**NOTES TO THE FINANCIAL STATEMENTS
For the Year Ended 31st December 2007**

2007

2006

NOTE 1. STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

The financial report is a general purpose financial report that has been prepared in accordance with applicable Accounting Standards, including Australian Equivalents to International Financial Reporting Standards (AIFRS), other mandatory professional reporting requirements, the Workplace Place Relations Act 1996 and the Industrial Relations Act, 1996.

The financial report is prepared on an accruals basis and is based on historic costs and does not take into account changing money values or, except where specifically stated, current valuations of non-current assets.

The following specific accounting policies, which are consistent with the previous period unless otherwise stated, have been adopted in the preparation of this report:

(a) Property, Plant & Equipment.

Each class of property, plant and equipment is carried at cost or at fair value less, where applicable any accumulated depreciation.

Plant and equipment

Plant and equipment are included at cost. The carrying amount is reviewed annually by the Committee of Management to ensure it is not in excess of recoverable amount.

Property for own use

Freehold land and buildings are measured on the fair value basis, being the amount for which an asset could be exchanged between knowledgeable willing parties in an arms length transaction. It is the policy of the entity to have periodic independent valuations, with annual appraisals being made by directors. The last independent valuation was as at 31 December 2003, except for leasehold property made as at 1 September 1992.

Investment property

Property held to earn rental income is separately disclosed from property held for own use. This is a change in accounting policy from the previous year and has been retrospectively applied. Investment properties are measured on the fair value basis. As with property held for own use, it is the policy of the entity to have periodic independent valuations, with annual appraisals being made by directors. The last independent valuation of Investment properties was as at 31 December 2003. The change in fair value of investment properties are recorded in the income statement. No depreciation is provided where the fair value basis is used.

(b) Income Tax

No provision for income tax is necessary, as "Trade Unions" are exempt from income tax under Section 50 -15 of the Income Tax Assessment Act 1997.

(c) Employee Entitlements

Provision for employee entitlements in the form of Long Service Leave and Accrued Annual Leave has been made for the estimated accrued entitlement of all employees on the basis of their terms of employment. In the case of Long Service Leave, the accrual has been measured by reference to periods of service and current salary rates as it is considered that this results in an amount not materially different to that achieved by discounting estimated future cash flows.

(d) Defined Superannuation Schemes

In respect to defined benefit plans, the cost of providing the benefits is determined using the projected unit cost method. Actuarial calculations are conducted by State Super. The amount recognised in the Statement of Financial Position represents the present value of the defined benefits obligations adjusted for any unrecognised actuarial gains and losses and unrecognised past service costs less the fair value of the plan's assets. The unions has defined benefit obligations for members participating in the State Authorities Superannuation Scheme and the State Authorities Non- Contributory Superannuation Scheme. All Schemes are closed to new members.

(e) Contributions

Only contributions received are brought to account. Contribution received subsequent to year end, but relating to prior to year end are brought to account as receivables.
