Gerardine Cowin
Acting Federal Secretary
Australian Nursing Federation
Level 2, 21 Victoria Street
MELBOURNE VIC 3000

Dear Gerardine,

Re: Financial reports for year ended 30 June 2004 - FR2004/289 Schedule 1B of the Workplace Relations Act 1996 (RAO Schedule)

Thank you for the financial reports of the Australian Nursing Federation for the year ended 30 June 2004. The documents were lodged in the Industrial Registry on 21 December 2004.

The documents have been examined and filed.

I draw your attention to the following comments concerning the above reports and the financial reporting obligations under the RAO Schedule. Please note that these matters are generally advised for assistance in the future preparation of financial reports and you do not need to take any further action in respect of the financial reports already lodged.

General Purpose Financial Report:

The General Purpose Financial Report (GPFR) must contain a notice drawing attention to provisions of the RAO Schedule that prescribed information is available to members on request. This requirement should set out, word for word, subsections 272(1), (2) and (3). Would you please ensure those subsections are included in the GPFR of the next financial report.

Auditor's report:

The reference made to s270 in paragraph (a) of the Auditor's Report is unnecessary. Section 270 of the RAO Schedule relates to an organisation with less than \$100,000 income per year and requires a certificate of the Registrar on application by the reporting unit.

Committee of Management Statement:

Minor issues were detected. The word "Commission" should replace the words "Industrial Registry" in paragraph 3f, and you may wish to note that under item 18(d) of the Reporting Guidelines this statement need only be signed by a designated officer.

Should you wish to discuss any of the matters raised in this letter, I may be contacted on (03) 8661 7817 or by email: robert.pfeiffer@air.gov.au.

Yours sincerely,

Robert Pfeiffer

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2004

Note 1 Statement of Significant Accounting Policies

The financial report is a general purpose financial report that has been prepared in accordance with the Workplace Relations Act 1996, Accounting Standards, Urgent Issues Group Consensus Views, other authoritative pronouncements of the Australian Accounting Standards Board.

The financial report has been prepared on an accruals basis and is based on historical costs and does not take into account changing money values or, except where stated, current valuations of non-current assets. Cost is based on the fair values of the consideration given in exchange for assets.

The following is a summary of the material accounting policies adopted by Australian Nursing Federation - Federal Office in the preparation of the financial report. The accounting policies have been consistently applied, unless otherwise stated.

a Income Tax

No provision for income tax is necessary as "Trade Unions" are exempt from income tax under Section 23(f) of the Income Tax Assessment Act 1936.

b. Property, Plant and Equipment

Each class of property, plant and equipment is carried at cost or fair value less, where applicable, any accumulated depreciation.

Property

Freehold land and buildings are measured at cost, being the consideration given in exchange for the asset. A valuation was conducted in 2002 but not included in the accounts. Details of the valuation are included in Note 8.

Plant and equipment

Plant and equipment are measured on the cost basis.

The carrying amount of plant and equipment is reviewed annually by directors to ensure it is not in excess of the recoverable amount from those assets. The recoverable amount is assessed on the basis of the expected net cash flows which will be received from the assets employment and subsequent disposal. The expected net cash flows have not been discounted to present values in determining recoverable amounts.

Depreciation

The depreciable amount of all fixed assets including buildings and capitalised leased assets, but excluding freehold land, is depreciated on a straight line basis over their estimated useful lives to the Federation commencing frem the time the asset is held ready for use.

The estimated useful lives used in the calculation of depreciation are:

Class of Fixed Asset	Useful Lif
Buildings	50 years
Plant and equipment	4-7 years
Freehold improvements	10 years
Leasehold imprevements	10 years

c. Employee Benefits

Provision is made for the Federation's liability for employee benefits arising from services rendered by employees to balance date. Employee benefits expected to be settled within one year together with benefits arising from wages and salaries, annual leave and sick leave which will be settled after one year, have been measured at the amounts expected to be paid when the liability is settled plus related on-costs. Other employee benefits payable later than one year have been measured at the present value of the estimated future cash outflows to be made for those benefits.

Contributions are made by Australian Nursing Federation - Federal Office to an employee superannuation fund and are charged as expenses when incurred.

d. Cash

For the purposes of the statement of cash flows, cash includes cash on hand and at call deposits with banks or financial institutions, investments in money market instruments maturing within less than two months and net of bank overdrafts.

e. Revenue

Revenue is recognised on an accruals basis. Capitation fees, journal subscriptions and advertising fees are all recorded as income when the service is completed.

All revenue is stated net of the amount of goods and services tax (GST).

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2004

f. Goods and Services Tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Tax Office. In these circumstances the GST is recognised as part of the cost of acquisition of the asset or as part of an item of the expense. Receivables and payables in the Statement of Financial Position are shown inclusive of GST. Cash flows from operating activities are shown on a gross basis in the Statement of Cash Flows.

g. Adoption of Australian Equivalents to International Financial Reporting Standards

Australia is currently preparing for the introduction of International Financial Reporting Standards (IFRS) effective for financial years commencing 1 January 2005. This requires the production of accounting data for future comparative purposes at the beginning of the next financial year.

The Executive Committee, along with its auditors, are assessing the significance of these changes and preparing for their implementation.

The councillors are of the opinion that the key differences in the Federation's accounting policies which will arise from the adoption of IFRS are: Impairment of Assets

The entity currently determines the recoverable amount of an asset on the basis of undiscounted net cash flows that will be received from the assets use and subsequent disposal. In terms of the pending AASB 136 Impairment of Assets, the recoverable amount of an asset will be determined as the higher of fair value less costs to sell and value in use. It is likely that this change in accounting policy will lead to impairments being recognised more often than under the existing policy.

Non-current Investments

Under the pending AASB 139 Financial Instruments: Recognition and Measurement, financial instruments that are classified as available for sale instruments must be carried at fair value. Unrealised gains or losses may be recognised either in income or directly to equity. Current accounting policy is to measure non-current investments at cost, with an annual review by directors to ensure that the carrying amounts are not in excess of the recoverable value of the instrument.
