assessment of the new and amended pronouncements that are relevant to ALAEA but applicable in future reporting periods is set out below:

*AASB 15 Revenue from Contracts with Customers (effective for periods commencing 1 January 2019)*

When effective, this Standard will replace the current accounting requirements applicable to revenue with a single, principles-based model. Except for a limited number of exceptions, including leases, the new revenue model in AASB 15 will apply to all contracts with customers as well as non-monetary exchanges between entities in the same line of business to facilitate sales to customers and potential customers. The core principle of the Standard is that an entity will recognise revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for the goods or services.

To achieve this objective, AASB 15 provides the following five-step process:

- (a) Identify the contract(s) with a customer;
- (b) Identify the performance obligations in the contract(s);
- (c) Determine the transaction price;
- (d) Allocate the transaction price to the performance obligations in the contract(s); and,
- (e) Recognise revenue when (or as) the entity satisfies a performance obligation.

The transitional provisions of this Standard permit an entity to either:

- re-state the contracts that existed in each prior period presented as per AASB 108: Accounting Policies, Changes in Accounting Estimates and Errors (subject to certain practical expedients in AASB 15); or,
- recognise the cumulative effect of retrospective application to incomplete contracts on the date of initial application. There are also enhanced disclosure requirements regarding revenue.

ALAEA is yet to undertake a detailed assessment of the impact of AASB 15. However, based on the entity's preliminary assessment, the Standard is not expected to have a material impact on the transactions and balances recognised in the financial statements when it is first adopted for the year ending 31 December 2019.

*AASB 16 Leases (effective for reporting periods commencing 1 January 2019)*

When effective, this Standard will replace the current standard AASB 1117 Leases and some lease related interpretations. AASB 16 introduces a single lessee accounting model that eliminates the requirement for leases to be classified as operating or finance leases. The main items addressed by the new standard are:

- (a) recognition of a right-to-use asset and liability for all leases (excluding short-term leases with less than 12 months of tenure and leases relating to low-value assets);
- (b) depreciation of right-to-use assets in line with AASB 116: *Property, Plant and Equipment* in profit or loss and unwinding of the liability in principal and interest components;
- (c) inclusion of variable lease payments that depend on an index or a rate in the initial measurement of the lease liability using the index or rate at the commencement date;
- (d) application of a practical expedient to permit a lessee to elect not to separate non-lease components and instead account for all components as a lease; and,
- (e) additional disclosure requirements.

**NOTES TO THE FINANCIAL STATEMENTS for the year ended 31 December 2018**

**1. Statement of significant accounting policies (continued)**

**(r) New Accounting Standards for Application in Future Periods**

*AASB 16 Leases (effective for reporting periods commencing 1 January 2019) - continued*

The transitional provisions of AASB 16 allow a lessee to either retrospectively apply the Standard to comparatives in line with AASB 108 or recognise the cumulative effect of retrospective application as an adjustment to opening equity on the date of initial application.

*AASB 1058 Income of Not-for-Profit Entities (effective for reporting periods commencing 1 January 2019)*

This Standard is applicable to transactions that do not arise from enforceable contracts with customers involving performance obligations.

The significant accounting requirements of AASB 1058 are as follows:

- (a) Income arising from an excess of the initial carrying amount of an asset over the related contributions by owners, increases in liabilities, decreases in assets and revenue should be immediately recognised in profit or loss. For this purpose, the assets, liabilities and revenue are to be measured in accordance with other applicable Standards.
- (b) Liabilities should be recognised for the excess of the initial carrying amount of a financial asset (received in a transfer to enable the entity to acquire or construct a recognisable non-financial asset that is to be controlled by the entity) over any related amounts recognised in accordance with the applicable Standards. The liabilities must be amortised to profit or loss as income when the entity satisfies its obligations under the transfer.

An entity may elect to recognise volunteer services or a class of volunteer services as an accounting policy choice if the fair value of those services can be measured reliably, whether or not the services would have been purchased if they had not been donated. Recognised volunteer services should be measured at fair value and any excess over the related amounts (such as contributions by owners or revenue) immediately recognised as income in profit or loss.

The transitional provisions of this Standard permit an entity to either: restate the contracts that existed in each prior period presented in accordance with AASB 108 (subject to certain practical expedients); or recognise the cumulative effect of retrospective application to incomplete contracts on the date of initial application. For this purpose, a completed contract is a contract or transaction for which the entity has recognised all of the income in accordance with AASB 1004: Contributions.

This standard applies when a NFP entity enters into transactions where the consideration to acquire an asset is significantly less than the fair value of the asset principally to enable the entity to further its objectives. In the latter case, the entity will recognize and measure the asset at fair value in accordance with the applicable Australian Accounting Standard (e.g. AASB 116 Property, Plant and Equipment).

ALAEA is yet to undertake a detailed assessment of the impact of AASB 1058. However, based on the ALAEA's preliminary assessment, the Standard is not expected to have a material impact on the transactions and balances recognised in the financial statements when it is first adopted for the year ending 31 December 2019.

**THE AUSTRALIAN LICENCED AIRCRAFT ENGINEERS' ASSOCIATION**  
**ABN 84 234 747 620**

**NOTES TO THE FINANCIAL STATEMENTS for the year ended 31 December 2018**

**1. Statement of significant accounting policies (continued)**

**(r) New Accounting Standards for Application in Future Periods**

*AASB 2016-7: Amendments to Australian Accounting Standards – Deferral of AASB 15 (for not-for-profit profit entities)*

This Standard amends the mandatory effective date (application date) of AASB 15: Revenue from Contracts with Customers for not-for-profit entities so that AASB 15 is required to be applied by such entities for annual reporting periods beginning on or after 1 January 2019 instead of 1 January 2018.

When effective, this Standard will replace the current accounting requirements applicable to revenue with a single, principles-based model. Apart from a limited number of exceptions, including leases, the new revenue model in AASB 15 will apply to all contracts with customers as well as non-monetary exchanges between entities in the same line of business to facilitate sales to customers and potential customers.

The core principle of the Standard is that an entity will recognise revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for the goods or services.

To achieve this objective, AASB 15 provides the following five-step process:

- identify the contract(s) with a customer;
- identify the performance obligations in the contract(s);
- determine the transaction price;
- allocate the transaction price to the performance obligations in the contract(s); and
- recognise revenue when (or as) the performance obligations are satisfied.

The transitional provisions of this Standard permit an entity to either restate the contracts that existed in each prior period presented per AASB 108: Accounting Policies, Changes in Accounting Estimates and Errors (subject to certain practical expedients in AASB 15), or recognise the cumulative effect of retrospective application to incomplete contracts on the date of initial application. There are also enhanced disclosure requirements regarding revenue.

**THE AUSTRALIAN LICENCED AIRCRAFT ENGINEERS' ASSOCIATION**  
**ABN 84 234 747 620**

**NOTES TO THE FINANCIAL STATEMENTS for the year ended 31 December 2018**

**1. Statement of significant accounting policies (continued)**

**(r) New Accounting Standards for Application in Future Periods (continued)**

*AASB 2016-8 Amendments to Australian Accounting Standards – Australian Implementation Guidance for Not-for-Profit Entities*

AASB 2016-8 inserts Australian requirements and authoritative implementation guidance for not-for-profit (NFP) entities into AASB 9 *Financial Instruments* (2014) and AASB 15 *Revenue from Contracts with Customers*. This guidance will assist not-for-profit entities in applying those Standards.

NFP entities will generally apply AASB 15 where an agreement creates enforceable rights and obligations and includes sufficiently specific promises to transfer goods or services to the customer or third party beneficiaries.

ALAEA is yet to undertake a detailed assessment of the impact of this pronouncement. However, based on the ALAEA's preliminary assessment, the Standard is not expected to have a material impact on the transactions and balances recognised in the financial statements when it is first adopted for the year ending 31 December 2019.

*AASB 2017-1 Amendments to Australian Accounting Standards – Transfers of Investment Property, Annual Improvements 2014-2016 Cycle and Other Amendments*

AASB 2017-1 amends:

- (1) AASB 1 *First-time Adoption of Australian Accounting Standards* to delete some short-term exemptions for first-time adopters that were available only for reporting periods that have passed and to add exemptions arising from AASB Interpretation 22 *Foreign Currency Transactions and Advance Consideration*;
- (2) AASB 128 *Investments in Associates and Joint Ventures* to clarify that:
  - (a) a venture capital organisation, or a mutual fund, unit trust and similar entities may elect, at initial recognition, to measure investments in an associate or joint venture at fair value through profit or loss separately for each associate or joint venture; and
  - (b) an entity that is not an investment entity may elect to retain the fair value measurement applied by its associates and joint ventures that are investment entities when applying the equity method. This choice is available separately for each investment entity associate or joint venture; and
- (3) AASB 140 *Investment Property* to reflect the principle that an entity transfers a property to, or from, investment property when, and only when, there is a change in use of the property supported by evidence that a change in use has occurred.

ALAEA is yet to undertake a detailed assessment of the impact of this pronouncement. However, based on the ALAEA's preliminary assessment, the Standard is not expected to have a material impact on the transactions and balances recognised in the financial statements when it is first adopted for the year ending 31 December 2019.

**THE AUSTRALIAN LICENCED AIRCRAFT ENGINEERS' ASSOCIATION**  
**ABN 84 234 747 620**

**NOTES TO THE FINANCIAL STATEMENTS for the year ended 31 December 2018**

**1. Statement of significant accounting policies (continued)**

**(s) Fair Value of Assets and Liabilities**

ALAEA measures some of its assets and liabilities at fair value on either a recurring or non-recurring basis, depending on the requirements of the applicable accounting standard.

'Fair value' is the price ALAEA would receive to sell an asset or would have to pay to transfer a liability in an orderly (i.e. unforced) transaction between independent, knowledgeable and willing market participants at the measurement date.

As fair value is a market-based measure, the closest equivalent observable market pricing information is used to determine fair value. Adjustments to market values may be made having regard to the characteristics of the specific asset or liability. The fair values of assets and liabilities that are not traded in an active market are determined using one or more valuation techniques. These valuation techniques maximise, to the extent possible, the use of observable market data.

To the extent possible, market information is extracted from the principal market for the asset or liability (i.e. the market with the greatest volume and level of activity for the asset or liability). In the absence of such a market, market information is extracted from the most advantageous market available to ALAEA at reporting date (i.e. the market that maximises the receipts from the sale of the asset or minimises the payment made to transfer the liability, after taking into account transaction costs and transport costs).

For non-financial assets, the fair value measurement also takes into account a market participant's ability to use the asset in its highest and best use or to sell it to another market participant that would use the asset in its highest and best use.

The fair value of liabilities and ALAEA's own equity instruments (if any) may be valued, where there is no observable market price in relation to the transfer of such financial instrument, by reference to observable market information where such instruments are held as assets. Where this information is not available, other valuation techniques are adopted and, where significant, detailed in the respective note to the financial statements.

**(t) Additional Information required by the Fair Work Commission by way of reporting guidelines made under section 255 of the Fair Work (Registered Organisations) Act 2009 (the RO Act)**

The new reporting guidelines became effective so as to apply to each financial year of a reporting unit that ends on or after 30 June 2016. The major effect was to stipulate that all reporting units apply Tier 1 reporting requirements as per the Australian Accounting Standard AASB 1053 *Application for Tiers of Australian Accounting Standards*.

In addition to the aforementioned, the guidelines list information to be provided beyond that necessary to comply with the presentation of Tier 1 General Purpose Financial Statements (GPFS). As such items do not form part of GPFS that additional information has generally been suffixed by (\*\*).

**NOTES TO THE FINANCIAL STATEMENTS for the year ended 31 December 2018**

**9. Provisions (continued)**

**Movements in provisions**

**Provision for Employee Benefits**

The current portion for this provision includes the total amount accrued for annual leave entitlements and the amounts accrued for long service leave entitlements that have vested due to employees having completed the required period of service. Based on past experience ALAEA does not expect the full amount of annual leave or long service leave balances classified as current liabilities to be settled within the next 12 months. However, these amounts must be classified as current liabilities since ALAEA does not have an unconditional right to defer the settlement of these amounts in the event employees wish to use their leave entitlement.

The non-current portion for this provision includes amounts accrued for long service leave entitlements that have not yet vested in relation to those employees who have not yet completed the required period of service.

In calculating the present value of future cash flows in respect of long service leave, the probability of long service leave being taken is based upon historical data. The measurement and recognition criteria for employee benefits have been included in Note 1(e).

**Provision for Conferences and Training**

ALAEA no longer provides for estimated conference and training expenses. ALAEA will incur costs in the future in connection with the Federal conference. It is estimated that ALAEA may incur costs of approximately \$120,000 in the year ending 31 December 2022 in the holding of the Federal conference.

**10. Intangible asset**

ALAEA acquired certain education manuals during the year. The expected useful life of these manuals are 20-30 years. Amortisation of these costs may commence in the 2019 year. ALAEA believes that there has been no impairment to this asset.

**NOTES TO THE FINANCIAL STATEMENTS for the year ended 31 December 2018**

**12. Contingent liability**

Estimates of the potential financial effect of contingent liabilities that may become payable:

**Contingent Liabilities**

**Claims:**

ALAEA is unable to quantify the cost of legal actions which may be commenced in the next 12 months in respect of members or in defending actions taken against members and ALAEA.

Based on past experience ALAEA has estimated that it may incur expenses for legal actions of \$300,000 during the 12 months to 31 December 2019.

ALAEA is unable to quantify the additional cost to the association from the possible claims for damages by third parties in the event of losing any of the above legal actions.

**13. Events subsequent to Reporting Date**

No other matters or circumstances have arisen since the end of the financial year which significantly affected or may significantly affect the operations of ALAEA, the results of those operations, or the state of affairs of ALAEA in future financial years other than.

<b>2018</b>	<b>2017</b>

**NOTES TO THE FINANCIAL STATEMENTS for the year ended 31 December 2018**

**14. Related Party Disclosures**

**(i) Related Party Transactions for the Reporting Period (continued)**

**Terms and conditions of transactions with related parties**

The transactions with related parties are made on terms equivalent to those that prevail in arm's length transactions. Amounts owed and amounts owing at the year-end are unsecured and interest free and settlement occurs in cash. Expenses remaining un-vouched after 2 weeks are deducted from any future expense re-imbursement claim. There have been no guarantees provided or received for any related party receivables or payables. For the year ended 30 December 2018, the ALAEA has not recorded any impairment of receivables relating to amounts owed by related parties and declared person or body (2017: \$Nil). This assessment is undertaken each financial year through assessing the exposure and history of settlements with the related party and the market in which the related party operates.

**(ii) Key Management Personnel Remuneration for the Reporting Period**

THE AUSTRALIAN LICENCED AIRCRAFT ENGINEERS' ASSOCIATION  
ABN 84 234 747 620

NOTES TO THE FINANCIAL STATEMENTS for the year ended 31 December 2018

15. Financial Risk Management

**Financial instruments:**

ALAEA's financial instruments consist mainly of deposits with banks, short-term investments, and accounts receivable and payable.

The totals for each category of financial instruments, measured in accordance with AASB 139: *Financial Instruments: Recognition and Measurement*, as detailed in the accounting policies to these financial statements, are as follows:-

	Note	2018 \$	2017 \$
<b>Financial Assets</b>			
Cash and cash equivalents	4	3,852,148	3,833,312
Loans and receivables	5	-	119
		<u>3,852,148</u>	<u>3,833,431</u>
<b>Financial Liabilities</b>			
Financial liabilities at amortised cost			
- Trade and other payables	8	<u>266,765</u>	<u>249,551</u>
		<u>266,765</u>	<u>249,551</u>

**Financial Risk Management Policies**

The Delegated Officers and Employees of the Committee of Management ("DOECOM") is responsible for monitoring and managing ALAEA's compliance with its risk management strategy and consists of senior DOECOM members. The finance committee's overall risk management strategy is to assist ALAEA in meeting its financial targets whilst minimising potential adverse effects on financial performance. Risk management policies are reviewed by the finance committee on a regular basis. These include credit risk policies and future cash flow requirements.

**Specific Financial Risk Exposures and Management**

The main risks ALAEA is exposed to through its financial instruments are credit risk, liquidity risk and market risk relating to interest rate risk. There have been no substantive changes in the types of risks ALAEA is exposed to, how these risks arise, or the Committee's objectives, policies and processes for managing or measuring the risks from the previous period.

**THE AUSTRALIAN LICENCED AIRCRAFT ENGINEERS' ASSOCIATION**  
**ABN 84 234 747 620**

**NOTES TO THE FINANCIAL STATEMENTS for the year ended 31 December 2018**

**(a) Credit risk**

Exposure to credit risk relating to financial assets arises from the potential non-performance by counterparties of their obligations to ALAEA that could lead to a financial loss to ALAEA.

Credit risk is managed through maintaining procedures (such as the utilisation of systems for the approval, granting and renewal of credit limits, regular monitoring of exposure against such limits and monitoring of the financial stability of significant customers and counterparties) ensuring, to the extent possible, that members and counterparties to transactions are of sound credit worthiness.

***Credit Risk Exposures***

The maximum exposure to credit risk by class of recognised financial assets at the end of the reporting period is equivalent to the carrying value and classification of those financial assets (net of any provisions) as presented in the statement of financial position.

In respect of trade and other receivables, ALAEA is not exposed to any significant credit risk exposure to any single counterparty or any group of counterparties having similar characteristics. Trade receivables may consist of membership subscriptions collected by employers at year end and remitted to ALAEA in the following month. Based on historical information about member default rates management consider the credit quality of trade receivables that are not past due or impaired to be good.

Credit risk related to balances with banks and other financial institutions is managed by the finance committee in accordance with approved Board policy.

The credit risk for cash and cash equivalents is considered negligible, since the counterparties are reputable banks with high quality external credit ratings. The carrying amounts disclosed above are ALAEA's maximum possible credit risk exposure in relation to these instruments.

**(b) Liquidity risk**

Liquidity risk arises from the possibility that ALAEA might encounter difficulty in settling its debts or otherwise meeting its obligations related to financial liabilities. ALAEA manages this risk through the following mechanisms:

- preparing forward looking cash flow analysis in relation to its operational, investing and financing activities;
- maintaining a reputable credit profile;
- managing credit risk related to financial assets;
- proactively monitoring the recovery of unpaid subscriptions;
- only investing surplus cash with major financial institutions; and
- comparing the maturity profile of financial liabilities with the realisation profile of financial assets.

The tables below reflect an undiscounted contractual maturity analysis for non-derivative financial liabilities. ALAEA does not hold directly any derivative financial liabilities.

Cash flows realised from financial assets reflect management's expectation as to the timing of realisation. Actual timing may therefore differ from that disclosed. The timing of cash flows presented in the table to settle financial liabilities reflects the earliest contractual settlement dates.

**THE AUSTRALIAN LICENCED AIRCRAFT ENGINEERS' ASSOCIATION**  
**ABN 84 234 747 620**

**NOTES TO THE FINANCIAL STATEMENTS for the year ended 31 December 2018**

**(b) Liquidity risk (continued)**

*Financial liability and financial asset maturity analysis*

	Within 1 Year		1 to 5 years		Over 5 years		Total	
	2018	2017	2018	2017	2018	2017	2018	2017
	\$	\$	\$	\$	\$	\$	\$	\$
<b>Financial liabilities due for payment:</b>								
Accounts payable and other payables (excluding estimated annual leave and deferred income)	266,765	249,551	-	-	-	-	266,765	249,551

Accounts receivable and other debtors	-	119	-	-	-	-	-	119
Other financial assets	-	-	-	-	-	-	-	-
<b>Total anticipated inflows</b>	<b>3,852,148</b>	<b>3,833,431</b>	<b>-</b>	<b>-</b>	<b>-</b>	<b>-</b>	<b>3,852,148</b>	<b>3,833,431</b>
<b>Net (outflow) / inflow on financial instruments</b>	<b>3,585,383</b>	<b>3,583,880</b>	<b>-</b>	<b>-</b>	<b>-</b>	<b>-</b>	<b>3,585,383</b>	<b>3,583,880</b>

*Financial assets pledged as collateral*

No financial assets have been pledged as security for any financial liability.

**(c) Market risk**

**Interest rate risk**

Exposure to interest rate risk arises on financial assets and financial liabilities recognised at the end of the reporting period whereby a future change in interest rates will affect future cash flows or the fair value of fixed rate financial instruments.

The financial instruments which expose ALAEA to interest rate risk are limited to fixed interest securities and cash on hand assets.

ALAEA's investments in short term deposits all pay fixed interest rates.

ALAEA also manages interest rate risk by ensuring that, whenever possible, payables are paid within any pre-agreed credit terms.

**THE AUSTRALIAN LICENCED AIRCRAFT ENGINEERS' ASSOCIATION**  
**ABN 84 234 747 620**

**NOTES TO THE FINANCIAL STATEMENTS for the year ended 31 December 2018**

**(c) Market risk (continued)**

***Interest rate sensitivity analysis***

The following table illustrates sensitivities to ALAEA's exposures to changes in interest rates. The table indicates the impact on how profit and equity values reported at the end of the reporting period would have been affected by changes in the relevant risk variable that management considers to be reasonably possible.

These sensitivities assume that the movement in a particular variable is independent of other variables.

<b>Year ended 31 December 2018</b>	<b>Profit \$</b>	<b>Equity \$</b>
+/- 0.5% in interest rates	+/- 17,564	+/- 17,564
<b>Year ended 31 December 2017</b>	<b>Profit \$</b>	<b>Equity \$</b>
+/- 0.5% in interest rates	+/- 4,200	+/- 4,200

There have been no changes in any of the assumptions used to prepare the above sensitivity analysis from the prior year.

**16. Fair Values**

**Fair value estimation**

The fair values of financial assets and financial liabilities are presented in the following table and can be compared to their carrying values as presented in the statement of financial position.

	Footnote	2018		2017	
		Carrying Amount \$	Fair Value \$	Carrying Amount \$	Fair Value \$
<b>Financial assets</b>					
Cash and cash equivalents	(i)	3,852,148	3,852,148	3,833,312	3,833,312
Accounts receivable and other debtors	(i)	-	-	119	119
<b>Total financial assets</b>		<b>3,852,148</b>	<b>3,852,148</b>	<b>3,833,431</b>	<b>3,833,431</b>
<b>Financial liabilities</b>					
Accounts payable and other payables	(i)	266,765	266,765	249,551	249,551
<b>Total financial liabilities</b>		<b>266,765</b>	<b>266,765</b>	<b>249,551</b>	<b>249,551</b>

The fair values disclosed in the above table have been determined based on the following methodologies:

- (i) Cash and cash equivalents, accounts receivable and other debtors, and accounts payable and other payables are short-term instruments in nature whose carrying amount is equivalent to fair value.
- (ii) Accounts payable and other payables exclude amounts relating to the provision for annual leave, which is outside the scope of AASB 9.

**THE AUSTRALIAN LICENCED AIRCRAFT ENGINEERS' ASSOCIATION**  
**ABN 84 234 747 620**

**NOTES TO THE FINANCIAL STATEMENTS for the year ended 31 December 2018**

**17. Fighting Fund**

This Fund commenced 22 November 2010 and is applied solely for the financial assistance of members of ALAEA who are affected by loss of wages during negotiations with employers and at the direction of the COM for union related assistance. The fund is administered by the Federal Executive of ALAEA. No contributions were received into the fighting fund during the years ended 31 December 2018, 2017 and 2016.

A summary of the Fighting Fund position follows:

**Income & Expenditure Statement

**NOTES TO THE FINANCIAL STATEMENTS for the year ended 31 December 2018**

**19. Events subsequent to Reporting Date**

With the exception of legal expenses to be incurred as shown in Note 12 and damages or other claims as a result of future unsuccessful defence of legal matters which claims are unable to be quantified at this time, and the unquantifiable effect of the continuing global uncertainties, there has not arisen in the interval between the end of the financial year and the date of the report any item, transaction or event of a material and unusual nature that in the opinion of the Committee of Management is likely to substantially affect the operations of ALAEA, the results of those operations, or the state of affairs of ALAEA in future financial years.

**20. Recovery of wages activity \*\***

ALAEA did not undertake any recovery of wages activities during the year ending 31 December 2018.

**21. Acquisitions through amalgamations, restructures or General Manager determinations \*\***

ALAEA has not acquired an asset or a liability during the financial year as a result of:

- (a) an amalgamation under Part 2 of Chapter 3, of the RO Act in which the organisation (of which the reporting unit forms part) was the amalgamated organisation; or
- (b) a restructure of the branches of the organisation; or
- (c) a determination by the General Manager under subsection 245(1) of the RO Act of an alternative reporting structure for the organisation; or
- (d) a revocation by the General Manager under subsection 249(1) of the RO Act of a certificate issued to an organisation under subsection 245(1),

**22. Business combinations\*\***

ALAEA has not acquired assets and liabilities during the financial year as part of a business combination.

**23. Post-reporting date events**

No adjusting or significant non-adjusting events have occurred between the reporting date and the date of authorisation.

**24. Disclosure required by ALAEA Rules**

In accordance with ALAEA's Rule, ALAEA is required to provide the following information to members concerning remuneration of ALAEA Officers during the financial year ended 31 December 2018.

Officer Name	Relevant Remuneration	Relevant non-cash benefits
		None
		None
		None
		None
		None

**25. Association details**

The principal place of business and registered office of ALAEA is:

**NOTES TO THE FINANCIAL STATEMENTS for the year ended 31 December 2018**

**26. Information to be provided to members or commissioner and Registered Organisations  
Commission**

In accordance with the requirements of the Fair Work (Registered Organisations) Act 2009, the attention of members is drawn to the provisions of Sub-Sections (1), (2) and (3) of Section 272 which reads as follows:

Information to be provided to members or Commissioner :

(1) A member of a reporting unit, or the Commissioner, may apply to the reporting unit for specified prescribed information in relation to the reporting unit to be made available to the person making the application.

(2) The application must be in writing and must specify the period within which, and the manner in which, the information is to be made available. The period must not be less than 14 days after the application is given to the reporting unit.

(3) A reporting unit must comply with an application made under subsection (1).

**27. Authorisation of financial statements**

The financial statements for the year ended 31 December 2018 (including comparatives) were approved by the Committee on *15 May* 2019.

## COMPILATION REPORT ON ADDITIONAL INFORMATION

### TO THE MEMBERS OF THE AUSTRALIAN LICENCED AIRCRAFT ENGINEERS' ASSOCIATION ABN 84 234 747 620

We have compiled the accompanying:

1. general purpose Financial Statements for the year ended 30 June 2018 comprising the Statement of Comprehensive Income, Statement of Financial Position, Statement of Changes in Equity, Statement of Cash Flows and the Notes to the financial statements (GPFS); and,
2. the following Income and Expenditure Statement, Welfare Fund Income and Expenditure Statement and Balance Sheet, and Fighting Fund Income and Expenditure Statement and Balance Sheet (the "Additional Financial Information")

in accordance with APS 315: Compilation of Financial Information.

The specific purpose for which GPFS were prepared was to assist the Committee in their reporting requirements as required under the Fair Work (Registered Organisations) Act 2009 and ALAEA's constitution. The specific purpose for which the Additional Financial Information was prepared was to provide information relating to the performance of ALAEA that satisfies the information needs of the Committee members.

#### *The Responsibility of the Committee*

The Committee of Management and Trustees are solely responsible for the information contained in the general purpose financial statements and have determined that the basis of accounting used is appropriate to meet their needs and for the purpose that the financial statements were prepared.

Accounting Standards and other mandatory professional reporting requirements have not been adopted in the preparation of the Additional Financial Information, which has been prepared to satisfy the information requirements of the Committee of Management.

#### *Our Responsibility*

On the basis of information provided by the Delegated Officers and Employees of the Committee of Management ("DOECOM") we have compiled the accompanying general purpose financial statements in accordance with the basis of accounting adopted and APES 315 Compilation of Financial Information.

Our procedures use accounting expertise to collect, classify and summarise the financial information, which the DOECOM provided, in compiling the financial statements. Our procedures do not include verification or validation procedures. Whilst ALAEA is independently audited, no audit or review has been performed by our Firm and accordingly no assurance is expressed by us.

The GPFS and Additional Information were compiled exclusively for the benefit of the Committee of Management and Trustees. We do not accept responsibility to any other person for the contents of the GPFS or the Additional Information. No person should rely on the Additional Financial Information without having an audit or review conducted. The audit conducted of the GPFS does not include an audit of the Additional Information.

## Independent Audit Report to the members of the Australian Licenced Aircraft Engineers Association

### Opinion

We have audited the accompanying financial report of the Australian Licenced Aircraft Engineers Association (the Entity), which comprises the statement of financial position as at 31 December 2018, the statement of comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, notes comprising a summary of significant accounting policies and other explanatory information, and the statement by the Committee of Management.

In our opinion, the financial report presents fairly, in all material respects, the financial position of the Australian Licenced Aircraft Engineers Association, as at 31 December 2018, and its financial performance and its cash flows for the year then ended in accordance with:

- (a) Australian Accounting Standards.
- (b) the requirements of the Reporting Guidelines and Chapter 8, Part 3, of the *Fair Work (Registered Organisations) Act 2009*.

In accordance with the *Fair Work (Registered Organisations) Act 2009*, we report as follows:

- (a) The Branch has kept satisfactory accounting records for the financial year including records of:
  - (i) the sources and nature of the Union's income, including membership subscriptions and other income from members; and
  - (ii) the nature of and reasons for the Union's expenditure.
- (b) All the information and explanations that officers or employees of the Branch were required to provide have been provided.
- (c) There was no deficiency, failure or shortcoming in any matters referred to.
- (d) No recovery of wages activity occurred during the reporting period.

### Basis for Opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report. We are independent of the Entity in accordance with the auditor independence and ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants* (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Other Information

The Committee of Management is responsible for the other information. The other information obtained at the date of this auditor's report is in the Operating Report accompanying the financial report. Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

AUSTRALIAN INSTITUTE OF  
INDEPENDENT FINANCIAL  
AUDITORS

MAZARS

**Independent Audit Report to the members of The Australian Licenced Aircraft Engineers Association  
(continued)**

**Responsibilities of Management and Those Charged with Governance**

Management is responsible for the preparation and fair presentation of the financial report in accordance with Australian Accounting Standards and *Fair Work (Registered Organisations) Act 2009*, and for such internal control as management determines is necessary to enable the preparation and fair presentation of the financial report that is free from material misstatement, whether due to fraud or error.

In preparing the financial report, management is responsible for assessing the Entity's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Entity or to cease operations, or has no realistic alternative but to do so. Those charged with governance are responsible for overseeing the Entity's financial reporting process.

**Auditor's Responsibilities for the Audit of the Financial Report**

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with Australian Auditing Standards, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Entity's internal control.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Entity's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Entity to cease to continue as a going concern.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

We are independent of the Entity in accordance with the auditor independence requirements of the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants* (the Code) that are relevant to our audit of the financial report in Australia.

GLOBAL ALLIANCE OF  
INDEPENDENT FIRMS

17 June 2019

Stephen Purvinas  
Federal Secretary  
Australian Licenced Aircraft Engineers Association  
Sent via email: fedsec@alaea.asn.au

Dear Stephen Purvinas,

**Lodgement of Financial Report - Reminder to lodge**

The Registered Organisations Commission's (the ROC) records disclose that the financial year of the Australian Licenced Aircraft Engineers Association (the reporting unit) ended on the 31 December 2018.

As you would be aware, the *Fair Work (Registered Organisations) Act 2009* (the RO Act) requires that a reporting unit prepare a financial report in accordance with the RO Act, make it available to the members and then must lodge the financial report within 14 days after the general meeting of members, or if the rules of the reporting unit allow, the Committee of Management meeting (s.268).

The maximum period of time allowed under the RO Act for the full financial report to be presented to a general meeting of members or a committee of management meeting is six months after the expiry date of its financial year (s.253, s254, s265, s.266, s.268). The full report must be lodged with the ROC within 14 days of that meeting.

The ROC encourages your reporting unit to lodge its financial report at the earliest opportunity in order to ensure compliance with its obligations. Failure of a reporting unit to lodge its financial report is a breach of a civil penalty provision of the RO Act. This can result in the Commissioner instituting an inquiry or investigation into a reporting unit's non-compliance under Chapter 11, Part 4 of the RO Act. The actions available to the Commissioner following an investigation include issuing Federal Court legal proceedings for breach of a civil penalty provision. The orders available to the Federal Court include imposition of a pecuniary penalty on the organisation or individual officer, whose conduct led to the contravention, of up to \$105,000 per contravention on the organisation and up to \$21,000 per contravention on an officer whose conduct led to the contravention.

We encourage you to lodge the full financial report directly to [regorgs@roc.gov.au](mailto:regorgs@roc.gov.au). That is the official email address for electronic lodgements of material related to registered organisations matters.

Should you seek any clarification in relation to the above, please contact me on 1300 341 665 or via email at [regorgs@roc.gov.au](mailto:regorgs@roc.gov.au).

Yours faithfully,

**Kylie Ngo**  
**Registered Organisations Commission**

21 January 2019

Mr Steven Purvinas  
Federal Secretary  
Australian Licenced Aircraft Engineers Association  
By Email: [alaea@alaea.asn.au](mailto:alaea@alaea.asn.au)

Dear Mr Purvinas,

**Re: Lodgement of Financial Report - [FR2018/320]  
*Fair Work (Registered Organisations) Act 2009* (the RO Act)**

The financial year of the Australian Licenced Aircraft Engineers Association (the reporting unit) ended on 31 December 2018. This is a courtesy letter to remind you of the reporting unit's obligations regarding financial reporting.

### **Loans Grants and Donations Statement**

The reporting unit is required to lodge a statement showing the relevant particulars in relation to each loan, grant or donation of an amount exceeding \$1,000 for the reporting unit during its financial year. Section 237 of the RO Act requires this statement to be lodged with the Registered Organisations Commission (the ROC) within 90 days of the end of the reporting unit's financial year, namely on or before 31 March 2019.

The attached fact sheet *Loans Grants and Donations* (FS 009) summarises the requirements of the Loans Grants and Donations Statement. A sample statement of loans, grants or donations is available on our [website](#).

It should be noted that s.237 is a civil penalty provision. If a loan, grant or donation over \$1000 has been made, failure to lodge a statement of loans, grants and donations (including failure to lodge on time) may result in legal proceedings being issued with the possibility of a pecuniary penalty. Currently penalties are up to \$105,000 for each contravention for a body corporate and up to \$21,000 for each contravention for an individual and may be imposed upon your organisation and/or an officer whose conduct led to the contravention.

### **Financial report**

The RO Act sets out a particular chronological order in which your financial report must be prepared, audited, provided to members, presented to a meeting and then lodged with the ROC. The attached document *Summary of Financial Reporting timelines* (FS 008) summarises these requirements.

We emphasise that the reporting unit is required to present its audited financial report to a meeting (either of members or of the committee of management, depending on its rules) no later than 30 June 2019 (s.266). The full financial report must be lodged with the ROC within 14 days of that meeting (s.268).

When assessing your financial report, we will continue to focus closely on timelines as well as how loans, grants and donations are reported (see attached *Loans Grants and Donations* fact sheet FS 009). The financial report must break down the amounts of grants and donations and these figures will be compared to the loans, grants and donations statement.

You can visit our website for more information regarding [financial reporting](#), and fact sheets regarding [financial reporting processes and requirements](#). A model set of financial statements developed by the ROC is also available on our website. It is not obligatory to use this model but it is a useful resource to ensure compliance with the RO Act, the Reporting Guidelines and the Australian Accounting Standards.

GPO Box 2983, Melbourne VIC 3001  
Telephone: 1300 341 665 | Email: [regorgs@roc.gov.au](mailto:regorgs@roc.gov.au)  
Website: [www.roc.gov.au](http://www.roc.gov.au)

It should be noted that s.268 of the RO Act is a civil penalty provision. Failure to lodge the full financial report (including failure to lodge on time) may result in legal proceedings being issued with the possibility of a pecuniary penalty, as set out above, being imposed upon your organisation and/or an officer whose conduct led to the contravention (s.268).

### **Subsection 255(2A) report**

A general purpose financial report prepared under section 253 of the RO Act must also include the expenditure report required to be prepared under subsection 255(2A) as prescribed by reporting guideline 22. A copy of the latest reporting guidelines for the purpose of section 253 is available on our [website](#).

It should be noted that the subsection 255(2A) report must be identified by title in the auditor's report in accordance with paragraph 24(c) of Australian Auditing Standard ASA 700 *Forming an Opinion and Reporting on a Financial Report*.

A [fact sheet](#) is available on our website which provides guidance on the reporting requirements under subsection 255(2A) of the RO Act.

## **REMINDER**

### **YOUR AUDITOR MUST BE REGISTERED (s.256)**

You must ensure that your auditor is registered by the Registered Organisations Commissioner. A list of registered auditors is available on our [website](#).

### **Contact**

Should you require any clarification in relation to the above, please email [regorgs@roc.gov.au](mailto:regorgs@roc.gov.au).

Yours faithfully,

**Kylie Ngo**  
**Registered Organisations Commission**

## Fact sheet

### Summary of financial reporting timelines – s.253 financial reports

#### General Information:

- The **full report** consists of the General Purpose Financial Report, Committee of Management Statement, Operating report, s.255(2A) Report and signed Auditors' Report
- For an explanation of each of the steps below see our [Fact sheet—financial reporting process](#).

IF RULES PROVIDE FOR PRESENTATION OF FULL REPORT  
**AT GENERAL MEETING OF MEMBERS**  
(this is the default process in the RO Act)

IF RULES PROVIDE FOR PRESENTATION OF FULL REPORT AT  
**COMMITTEE OF MANAGEMENT MEETING**  
(Special rules must be in the rulebook to use this process)

## Misconceptions

Over the years, staff of the Commission have noted that there are some common misunderstandings made in relation to the Financial Reporting Process. They include:

Misconception	Requirement
 The Committee of Management statement is just copied from the Reporting Guidelines	 The Committee of Management statement must have the date of the Committee of Management resolution recorded upon it and it must be signed and dated BEFORE the auditor signs their report  Further, if any of the statements within it need to be modified to suit the reporting unit (for instance not holding meetings) these changes must also be made
 The Auditor's Report does not need to be signed until just before it is lodged with the ROC	 The Auditor's Report must be signed and dated BEFORE the full report (including the Auditor's Report) is sent to members and presented to the second meeting
 The Designated Officer's Certificate must be signed before the report is sent to members	 The Designated Officer's Certificate declares what the reporting unit HAS ALREADY DONE to provide the report to members and present it to the meeting. It must be signed and dated AFTER sending the report to members and the second meeting
 Documents can be dated when they should have been signed or when the events in the document occurred	 Documents must always be dated at the date they are actually signed by an officer or auditor
 Any auditor can audit a financial report	 Only registered auditors can audit the financial report
 The Committee of Management statement can be signed at any time	 The resolution passing the Committee of Management Statement must occur and the statement signed and dated BEFORE the auditor's report is signed and dated
 Any reporting unit can present the Full Report to a second COM meeting	 Only reporting units with a 5% rule in their rulebook are able to present their report to a second Committee of Management Meeting. Otherwise, it must be presented to a General Meeting of members
 Everything can be done at one Committee of Management meeting	 If the rules allow for presenting the report to the Committee of Management, there must still be <u>two meetings</u> . The first meeting resolves the Committee of Management statement (including signing and dating it). Between the two meetings the Auditor's report is signed and dated. Only then can the full report be presented to the second Committee of Management meeting (if the rules allow)
 The reporting unit has 6 months and 14 days to lodge their financial report with the ROC	 The reporting unit must lodge the financial report within 14 days of the second meeting

## **Fact sheet**

### **Loans, Grants & Donations**

#### **The Loans, Grants & Donations Requirements**

The Fair Work (Registered Organisations) Act 2009 (the RO Act) requires an organisation or branch to lodge a loans, grants and donations statement (the statement) within 90 days of the ending of the financial year.

Under the Commissioner's Reporting Guidelines, a reporting unit's General Purpose Financial Report (the financial report) must break down the amounts of grants and donations (see below). The figures in the financial report will be compared to the loans, grants and donations statement.

#### **The Loans, Grants & Donations Statement**

Section 237 of the RO Act applies to every loan, grant and donation made by an organisation or branch during the financial year that exceeds \$1000. The following information must be supplied to the Registered Organisations Commission (the ROC) for each relevant loan, grant or donation:

- the amount,
- the purpose,
- the security (if it is a loan),
- the name and address of the person to whom it was made,\* and
- the arrangements for repaying the loan.\*

\*The last two items are not required if the loan, grant or donation was made to relieve a member of the organisation (or their dependent) from severe financial hardship.

The statement must be lodged within 90 days of the end of the financial year and the ROC has a [Template Loans, Grants and Donations Statement](#) on its website. The ROC encourages branches and organisations to lodge the statement even if all of the figures are NIL.

## Common misconceptions

Over the years, staff of the Commission have noted that there are some common misunderstandings made in relation to the Statement. They include:

Misconception	Requirement
 Only reporting units must lodge the Statement.	 All branches and organisations, regardless of whether they lodge a financial report, must lodge the statement within 90 days of the end of the financial year. An organisation cannot lodge a single statement to cover all of its branches.
 Employees can sign the Statement.	 The statement must be signed by an elected officer of the relevant branch.
 Statements can be lodged with the financial report.	 The deadline for the statement is much shorter (90 days) and if it is lodged with the financial report it is likely to be late.

## Grants & Donations within the Financial Report

Item 14(e) of the Commissioner's Reporting Guidelines requires the reporting unit to separate the line items relating to grants and donations into grants or donations that were \$1000 or less and those that exceeded \$1000.

As such, the note in the financial report relating to grants and donations will have four lines.

In the [ROC's Model Statements](#) the note appears as follows:

### Note 4E: Grants or donations\*

Grants:	2017	2016
Total expensed that were \$1,000 or less	-	-
Total expensed that exceeded \$1,000	-	-
Donations:		
Total expensed that were \$1,000 or less	-	-
Total expensed that exceeded \$1,000	-	-
<b>Total grants or donations</b>	<b>-</b>	<b>-</b>

The Commissioner's Reporting Guidelines requires that these line items appear in the financial statements, the notes or in the officer's declaration statement, even if the figures are NIL.

## Implications for filing the Financial Report

During their review of the financial report staff of the ROC may confirm that the figures in the financial report match the disclosures made in the statement. Any inconsistencies in these figures will be raised with the organisation or branch for explanation and action.

This may involve lodging an amended loans, grants or donations statement. Any failure to lodge a loans, grants or donations statement or lodging a statement that is false or misleading can attract civil penalties under the RO Act.

If a reporting unit did not fully comply with these requirements in their last financial report, its filing letter will have included a statement reminding the reporting unit of its obligations.

It is strongly recommended that all reporting units review their filing letters from the previous financial year to ensure any targeted concerns are addressed in their latest financial report. Failure to address these individual concerns may mean that a financial report cannot be filed.

Previous financial reports and filing letters are available from the website.

## Further information

If you have any further questions relating to the loan, grant and donation disclosure requirements in the statement or the financial report, please contact the ROC on [regorgs@roc.gov.au](mailto:regorgs@roc.gov.au)
