6 March 2017

FAIR WORK Commission

Mr Russell Collison The Secretary, New South Wales Branch The Australian Workers Union

By email: wchen@awu-nsw.asn.au

Dear Sir,

Re: Lodgement of Financial Statements and Accounts – The Australian Workers Union, Newcastle, Central Coast and Northern Regions Branch - for period ended 31 August 2016 (FR2017/4)

I refer to the final financial report for the Newcastle, Central Coast and Northern Regions Branch ('the former Branch') of the Australian Workers Union. The report was lodged with the Fair Work Commission on 23 February 2017.

The financial report has been filed based on a primary review. This involved confirming whether the financial reporting timelines required under s.253, s.265, s.266 and s.268 of the *Fair Work (Registered Organisations) Act 2009* (RO Act) have been satisfied, all documents required under s.268 of the RO Act were lodged and that various disclosure requirements under the Australian Accounting Standards, RO Act and Reporting Guidelines have been complied with. A primary review does not examine all disclosure requirements.

Re-structure disclosures

The next report will be the first report for the new amalgamated New South Wales Branch ('the new Branch') for the year ending 30 June 2017. It will need to include such disclosures and/or explanatory information that will show/reflect the transfers of assets and liabilities from the former Branch to the new Branch.

Please also note that the next report may be subject to an advanced review.¹

Should you require further information on the financial reporting requirements of the Act, I may be contacted on (02) 6746 3283 or 0429 462 979 or by email at <u>stephen.kellett@fwc.gov.au</u>

Yours sincerely

Toplen Kellert

Stephen Kellett Senior Adviser Regulatory Compliance Branch

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS

Scope

I have audited the financial statements of The Australian Workers Union, Port Kembla, South Coast and Southern Highlands Branch (the Branch). The financial statements comprise the Committee of Managements' Statement, Statement of Comprehensive Income, Statement of Financial Position, Statement of Changes in Equity, Statement of Cash Flows, Operating Statement and Notes to the Financial Statements for the period ended 31/08/2016.

The Committee of Management of the Branch are responsible for the preparation and true and fair presentation of the financial report in accordance with the Fair Work (Registered Organisations) Act ("RO Act"), the Fair Work (Registered Organisations) Regulations 2009 and the reporting guidelines of the General Manager of FWA, determined under section 257 of the RO Act. This includes responsibility for the maintenance of adequate accounting records and internal controls that are designed to prevent and detect fraud and error, and for the accounting policies and accounting estimates inherent on the financial report.

Audit Approach

I conducted an independent audit in order to express an opinion to the members of the Branch. My audit was conducted in accordance with Australian Auditing Standards in order to provide reasonable assurance as to whether the financial report is free of material misstatement. The nature of an audit is influenced by factors such as the use of professional judgement, selective testing, the inherent limitations of internal control, and the availability of persuasive rather than conclusive evidence. Therefore an audit cannot guarantee that all material misstatements have been detected.

I performed procedures to assess whether in all material respects, the financial report presents fairly in accordance with the RO Act, the Fair Work (Registered Organisations) Regulations 2009 and the reporting guidelines of the General Manager of FWA determined under section 257 of the RO Act, including compliance with accounting standards and other mandatory financial reporting requirements in Australia, a view which is consistent with our understanding of the Branch's financial position and of their performance as represented by the results of their operations and their cash flows.

I formed my audit opinion on the basis of these procedures, which included examining on a test basis, information to provide evidence supporting the amounts and disclosures in the financial report, and assessing the appropriateness of the accounting policies and disclosures used and the reasonableness of significant accounting estimates made by the Committee of Management. Whilst we considered the effectiveness of managements' internal controls over the financial reporting when determining the nature and extent of our procedures, our audit was not designed to provide assurance on internal controls.

Independence

In conducting our audit, I followed applicable independence requirements of Australian professional ethical pronouncements. Audit Opinion

In my opinion, the financial reports of The Australian Workers Union Port Kembla South Coast and Southern Highlands Branch is in accordance with:

- 1. The Fair Work (Registered Organisations) Act 2009, the Fair Work (Registered Organisations) Regulations 2009 and the reporting guidelines of the General Manager of FWA determined under section 257 of the RO Act including:
- 2. Giving a true and fair view of the Branch's financial position as at 31/08/2016 and of their performance for the two months ended on that date;
- 3. Complying with Australian Accounting Standards and the Fair Work (Registered Organisations) Act 2009; and
- 4. Other mandatory professional reporting requirement statements.

I have concluded that management's use of the going concern basis of accounting in the preparation of the branch's financial statements is appropriate. The scope of the audit encompassed recovery of wages activity of which none was undertaken in the reporting period.

Jacan.

David Neaves - Dated on 14/12/2016 An approved auditor, member of CPA Australia, Public Practice Certificate holder, m/ship no 1366989 David Neaves Pty Ltd – Certified Practising Accountants - 138 Princes Hwy, Fairy Meadow NSW 2519

The Australian Workers' Union, Port Kembla, South Coast & Southern Highlands Branch

s.268 Fair Work (Registered Organisations) Act 2009

CERTIFICATE BY PRESCRIBED DESIGNATED OFFICER³

Certificate for the 2-month period ended 31st August 2016

I, Russell Kerry Collison being the AWU NSW Branch Secretary and the authorised officer of the Australian Workers' Union of the Port Kembla, South Coast & Southern Highlands Branch certify:

- that the documents lodged herewith are copies of the full report for the Australian Workers' Union of the Port Kembla, South Coast & Southern Highlands Branch for the 2-month period ended 31st August 2016 referred to in s.268 of the *Fair Work* (*Registered Organisations*) Act 2009; and
- that the full report was provided to members of the reporting unit on 12th December 2016; and
- that the full report was presented to the Special General Meeting of members of the reporting unit on 13th February 2017 in accordance with s.266 of the *Fair Work* (*Registered Organisations*) *Act 2009*.

Name of prescribed designated officer: Russell Kerry Collison

Title of prescribed designated officer: AWU NSW Branch Secretary

Dated: 16th February 2017

Regulation 162 of the Fair Work (Registered Organisations) Regulations 2009 defines a 'prescribed designated officer' of a reporting unit for the purposes of s.268(c) as:

⁽a) the secretary; or

⁽b) an officer of the organisation other than the secretary who is authorised by the organisation or by the rules of the organisation to sign the certificate mentioned in that paragraph.

OPERATING REPORT for the period ended 31/08/2016

The committee presents its report on the reporting unit for the two months ended 31/08/2016.

Review of principal activities, the results of those activities and any significant changes in the nature of those activities during the period

The branch carried on the normal business of a registered trade union representing its members and protecting & improving the rights and interests of members.

The results of operation for the period ended 31/08/2016 was a loss of \$79,092, for the previous year ended 30/6/2016 a loss of \$125,281 occurred.

No Significant changes in financial affairs or activities of the branch occurred in the period or previous financial year. On the 1/9/2016 the affairs of the branch will be amalgamated with other branches within NSW and will not be a separate reporting entity in the next financial year.

Significant changes in financial affairs

No significant changes in the branch's financial affairs occurred.

Right of members to resign

Union members may resign in accordance with rule 17 by giving written notice to a branch official or by mail to the branch.

Officers or members who are superannuation fund trustee(s) including position details or director of a company that is a superannuation fund trustee

No branch officials or Branch employees have acted in the capacity as a superannuation fund trustee or as a director of a company during the financial period or previous financial year.

Number of members

At the end of the reporting period, total ordinary members were 2,526 and the previous year 3,045.

Number of employees

The branch has 4 officials, 2 office staff and a cleaner.

Names of Committee of Management members and period positions held during the period

There were 16 honorary members of the Committee of Management including 4 Branch Officials. The Committee of Management met one time during the reporting period ended 31/08/2016. Attendance of the members at the Committee of Management meetings was as follows:

Name & Meetings Attended (All members held office from 01/07/16 to 31/08/16).

COMMITTEE OF MANAGEMENT STATEMENT for the period ended 31/08/2016

On the 12/12/2016 the branch executive of the NSW Branch of the AWU, in regard to the AWU Port Kembla, South Coast & Southern Highlands Branch, passed the following resolution in relation to the general purpose financial report (GPFR) for the period ended 31/08/2016:

The committee of management declares that in its opinion:

- (a) the financial statements and notes comply with the Australian Accounting Standards;
- (b) the financial statements and notes comply with the reporting guidelines of the General Manager;
- (c) the financial statements and notes give a true and fair view of the financial performance, financial position and cash flows of the reporting unit for the financial period to which they relate;
- (d) there are reasonable grounds to believe that the reporting unit will be able to pay its debts as and when they become due and payable; and
- (e) during the financial period to which the GPFR relates and since the end of that period:
 - (i) meetings of the committee of management were held in accordance with the rules of the organisation including the rules of a branch concerned; and
 - (ii) the financial affairs of the reporting unit have been managed in accordance with the rules of the organisation including the rules of a branch concerned; and
 - (iii) the financial records of the reporting unit have been kept and maintained in accordance with the RO Act; and
 - (iv) where the organisation consists of two or more reporting units, the financial records of the reporting unit have been kept, as far as practicable, in a consistent manner with each of the other reporting units of the organisation; and
 - (v) where information has been sought in any request by a member of the reporting unit or General Manager duly made under section 272 of the RO Act has been provided to the member or General Manager; and
 - (vi) where any order for inspection of financial records has been made by the Fair Work Commission under section 273 of the RO Act, there has been compliance.
- (f) no revenue has been derived from undertaking recovery of wages activity during the reporting period

This declaration is made in accordance with a resolution of the NSW branch executive.

Note 19 Section 272 Fair Work (Registered Organisations) Act 2009

Note 1 Summary of significant accounting policies

1.1 Basis of preparation of the financial statements

The financial statements are general purpose financial statements and have been prepared in accordance with Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board (AASB) that apply for the reporting period and the *Fair Work (Registered Organisation) Act 2009.* For the purpose of preparing the general purpose financial statements, the AWU - Port Kembla, South Coast and Southern Highlands Branch is a not-for-profit entity.

The financial statements have been prepared on an accrual basis and in accordance with the historical cost, except for certain assets and liabilities measured at fair value, as explained in the accounting policies below. Historical cost is generally based on the fair values of the consideration given in exchange for assets. Except where stated, no allowance is made for the effect of changing prices on the results or the financial position. The financial statements are presented in Australian dollars.

1.2 Comparative amounts

When required by Accounting Standards, comparative figures have been adjusted to conform to changes in presentation for the current financial period.

1.3 Significant accounting judgements and estimates

There were no accounting assumptions or estimates that have been identified as having a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next reporting period.

1.4 New Australian Accounting Standards

Adoption of New Australian Accounting Standard requirements

No accounting standard has been adopted earlier than the application date stated in the standard.

The accounting policies adopted are consistent with those of the previous financial year except for the following standards and amendments, which have been adopted for the first time this financial period:

• AASB 2013-9 Amendments to Australian Accounting Standards – Conceptual Framework, Materiality and Financial Instruments contains three main parts and makes amendments to a number of Standards and Interpretations.

Part A of AASB 2013-9 makes consequential amendments arising from the issuance of AASB CF 2013-1.

Part B makes amendments to particular Australian Accounting Standards to delete references to AASB 1031 and also makes minor editorial amendments to various other standards.

Part C makes amendments to a number of Australian Accounting Standards, including incorporating Chapter 6 Hedge Accounting into AASB 9 *Financial Instruments*.

The adoption of this amendment did not have an impact on the AWU - Port Kembla, South Coast and Southern Highlands Branch.

• AASB y/e 2016-3 Amendments to Australian Accounting Standards arising from the Withdrawal of AASB 1031 Materiality completes the AASB's project to remove Australian guidance on materiality from Australian Accounting Standards

The adoption of this amendment did not have an impact on the AWU - Port Kembla, South Coast and Southern Highlands Branch.

 AASB y/e 2016-4 Amendments to Australian Accounting Standards – Financial Reporting Requirements for Australian Groups with a Foreign Parent aligns the relief available in AASB 10 Consolidated Financial Statements and AASB 128 Investments in Associates and Joint Ventures in respect of the financial reporting requirements for Australian groups with a foreign parent. The adoption of this amendment did not have an impact on the AWU - Port Kembla, South Coast

The adoption of this amendment did not have an impact on the AWU - Port Kembla, South Coast and Southern Highlands Branch.

Future Australian Accounting Standards Requirements

New standards, amendments to standards or interpretations that were issued prior to the sign-off date and are applicable to the future reporting period that are not expected to have a future financial impact on AWU - Port Kembla, South Coast and Southern Highlands Branch.

1.5 Basis of consolidation

The consolidated financial statements comprise the financial statements of the AWU - Port Kembla, South Coast and Southern Highlands Branch and entities controlled by the AWU - Port Kembla, South Coast and Southern Highlands Branch (its subsidiaries). Control is achieved where the AWU - Port Kembla, South Coast and Southern Highlands Branch is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the AWU - Port Kembla, South Coast and Southern Highlands Branch.

Specifically, the AWU - Port Kembla, South Coast and Southern Highlands Branch controls an investee if and only if the AWU - Port Kembla, South Coast and Southern Highlands Branch has:

- Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee)
- Exposure, or rights, to variable returns from its involvement with the investee
- The ability to use its power over the investee to affect its returns

When the AWU - Port Kembla, South Coast and Southern Highlands Branch has less than a majority of the voting or similar rights of an investee, the AWU - Port Kembla, South Coast and Southern Highlands Branch considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- Relevant activities of the investee and who has control over them
- Existing or future administrative or statutory arrangements that may give rise to rights/control (or change the previous control assessment)
- Whether rights are substantive or protective in nature and whether rights presently exercisable or will be exercisable when decisions about relevant activities are being made
- Exposure or rights to financial and non-financial returns (direct or indirect) and the ability to influence those returns
- Whether the investor is exercising its decision-making abilities as a principal or agent
- Rights arising from other contractual arrangements

The AWU - Port Kembla, South Coast and Southern Highlands Branch re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the AWU - Port Kembla, South Coast and Southern Highlands Branch obtains control over the subsidiary and ceases when the AWU - Port Kembla, South Coast and Southern Highlands Branch loses control of the subsidiary.

Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the period are included in the consolidated financial statements from the date the AWU - Port Kembla, South Coast and Southern Highlands Branch gains control until the date the AWU - Port Kembla, South Coast and Southern Highlands Branch ceases to control the subsidiary.

Income and expense of subsidiaries acquired or disposed of during the period are included in the consolidated statement of comprehensive income from the effective date of acquisition and up to the effective date of disposal, as appropriate. Total comprehensive income of subsidiaries is attributed to the owners of the AWU - Port Kembla, South Coast and Southern Highlands Branch and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

Where necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with those used by the AWU - Port Kembla, South Coast and Southern Highlands Branch.

All intra-group transactions, balances, income and expenses are eliminated in full on consolidation.

Changes in the AWU - Port Kembla, South Coast and Southern Highlands Branch ownership interests in subsidiaries that do not result in the AWU - Port Kembla, South Coast and Southern Highlands Branch losing control are accounted for as equity transactions. The carrying amounts of

the AWU - Port Kembla, South Coast and Southern Highlands Branch interests and the noncontrolling interests are adjusted to reflect the changes in their relative interests in the subsidiaries. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to owners of the AWU - Port Kembla, South Coast and Southern Highlands Branch.

When the AWU - Port Kembla, South Coast and Southern Highlands Branch loses control of a subsidiary, a gain or loss is recognised in profit or loss and is calculated as the difference between (i) the aggregate of the fair value of the consideration received and the fair value of any retained interest and

(ii) the previous carrying amount of the assets (including goodwill), and liabilities of the subsidiary and any non-controlling interests. When assets of the subsidiary are carried at revalued amounts or fair values and the related cumulative gain or loss has been recognised in other comprehensive income and accumulated in equity, the amounts previously recognised in other comprehensive income and accumulated in equity are accounted for as if the AWU - Port Kembla, South Coast and Southern Highlands Branch had directly disposed of the relevant assets (i.e. reclassified to profit or loss or transferred directly to retained earnings as specified by applicable Standards). The fair value of any investment retained in the former subsidiary at the date when control is lost is regarded as the fair value on initial recognition for subsequent accounting under AASB 139 'Financial Instruments: Recognition and Measurement' or, when applicable, the cost on initial recognition of an investment in an associate or jointly controlled entity.

1.6 Investment in associates and joint arrangements

An associate is an entity over which the AWU - Port Kembla, South Coast and Southern Highlands Branch has significant influence and that is neither a subsidiary nor an interest in a joint venture. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

A joint venture is a type of joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint venture. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

A joint operation is a type of joint arrangement whereby the parties that have joint control of the arrangement have rights to the individual assets and obligations for the liabilities of the joint operation.

The results and assets and liabilities of associates and its joint ventures are incorporated in these financial statements using the equity method of accounting, except when the investment is classified as held for sale, in which case it is accounted for in accordance with AASB 5 'Non-current Asset Held for Sale and Discontinued Operations. 'Under the equity method, an investment in an associate or joint venture is initially recognised in the statement of financial position at cost and adjusted thereafter to recognise the share of the profit or loss and other comprehensive income of the associate. When the share of losses of an associate or joint venture exceeds the interest in that associate, the AWU - Port Kembla, South Coast and Southern Highlands Branch discontinues recognising its share of further losses. Additional losses are recognised only to the extent that it has incurred legal or constructive obligations or made payments on behalf of the associate or joint venture.

Any excess of the cost of acquisition over the share of the net fair value of the identifiable assets, liabilities and contingent liabilities of the associate recognised at the date of acquisition is recognised as goodwill, which is included within the carrying amount of the investment. Any excess of the share of the net fair value of the identifiable assets, liabilities and contingent liabilities over the cost of acquisition, after reassessment, is recognised immediately in profit or loss.

1.7 Business combinations

The acquisition method of accounting is used to account for all business combinations, except for those identified in the *Fair Work Commissions reporting guidelines* under item 12. The consideration transferred for the acquisition of a subsidiary comprises the fair values of the assets transferred, the liabilities incurred and the equity interest issued by the parent entity. The consideration transferred also includes the fair value of any contingent consideration arrangement and the fair

value of any pre-existing equity interest in the subsidiary. Acquisition-related costs are expensed as incurred. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are, with limited exceptions, measured initially at their fair values on acquisition date. On an acquisition-by-acquisition basis, the parent entity recognises any non-controlling interest in the acquiree either at fair value or at the non-controlling interest's proportionate share of the acquiree's net identifiable assets.

The excess of the consideration transferred, the amount of any non-controlling interest in the acquiree and the acquisition-date fair value of any previous equity interest in the acquiree over the fair value of the parent entity's share of the net identifiable assets, is recorded as goodwill. If those amounts are less than the fair value of the net identifiable assets of the subsidiary acquired and the measurement of all amounts has been reviewed, the difference is recognised directly in profit or loss as a bargain purchase.

If it is determined that the combination results in mutual benefit to both the members of the acquirer and the acquiree, the surplus of the fair value of the net identifiable assets acquired over the consideration paid will be recognised in member's funds as a business combination reserve.

Where settlement of any part of cash consideration is deferred, the amounts payable in the future are discounted to their present value as at the date of exchange. The discount rate used is the entity's incremental borrowing rate, being the rate at which similar borrowing could be obtained from an independent financier under comparable terms and conditions.

Contingent consideration is classified either as equity or a financial liability. Amounts classified as a financial liability are subsequently remeasured to fair value with changes in fair value recognised in profit or loss.

1.8 Acquisition of assets and or liabilities that do not constitute a business combination

The net book value of assets and or liabilities transferred to AWU - Port Kembla, South Coast and Southern Highlands Branch for no consideration is used to account for an amalgamation under Part 2 of Chapter 3 of the *Fair Work (Registered Organisations) Act 2009/a* restructure of the branches of the AWU - Port Kembla, South Coast and Southern Highlands Branch/a determination by the General Manager under subsections 245(1) of the *Fair Work (Registered Organisations) Act 2009/a* a revocation by the General Manager under subsection 249(1) of the *Fair Work (Registered Organisations) Act 2009/a* a revocation by the General Manager under subsection 249(1) of the *Fair Work (Registered Organisations) Act 2009/a* are subsections 245(1) of the Fair Work (Registered Organisations) Act 2009/a a revocation by the General Manager under subsection 249(1) of the Fair Work (Registered Organisations) Act 2009/a are subsections) Act 2009/a are subsections 245(1) of the Fair Work (Registered Organisations) Act 2009/a are subsection 249(1) of the Fair Work (Registered Organisations) Act 2009/a are subsections) Act 2009/a are subsection 249(1) of the Fair Work (Registered Organisations) Act 2009/a are subsection 249(1) of the Fair Work (Registered Organisations) Act 2009/a are subsections) Act 2009/a are subsection

The assets and liabilities are recognised as at the date of transfer.

1.9 Revenue

Revenue is measured at the fair value of the consideration received or receivable.

Revenue from subscriptions is accounted for on an accrual basis and is recorded as revenue in the period to which it relates.

Revenue from the sale of goods is recognised when, the risks and rewards of ownership have been transferred to the buyer, the entity retains no managerial involvement or effective control over the goods, the revenue and transaction costs incurred can be reliably measured, and it is probable that the economic benefits associated with the transaction will flow to the entity.

Donation income is recognised when it is received.

Receivables for goods and services, which have 30 day terms, are recognised at the nominal amounts due less any impairment allowance account. Collectability of debts is reviewed at end of the reporting period. Allowances are made when collectability of the debt is no longer probable.

Interest revenue is recognised on an accrual basis using the effective interest method.

Rental revenue from operating leases is recognised on a straight-line basis over the term of the relevant lease.

1.10 Government grants

Government grants are not recognised until there is reasonable assurance that the AWU - Port Kembla, South Coast and Southern Highlands Branch will comply with the conditions attaching to them and that the grants will be received.

Government grants are recognised in profit or loss on a systematic basis over the periods in which the AWU - Port Kembla, South Coast and Southern Highlands Branch recognises

as expenses the related costs for which the grants are intended to compensate. Specifically, government grants whose primary condition is that the AWU - Port Kembla, South Coast and Southern Highlands Branch should purchase, construct otherwise acquire non-current assets are recognised as deferred revenue in the statement of financial position and transferred to profit or loss on a systematic and rational basis over the useful lives of the related assets.

Government grants that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the AWU - Port Kembla, South Coast and Southern Highlands Branch with no future related costs are recognised in profit or loss in the period in which they become receivable.

1.11 Gains

Sale of assets

Gains and losses from disposal of assets are recognised when control of the asset has passed to the buyer.

1.12 Capitation fees and levies

Capitation fees and levies are recognised on an accrual basis and recorded as a revenue and/or expense in the period to which it relates.

1.13 Employee benefits

A liability is recognised for benefits accruing to employees in respect of wages and salaries, annual leave, long service leave and termination benefits when it is probable that settlement will be required and they are capable of being measured reliably.

Liabilities for short-term employee benefits (as defined in AASB 119 *Employee Benefits*) and termination benefits which are expected to be settled within twelve months of the end of reporting period are measured at their nominal amounts. The nominal amount is calculated with regard to the rates expected to be paid on settlement of the liability.

Other long-term employee benefits which are expected to be settled beyond twelve months are measured as the present value of the estimated future cash outflows to be made by the reporting unit in respect of services provided by employees up to reporting date.

Payments to defined contribution retirement benefit plans are recognised as an expense when employees have rendered service entitling them to the contributions.

Provision is made for separation and redundancy benefit payments. Reporting Unit recognises a provision for termination as part of a broader restructuring when it has developed a detailed formal plan for the terminations and has informed those employees affected that it will carry out the terminations. A provision for voluntary termination is recognised when the employee has accepted the offer of termination.

1.14 Leases

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

Where an asset is acquired by means of a finance lease, the asset is capitalised at either the fair value of the lease property or, if lower, the present value of minimum lease payments at the inception of the contract and a liability is recognised at the same time and for the same amount.

The discount rate used is the interest rate implicit in the lease. Leased assets are amortised over the period of the lease. Lease payments are allocated between the principal component and the interest expense. Operating lease payments are expensed on a straight-line basis which is representative of the pattern of benefits derived from the leased assets.

Rental revenue from operating leases is recognised on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised on a straight-line basis over the lease term.

1.15 Borrowing costs

All borrowing costs are recognised in profit and loss in the period in which they are incurred.

1.16 Cash

Cash is recognised at its nominal amount. Cash and cash equivalents includes cash on hand, deposits held at call with bank, other short-term highly liquid investments with original maturity of 3 months or less that are readily convertible to known amounts of cash and subject to insignificant risk of changes in value and bank overdrafts. Bank overdrafts are shown within short-term borrowings in current liabilities on the consolidated statement of financial position.

1.17 Financial instruments

Financial assets and financial liabilities are recognised when a AWU - Port Kembla, South Coast and Southern Highlands Branch entity becomes a party to the contractual provisions of the instrument.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss.

1.18 Financial assets

Financial assets are classified into the following specified categories: financial assets at fair value through profit or loss, held-to-maturity investments, available-for-sale financial assets and loans and receivables. The classification depends on the nature and purpose of the financial assets and is determined at the time of initial recognition. All regular way purchases or sales of financial assets are recognised and derecognised upon trade date basis. Regular way purchases or sales or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

Fair value through profit or loss

Financial assets are classified as at fair value through profit or loss when the financial asset is either held for trading or it is designated as at fair value through profit or loss.

A financial asset is classified as held for trading if:

- it has been acquired principally for the purpose of selling it in the near term; or
- on initial recognition it is part of a portfolio of identified financial instruments that the reporting unit manages together and has a recent actual pattern of short-term profit-taking; or
- it is a derivative that is not designated and effective as a hedging instrument.

A financial asset other than a financial asset held for trading may be designated as at fair value through profit or loss upon initial recognition if:

- such designation eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise; or
- the financial asset forms part of a group of financial assets or financial liabilities or both, which
 is managed and its performance is evaluated on a fair value basis, in accordance with the
 reporting units documented risk management or investment strategy, and information about the
 grouping is provided internally on that basis; or
- it forms part of a contract containing one or more embedded derivatives, and AASB 139 'Financial Instruments: Recognition and Measurement' permits the entire combined contract (asset or liability) to be designated as at fair value through profit or loss.

Financial assets at fair value through profit or loss are stated at fair value, with any gains or losses arising on remeasurement recognised in profit or loss. The net gain or loss recognised in profit or loss incorporates any dividend or interest earned on the financial asset and is included in the 'other gains and losses' line item in the statement of comprehensive income.

Held-to-maturity investments

Financial assets with fixed or determinable payments and fixed maturity dates that the reporting unit has the positive intent and ability to hold to maturity are classified as held-to-maturity investments. Held-to-maturity investments are measured at amortised cost using the effective interest method less any impairment.

Available-for-sale

Listed shares and listed redeemable notes held by the reporting unit that are traded in an active market are classified as available-for-sale and are stated at fair value. The reporting unit also has investments in unlisted shares that are not traded in an active market but that are also classified as available-for-sale financial assets and stated at fair value. Gains and losses arising from changes in fair value are recognised in other comprehensive income and accumulated in the investments revaluation reserve, with the exception of impairment losses, interest calculated using the effective interest method, and foreign exchange gains and losses on monetary assets, which are recognised in profit or loss. Where the investment is disposed of or is determined to be impaired, the cumulative gain or loss previously accumulated in the investments revaluation reserve is reclassified to profit or loss.

Dividends on available-for-sale equity instruments are recognised in profit or loss when the reporting unit right to receive the dividends is established. The fair value of available-for-sale monetary assets denominated in a foreign currency is determined in that foreign currency and translated at the spot rate at the end of the reporting period. The foreign exchange gains and losses that are recognised in profit or loss are determined based on the amortised cost of the monetary asset. Other foreign exchange gains and losses are recognised in other comprehensive income.

Loan and receivables

Trade receivables, loans and other receivables that have fixed or determinable payments that are not quoted in an active market are classified as 'loans and receivables'. Loans and receivables are measured at amortised cost using the effective interest method less impairment. Interest is recognised by applying the effective interest rate, except for short-term receivables when the recognition of interest would be immaterial.

Effective interest method

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset, or, when appropriate, a shorter period, to the net carrying amount on initial recognition.

Income is recognised on an effective interest rate basis except for debt instruments other than those financial assets that are recognised at fair value through profit or loss.

Impairment of financial assets

Financial assets, other than those at fair value through profit or loss, are assessed for impairment at the end of each reporting period. Financial assets are considered to be impaired when there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial asset, the estimated future cash flows of the investment have been affected.

For certain categories of financial asset, such as trade receivables, assets that are assessed not to be impaired individually are, in addition, assessed for impairment on a collective basis. Objective evidence of impairment for a portfolio of receivables could include the reporting units past experience of collecting payments, an increase in the number of delayed payments in the portfolio past the average credit period of 60 days, as well as observable changes in national or local economic conditions that correlate with default on receivables.

For financial assets carried at amortised cost, the amount of the impairment loss recognised is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the financial asset's original effective interest rate.

For financial assets carried at cost, the amount of the impairment loss is measured as the difference between the asset's carrying amount and the present value of the estimated future cash flows discounted at the current market rate of return for a similar financial asset. Such impairment loss will not be reversed in subsequent periods.

The carrying amount of the financial asset is reduced by the impairment loss directly for all financial assets with the exception of trade receivables, where the carrying amount is reduced through the use of an allowance account. When a trade receivable is considered uncollectible, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against the allowance account. Changes in the carrying amount of the allowance account are recognised in profit or loss.

When an available-for-sale financial asset is considered to be impaired, cumulative gains or losses previously recognised in other comprehensive income are reclassified to profit or loss in the period.

For financial assets measured at amortised cost, if, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment loss is reversed through profit or loss to the extent that the carrying amount of the investment at the date the impairment is reversed does not exceed what the amortised cost would have been had the impairment not been recognised.

In respect of available-for-sale equity securities, impairment losses previously recognised in profit or loss are not reversed through profit or loss. Any increase in fair value subsequent to an impairment loss is recognised in other comprehensive income and accumulated under the heading of investments revaluation reserve. In respect of available-for-sale debt securities, impairment losses are subsequently reversed through profit or loss if an increase in the fair value of the investment can be objectively related to an event occurring after the recognition of the impairment loss.

Derecognition of financial assets

The reporting unit derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. The difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognised in other comprehensive income and accumulated in equity is recognised in profit or loss.

1.19 Financial Liabilities

Financial liabilities are classified as either financial liabilities 'at fair value through profit or loss' or other financial liabilities. Financial liabilities are recognised and derecognised upon 'trade date'.

Fair value through profit or loss

Financial liabilities are classified as at fair value through profit or loss when the financial liability is either held for trading or it is designated as at fair value through profit or loss.

A financial liability is classified as held for trading if:

- it has been acquired principally for the purpose of repurchasing it in the near term; or
- on initial recognition it is part of a portfolio of identified financial instruments that the reporting unit manages together and has a recent actual pattern of short-term profit-taking; or
- it is a derivative that is not designated and effective as a hedging instrument.

A financial liability other than a financial liability held for trading may be designated as at fair value through profit or loss upon initial recognition if:

- such designation eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise; or
- the financial liability forms part of a group of financial assets or financial liabilities or both, which is managed and its performance is evaluated on a fair value basis, in accordance with the reporting units documented risk management or investment strategy, and information about the grouping is provided internally on that basis; or
- it forms part of a contract containing one or more embedded derivatives, and AASB 139 'Financial Instruments: Recognition and Measurement' permits the entire combined contract (asset or liability) to be designated as at fair value through profit or loss.

Financial liabilities at fair value through profit or loss are stated at fair value, with any gains or losses arising on remeasurement recognised in profit or loss. The net gain or loss recognised in profit or loss incorporates any interest paid on the financial liability and is included in the 'other gains and losses' line item in the statement of comprehensive income.

Other financial liabilities

Other financial liabilities, including borrowings and trade and other payables, are initially measured at fair value, net of transaction costs.

Other financial liabilities are subsequently measured at amortised cost using the effective interest method, with interest expense recognised on an effective yield basis.

Derecognition of financial liabilities

The reporting unit derecognises financial liabilities when, and only when, the reporting units obligations are discharged, cancelled or they expire. The difference between the carrying amounts of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss.

1.20 Contingent Liabilities and Contingent Assets

Contingent liabilities and contingent assets are not recognised in the Statement of Financial Position but are reported in the relevant notes. They may arise from uncertainty as to the existence of a liability or asset or represent an existing liability or asset in respect of which the amount cannot be reliably measured. Contingent assets are disclosed when settlement is probable but not virtually certain, and contingent liabilities are disclosed when settlement is greater than remote.

1.21 Land, Buildings, Plant and Equipment

Asset Recognition Threshold

Purchases of land, buildings, plant and equipment are recognised initially at cost in the Statement of Financial Position. The initial cost of an asset includes an estimate of the cost of dismantling and removing the item and restoring the site on which it is located.

Revaluations—Land and Buildings

Following initial recognition at cost, land and buildings are carried at fair value less subsequent accumulated depreciation and accumulated impairment losses. Revaluations are performed with sufficient frequency such that the carrying amount of assets do not differ materially from those that would be determined using fair values as at the reporting date.

Revaluation adjustments are made on a class basis. Any revaluation increment is credited to equity under the heading of asset revaluation reserve except to the extent that it reversed a previous revaluation decrement of the same asset class that was previously recognised in the surplus/deficit. Revaluation decrements for a class of assets are recognised directly in the profit or loss except to the extent that they reverse a previous revaluation increment for that class. Any accumulated depreciation as at the revaluation date is eliminated against the gross carrying amount of the asset and the asset is restated to the revalued amount.

Depreciation

Depreciable property, plant and equipment assets are written-off to their estimated residual values over their estimated useful life using, in all cases, the straight line method of depreciation. Depreciation rates (useful lives), residual values and methods are reviewed at each reporting date and necessary adjustments are recognised in the current, or current and future reporting periods, as appropriate.

Depreciation rates applying to each class of depreciable asset are based on the following useful lives:

	2016	y/e 2016
Land & buildings	40 years	40 years
Plant and equipment	3 to 8 years	3 to 8 years

Derecognition

An item of land, buildings, plant and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in the profit and loss.

1.22 Investment property

Investment properties are properties held to earn rentals and/or for capital appreciation (including property under construction for such purposes). Investment properties are measured initially at its cost, including transaction costs. Subsequent to initial recognition, investment properties are measured at fair value. Gains and losses arising from changes in the fair value of investment properties are included in profit and loss in the period in which they arise.

An investment property is derecognised upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from the disposal. Any gain or loss arising on derecognition of the property (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in profit or loss in the period in which the property is derecognised.

1.23 Intangibles

Intangible assets with finite lives that are acquired separately are carried at cost less accumulated amortisation and accumulated impairment losses. Amortisation is recognised on a straight-line basis over their estimated useful life. The estimated useful lives and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis. Intangible assets with indefinite useful lives that are acquired separately are carried at cost less accumulated impairment losses. The useful life of AWU - Port Kembla, South Coast and Southern Highlands Branch intangible assets are:

	2016	y/e 2016
Intangibles	1 to 5 years	1 to 5 years

Derecognition

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset are recognised in profit and loss when the asset is derecognised.

1.24 Impairment for non-financial assets

All assets are assessed for impairment at the end of each reporting period to the extent that there is an impairment trigger. Where indications of impairment exist, the asset's recoverable amount is estimated and an impairment adjustment made if the asset's recoverable amount is less than its carrying amount.

The recoverable amount of an asset is the higher of its fair value less costs of disposal and its value in use. Value in use is the present value of the future cash flows expected to be derived from the asset. Where the future economic benefit of an asset is not primarily dependent on the asset's ability to generate future cash flows, and the asset would be replaced if the AWU - Port Kembla,

South Coast and Southern Highlands Branch were deprived of the asset, its value in use is taken to be its depreciated replacement cost.

1.25 Non-current assets held for sale

Non-current assets are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use. This condition is regarded as met only when the sale is highly probable and the non-current asset is available for immediate sale in its present condition. Management must be committed to the sale, which should be expected to qualify for recognition as a completed sale within one year from the date of classification.

Non-current assets classified as held for sale are measured at the lower of their previous carrying amount and fair value less costs of disposal.

1.26 Taxation

AWU - Port Kembla, South Coast and Southern Highlands Branch is exempt from income tax under section 50.1 of the Income Tax Assessment Act 1997 however still has obligation for Fringe Benefits Tax (FBT) and the Goods and Services Tax (GST).

Revenues, expenses and assets are recognised net of GST except:

- where the amount of GST incurred is not recoverable from the Australian Taxation Office; and
- for receivables and payables.

The net amount of GST recoverable from, or payable to, the taxation authority is included as part of receivables or payables.

Cash flows are included in the cash flow statement on a gross basis. The GST component of cash flows arising from investing and financing activities which is recoverable from, or payable to, the Australian Taxation Office is classified within operating cash flows.

1.27 Fair value measurement

The AWU - Port Kembla, South Coast and Southern Highlands Branch measures financial instruments, such as, financial asset as at fair value through the profit and loss, available for sale financial assets, and non-financial assets such as land and buildings and investment properties, at fair value at each balance sheet date. Also, fair values of financial instruments measured at amortised cost are disclosed in Note 16A.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the AWU - Port Kembla, South Coast and Southern Highlands Branch. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The AWU - Port Kembla, South Coast and Southern Highlands Branch uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1—Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2—Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3—Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the AWU - Port Kembla, South Coast and Southern Highlands Branch determines whether transfers have occurred between Levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

External valuers are involved for valuation of significant assets, such as land and buildings and investment properties. Selection criteria include market knowledge, reputation, independence and whether professional standards are maintained. For the purpose of fair value disclosures, the AWU - Port Kembla, South Coast and Southern Highlands Branch has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy.

1.28 Going concern

AWU - Port Kembla, South Coast and Southern Highlands Branch is not reliant on the agreed financial support of another reporting unit to continue on a going concern basis.

AWU - Port Kembla, South Coast and Southern Highlands Branch has not agreed to provide financial support to another reporting unit to ensure they can continue on a going concern basis.

Note 2 Events after the reporting period

There were no events that occurred after 31/08/16, and/or prior to the signing of the financial statements, that would affect the ongoing structure and financial activities of AWU - Port Kembla, South Coast and Southern Highlands Branch apart from the amalgamation of the branch on the 01/09/16.

Additions	-	-
Net gain from fair value adjustment	-	-
Closing balance as at 31/8/16	677,846	677,846

Investment Property land and buildings consist of an adjoining residential property converted to offices not currently leased. Management determined that these constitute one class of asset under AASB 13, based on the nature, characteristics and risks of the property.

Fair value of the properties was determined by using market comparable method. This means that valuations performed by the valuers are based on active market prices, significantly adjusted for difference in the nature, location or condition of the specific property.

As at the date of revaluation 30/6/2016, the properties' fair values are based on valuations performed by various local independent valuers.

The valuations were performed by two real estate agents, with recent experience in the location and category of the investment property being valued. In arriving at their estimates of market values, the valuers have used their market knowledge and professional judgement and not only relied on historical transactional comparables.

The highest and best use of the investment properties is considered to be different from its current use.

Additions during the period - not applicabe.

Rental income earned and received from the investment properties during the period was \$1,345 (y/e 2016: \$39,605.

Direct expenses incurred in relation to the investment properties that generated rental income during the period was \$5,603 (y/e 2016: \$17,557). During the period and as at the year-end, no restrictions on the realisability of investment property or the remittance of income and proceeds of disposal were present.

The AWU - Port Kembla, South Coast and Southern Highlands Branch does not have any contractual obligations to purchase, construct or develop investment property or for repairs, maintenance or enhancements.

The fair value of investment property is included within Level 1. Based upon the condition of the building it is considered to be land value only and not a valuation representing a series of future cash flows.

Assets transferred from/to related parties		
includes the following:		
Not Applicable	-	-

Terms and conditions of transactions with related parties

The sales to and purchases from related parties are made on terms equivalent to those that prevail in arm's length transactions. Outstanding balances for sales and purchases at the year-end are unsecured and interest free and settlement occurs in cash. There have been no guarantees provided or received for any related party receivables or payables. For the period ended 31/8/16, the AWU - Port Kembla, South Coast and Southern Highlands Branch has not recorded any impairment of receivables relating to amounts owed by related parties and declared person or body (y/e 2016: \$Nil). This assessment is undertaken each financial period through examining the financial position of the related party and the market in which the related party operates.

Premises on a rent free basis were provided by AWU National Office for a the last financial year. Had market rental been charged by the reporting unit the amount paid would have been \$75,000 for a full year.

Note 15F: Market Risk

Market risks being interest rate risk, price risk, and currency risk are limited by the retail nature of the products and the underlying low risk of suppliers accounts.

Interest rate risk

Interest rates on the retail banking products are not expected to vary by more than 25 basis point in the next 12 months and the resulting effect on the financial result of plus or minus \$5,000 is not considered to be applicable for further disclosure including price & currency risk.

Note 16 Fair Value Measurement Note 16A: Financial Assets and Liabilities

Management of the reporting unit assessed that cash, trade receivables, trade payables, and other current liabilities approximate their carrying amounts largely due to the short term maturities of these instruments.

The fair value of financial assets and liabilities is included at the amount which the instrument could be exchanged in a current transaction between willing parties. The following methods and assumptions were used to estimate the fair values:

- Fair values of the reporting unit's interest-bearing borrowings and loans are determined by using a discounted cash flow method. The discount rate used reflects the issuer's borrowing rate as at the end of the reporting period. The own performance risk as at 31/08/2016 was assessed to be insignificant.
- Fair value of available-for-sale financial assets is derived from quoted market prices in active markets.
- Long-term fixed-rate and variable-rate receivables/borrowings are evaluated by the Group based on parameters such as interest rates and individual credit worthiness of the customer. Based on this evaluation, allowances are taken into account for the expected losses of these receivables. As at 30/6/2016 the carrying amounts of such receivables, net of allowances, were not materially different from their calculated fair values.

The carrying amounts and related fair values are the same for the financial assets and liabilities.

Note 16B: Fair Value Hierarchy

No items have been measured at fair value, by fair value hierarchy.

Note 17 Business combinations

Note 18 Information about subsidiaries

Not applicable

Note 19 Administration of financial affairs by a third party

No entities provide services of this nature to or by the branch.

Note 20 Section 272 Fair Work (Registered Organisations) Act 2009

In accordance with the requirements of the *Fair Work (Registered Organisations) Act 2009*, the attention of members is drawn to the provisions of subsections (1) to (3) of section 272, which reads as follows:

Information to be provided to members or General Manager:

- (1) A member of a reporting unit, or the General Manager, may apply to the reporting unit for specified prescribed information in relation to the reporting unit to be made available to the person making the application.
- (2) The application must be in writing and must specify the period within which, and the manner in which, the information is to be made available. The period must not be less than 14 days after the application is given to the reporting unit.
- (3) A reporting unit must comply with an application made under subsection (1).
