

2 August 2018

Mr Chris Watt  
Federal Secretary  
Independent Education Union of Australia

By e-mail: [ieu@ieu.org.au](mailto:ieu@ieu.org.au)

Dear Mr Watt

**Independent Education Union of Australia**  
**Financial Report for the year ended 31 December 2017 - FR2017/359**

I acknowledge receipt of the financial report for the year ended 31 December 2017 for the Independent Education Union of Australia (IEUA). The financial report was lodged with the Registered Organisations Commission (ROC) on 28 June 2018.

The financial report has now been filed. You are not required to take any further action in respect of the report lodged.

Whilst the 2017 report has been filed the following should be addressed in the preparation of the next financial report.

**1. Committee of Management Statement**

Reference to s.272 & s.273

Following the enactment of the *Fair Work (Registered Organisations) Amendment Act 2016*, with effect from 1 May 2017, section 272 refers to Commissioner of the ROC instead of the General Manager, Fair Work Commission. However, section 273 continues to refer to the Fair Work Commission (FWC).

The IEUA Committee of Management statement, at reference (e)(vi), refers to the 'Registered Organisations Commission'. In future, please amend this reference to the 'Fair Work Commission'.

**2. General Purpose Financial Report (GPFR)**

Future Australian Accounting Standards

Australian Accounting Standard *AASB 108 Accounting Policies, Changes in Accounting Estimates and Errors* paragraph 30 requires that the entity disclose Australian Accounting Standards issued but not yet effective with an assessment of the future impact on the entity.

At a minimum, new accounting standards *AASB 9 Financial Instruments* and *AASB 16 Leases* should be disclosed at Note 1.4 to the GPFR. In future, please ensure that accounting standards are disclosed in accordance with AASB 108.

## Leases

Note 4D to the GPFR states that minimum lease payments were \$38,299. However, the GPFR does not include all the disclosures required under *AASB 117 Leases* paragraph 35.

In future, please ensure that leases are disclosed in accordance with AASB 117.

## Notes to the Cash Flow Statement

Reporting Guideline 24 states:

Where another reporting unit and/or controlled entity of the organisation is the source of a cash inflow or the application of a cash outflow, such cash flow should be separately disclosed in the notes to the financial statements and show the name of the other reporting unit and/or controlled entity concerned.

In future, please ensure that cash flows to and from another reporting unit are disclosed in accordance with Reporting Guideline 24.

## Activity under Reporting Guidelines (RG) not disclosed

Item 13 of the RG states that if the activities identified in item 11 have not occurred in the reporting period, a statement to this effect must be included in the notes to the GPFR. I note that no such disclosure has been made for:

- Item 11 - going concern financial support provided to another reporting unit (refers to agreement regarding financial support not dollar amount)

If no undertaking to provide financial support has been provided the following statement should be included:

The [**Reporting Unit**] has not agreed to provide financial support to ensure another reporting unit has the ability to continue as a going concern.

## Presentation of general purpose financial report

I note that the reporting unit has prepared its general purpose financial report using the model set of financial statements made available by the ROC. The ROC recommends that reporting units use the model as it will assist with ensuring compliance with the RO Act, the s.253 Reporting Guidelines and the Australian Accounting Standards, however as stated in the introduction on page 2 of the model financial statements:

*'a reporting unit will need to ensure that only the disclosures that are applicable to their individual circumstances are included in the audited financial report distributed to members and lodged with the Registered Organisations Commission.'*

The audited financial report distributed to members and lodged with the ROC contains a number of disclosures that are NOT applicable to the reporting unit. Additionally the financial report contains headers and footers from the model accounts which are also not applicable to the reporting unit.

Please ensure in future years that the financial report distributed to members and lodged with the ROC contains only the disclosures that are applicable to the reporting unit's circumstances.

Should you wish to discuss the matters raised in this letter, or if you require further information on the financial reporting requirements of the Act, I may be contacted on (03) 9603 0707 or by email at [ken.morgan@roc.gov.au](mailto:ken.morgan@roc.gov.au)

Yours faithfully

A handwritten signature in black ink, appearing to read 'K. Morgan', with a stylized flourish at the end.

**KEN MORGAN**

## Introduction

This document contains a financial report of Independent Education Union of Australia – a reporting unit as defined under section 242 of the *Fair Work (Registered Organisations) Act 2009* (RO Act), with a reporting date of 31 December 2017.

The enclosed financial report has been prepared in accordance with the requirements of applicable Australian Accounting Standards as they apply to a not-for-profit entity and the RO Act, including the section 253 Reporting Guidelines issued on 13 June 2014.

### Australian Accounting Standards applicable as at 31 December 2017

This financial report illustrates Australian Accounting Standards which apply to annual reporting periods beginning on or after 1 July 2016.

In addition, the disclosure requirements of the following Australian Accounting Standards are not applicable to Independent Education Union of Australia and have therefore not been considered in the financial report:

- AASB 1 *First Time Adoption of Australian Equivalents to International Financial Reporting Standards*
- AASB 2 *Share-based Payment*
- AASB 3 *Business Combinations*
- AASB 4 *Insurance Contracts*
- AASB 5 *Non-current Assets Held for Sale and Discontinued Operations*
- AASB 6 *Exploration for and Evaluation of Mineral Resources*
- AASB 8 *Operating Segments*
- AASB 10 *Consolidated Financial Statements*
- AASB 14 *Regulatory Deferral Accounts*
- AASB 102 *Inventories*
- AASB 111 *Construction Contracts*
- AASB 112 *Income Taxes*
- AASB 129 *Financial Reporting in Hyperinflationary Economies*
- AASB 133 *Earnings per Share*
- AASB 134 *Interim Financial Reporting*
- AASB 141 *Agriculture*
- AASB 1023 *General Insurance Contracts*
- AASB 1038 *Life Insurance Contracts*
- AASB 1039 *Concise Financial Reports*
- AASB 1049 *Whole of Government and General Government Sector Financial Reporting*
- AASB 1050 *Administered Items*
- AASB 1051 *Land Under Roads*
- AASB 1052 *Disaggregated Disclosures*
- AASB 1056 *Superannuation Entities*
- AAS 25 *Financial Reporting by Superannuation Plans*
- Interpretation 1 *Changes in Existing Decommissioning, Restoration and Similar Liabilities*
- Interpretation 6 *Liabilities arising from Participating in a Specific Market – Waste Electrical and Electronic Equipment*
- Interpretation 7 *Applying the Restatement Approach under AASB 129 Financial Reporting in Hyperinflationary Economies*
- Interpretation 10 *Interim Financial Reporting and Impairment*
- Interpretation 12 *Service Concession Arrangements*
- Interpretation 13 *Customer Loyalty Programs*

- Interpretation 15 *Agreements for the Construction of Real Estate*
- Interpretation 17 *Distributions of Non-Cash Assets to Owners*
- Interpretation 20 *Stripping Costs in the Production Phase of a Surface Mine*
- Interpretation 107 *Introduction of the Euro*
- Interpretation 110 *Government Assistance — No Specific Relation to Operating Activities*
- Interpretation 125 *Income Taxes – Changes in the Tax Status of an Entity or its Shareholders*
- Interpretation 129 *Service Concession Arrangements: Disclosures*
- Interpretation 131 *Revenue — Barter Transactions Involving Advertising Services*
- Interpretation 1003 *Australian Petroleum Resource Rent Tax*
- Interpretation 1038 *Contributions by Owners Made to Wholly-Owned Public Sector Entities*
- Interpretation 1042 *Subscriber Acquisition Costs in the Telecommunications Industry*
- Interpretation 1047 *Professional Indemnity Claims Liabilities in Medical Defence Organizations*
- 1052 *Tax Consolidation Accounting*
- Interpretation 1055 *Accounting for Road Earthworks*

### Allowed alternative treatments

In some cases, an Australian Accounting Standard permits more than one accounting treatment for a transaction or event. Preparers of the financial statements should select the treatment that is most relevant to their business and the relevant circumstances as their accounting policy.

AASB 108 *Accounting Policies, Changes in Accounting Estimates and Errors*, requires an entity to select and apply its accounting policies consistently for similar transactions, events and/or conditions, unless an Australian Accounting Standard specifically requires or permits categorisation of items for which different policies may be appropriate. Where an Australian Accounting Standard requires or permits such categorisation, an appropriate accounting policy is selected and applied consistently to each category. Therefore, once a choice of one of the alternative treatments has been made, it becomes an accounting policy and must be applied consistently. Changes in accounting policy should only be made if required by a standard or interpretation, or if the change results in the financial statements providing more reliable and relevant information.

## Independent Audit Report to the Members of the Independent Education Union of Australia

### Opinion

I have audited the financial report of the Independent Education Union of Australia (the Reporting Unit), which comprises the statement of financial position as at 31 December 2017, the statement of comprehensive income, statement of changes in equity and statement of cash flows for the year ended 31 December 2017, notes to the financial statements, including a summary of significant accounting policies; and the Committee of Management Statement.

In my opinion, the accompanying financial report presents fairly, in all material aspects, the financial position of the Independent Education Union of Australia as at 31 December 2017, and its financial performance and its cash flows for the year ended on that date in accordance with:

- a) the Australian Accounting Standards; and
- b) any other requirements imposed by the Reporting Guidelines or Part 3 of Chapter 8 of the *Fair Work (Registered Organisations) Act 2009* (the RO Act).

I declare that management's use of the going concern basis in the preparation of the financial statements of the Reporting Unit is appropriate.

### Basis for Opinion

I conducted my audit in accordance with Australian Auditing Standards. My responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of my report. I am independent of the Reporting Unit in accordance with the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants* (the Code) that are relevant to my audit of the financial report in Australia. I have also fulfilled my other ethical responsibilities in accordance with the Code.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

### Information Other than the Financial Report and Auditor's Report Thereon

The Committee of Management is responsible for the other information. The other information obtained at the date of this auditor's report is in the Operating Report accompanying the financial report.

My opinion on the financial report does not cover the other information and accordingly I do not express any form of assurance conclusion thereon.

In connection with my audit of the financial report, my responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or my knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work I have performed, I conclude that there is a material misstatement of this other information, I am required to report that fact. I have nothing to report in this regard.

## **Responsibilities of Committee of Management for the Financial Report**

The Committee of Management of the Reporting Unit is responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the RO Act, and for such internal control as the Committee of Management determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the Committee of Management is responsible for assessing the Reporting Unit's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Committee of Management either intend to liquidate the Reporting Unit or to cease operations, or have no realistic alternative but to do so.

## **Auditor's Responsibilities for the Audit of the Financial Report**

My objective is to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial report.

As part of an audit in accordance with the Australian Auditing Standards, I exercise professional judgement and maintain professional scepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Reporting Unit's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Committee of Management.
- Conclude on the appropriateness of the Committee of Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Reporting Unit's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my auditor's report. However, future events or conditions may cause the Reporting Unit to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Reporting Unit to express an opinion on the financial report. I am responsible for the direction, supervision and performance of the Reporting Unit audit. I remain solely responsible for my audit opinion.

I communicate with the Committee of Management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

I declare that I am an approved auditor, a member of Chartered Accountants Australia and New Zealand and hold a current Public Practice Certificate.

### **Report on Other Legal and Regulatory Requirements**

In accordance with the requirements of section 257(7) of the RO Act, I am required to describe any deficiency, failure or shortcoming in respect of the matters referred to in section 252 and 257(2) of the RO Act.

My opinion on the financial report is not modified in respect of any other legal or regulatory requirement.

### **Responsibilities**

The Committee of Management is responsible for the preparation and presentation of the recovery of wages activity financial report in accordance with the reporting guidelines of the General Manager. My responsibility is to express an opinion on the recovery of wages activity financial report, based on my audit conducted in accordance with Australian Auditing Standards.

## OPERATING REPORT

*for the period ended 31<sup>st</sup> December 2017*

The committee presents its report on the reporting unit for the financial year ended 31<sup>st</sup> December 2017.

### **Review of principal activities, the results of those activities and any significant changes in the nature of those activities during the year**

#### **Principal Activities**

- (1) Support and advice to branches regarding political, industrial, legal and professional agendas. Ensuring ongoing advice to them on the Federal Government's industrial legislation.
- (2) Representation of the industrial and professional interests of the members in a broad range of federal spheres. This includes the ACTU and its committees; participation in forums on educational and professional issues of relevance to IEU members; representation to Government Ministers and Shadow Ministers on government policies relevant to the professional and industrial interests of our members; representation of the Union's interests at the Fair Work Commission in relation to rules matters and the defence of members' industrial rights in industrial disputes.
- (3) Submissions to national inquiries on school funding, educational, industrial and human rights issues relevant to the membership and the broader community. Appearance before such inquiries on behalf of the Union and its membership and participation in the public debate on these matters.
- (4) Research in relevant areas of public policy such as the funding of schooling, industrial, legal and constitutional matters, educational issues, and human rights concerns to inform our own policy development. Oversight of the comparative salaries and conditions of various categories of staff in non-government schools across the jurisdictions. Monitoring of Fair Work decisions and decisions from other jurisdictions.
- (5) Protection and carriage of the Union's Rules.
- (6) Negotiation and prosecution of claims for improved salaries and conditions for workers on Federal Awards through Fair Pay Commission processes.

#### **Results of these Activities**

- (1) Sustained membership of the Union's Branches
- (2) A proactive membership industrially and professionally
- (3) Continued public profile of the Union on behalf of teachers and support staff in non-government education
- (4) Improvements in the industrial and professional conditions of the membership.

#### **Significant Changes in the Nature of these Activities**

- (1) There have been no significant changes in the nature of these activities over the past year.

## Significant changes in financial affairs

- (1) There have been no significant changes in the financial activities over the past year.

## Right of members to resign

A member may resign from the Union in accord with Rule 21.

### 21 - RESIGNATION FROM MEMBERSHIP

- (a) A member of the Union may resign from membership by written notice addressed and delivered to the relevant Branch Secretary.
- (b) A notice of resignation from membership takes effect:
  - (i) where the member ceases to be eligible to become a member of the Union:
    - (A) on the day on which the notice is received by the Union; or
    - (B) on the day specified in the notice, which is a day not earlier than the day when the member ceases to be eligible to become a member;whichever is later; or
  - (ii) in any other case:
    - (A) at the end of two weeks after the notice is received by the organisation; or
    - (B) on the day specified in the notice;whichever is the later.
- (c) Any dues payable and not paid by a former member in relation to a period before the member's resignation from the organisation took effect, may be sued for and recovered in the name of the Union, in a court of competent jurisdiction, as a debt due to the Union.
- (d) A notice delivered to the person mentioned in subclause (a) shall be taken to have been received by the Union when it was delivered.
- (e) A notice of resignation that has been received by the Union is not invalid because it was not addressed and delivered in accordance with Subclause (a).
- (f) A resignation from membership of the Union is valid even if it is not effected in accordance with this section if the member is informed in writing by or on behalf of the Union that the resignation has been accepted.

**Officers & employees who are superannuation fund trustee(s) (including position details) or director of a company that is a superannuation fund trustee**

Debra James	Federal Council member, Federal Vice President, Secretary IEUA Vic Tas Branch – Director of Catholic Superannuation Fund
Cathy Hickey	Federal Council member - Director NGS Super Fund
Terry Burke	Federal Council member, Federal Deputy President, Secretary IEUA QNT Branch – Director QIEC Pty. Ltd. the Corporate Trustee of QIEC Super
John Spriggs	Federal Council member, Senior Industrial Officer IEUA QNT Branch - Director QIEC Pty. Ltd., the Corporate Trustee of QIEC Super
Chris Seymour	Industrial Co-ordinator IEUA QNT Branch – Alternate Director QIEC Pty. Ltd. the Corporate Trustee of QIEC Super
Glen Seidel	Federal Council member, Federal Executive member, Secretary IEU(SA) Branch – Director NGS Super Fund
Gloria Taylor	Federal Council member, Federal Executive member, Deputy Secretary IEUA NSWACT Branch – Director NGS Super Fund
John Quessy	Federal Council member, Federal President, Secretary IEUA NSWACT Branch – Alternate Director NGS Super Fund
Christine Wilkinson	Federal Council member, President IEUA NSWACT Branch –Director NGS Super Fund
Angela Briant	Federal Council member, Federal Executive member, Secretary IEUA WA Branch – Director WA Super

**Number of members**

There were 72,888 members on the register of members on 31<sup>st</sup> December 2017.

**Number of employees**

As at 31 December 2017 the number of employees employed on a full-time equivalent basis was 4.4 FTE.

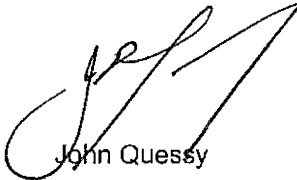

**Names of Committee of Management members and period positions held during the financial year**

The following persons are on the Federal Executive of the Union. The period of time during the reporting period for which they have held their position is indicated.

Chris Watt	Federal Secretary	12 months
Christine Cooper	Assistant Federal Secretary	12 months
Anthony Odgers	Assistant Federal Secretary	12 months
John Quessy	President	12 months
Deb James	Deputy President	12 months
Terry Burke	Vice President	12 months
Glen Seidel	Vice President	12 months
Angela Briant	Delegate	12 months
Gloria Taylor	Delegate	12 months

The Operating Report for the period ended 31st December 2017 was prepared by Chris Watt, Federal Secretary.

Dated:	24.5. 2018	24/5/. 2018

FEDERAL COUNCIL'S STATEMENT

**(Committee of Management Statement)**

for the year ended 31 December 2017

On 24/05/2018 the Federal Council of the *Independent Education Union of Australia* passed the following resolution in relation to the general purpose financial report (GPFR) for the year ended 31 December 2017:

The Federal Council declares that in its opinion:

- (a) the financial statements and notes comply with the Australian Accounting Standards;
- (b) the financial statements and notes comply with any other requirements imposed by the Reporting Guidelines or Part 3 of Chapter 8 of the *Fair Work (Registered Organisations) Act 2009* (the RO Act);
- (c) the financial statements and notes give a true and fair view of the financial performance, financial position and cash flows of the reporting unit for the financial year to which they relate;
- (d) there are reasonable grounds to believe that the reporting unit will be able to pay its debts as and when they become due and payable; and
- (e) during the financial year to which the GPFR relates and since the end of that year:
  - (i) meetings of the committee of management were held in accordance with the rules of the organisation including the rules of a branch concerned; and
  - (ii) the financial affairs of the reporting unit have been managed in accordance with the rules of the organisation including the rules of a branch concerned; and
  - (iii) the financial records of the reporting unit have been kept and maintained in accordance with the RO Act; and
  - (iv) where the organisation consists of two or more reporting units, the financial records of the reporting unit have been kept, as far as practicable, in a consistent manner with each of the other reporting units of the organisation; and
  - (v) where information has been sought in any request by a member of the reporting unit or Commissioner duly made under section 272 of the RO Act has been provided to the member or Commissioner; and
  - (vi) where any order for inspection of financial records has been made by the Registered Organisations Commission under section 273 of the RO Act, there has been compliance.
- (f) no revenue has been derived from undertaking recovery of wages activity during the reporting period

This declaration is made in accordance with a resolution of the Committee of Management.

## Index to the Notes of the Financial Statements

Note 1	Summary of significant accounting policies
Note 2	Events after the reporting period
Note 3	Income
Note 4	Expenses
Note 5	Current assets
Note 6	Non-current assets
Note 7	Current liabilities
Note 8	Provisions
Note 9	Equity
Note 10	Cash flow
Note 11	Related party disclosures
Note 12	Remuneration of auditors
Note 13	Financial instruments
Note 14	Fair value measurements
Note 15	Section 272 <i>Fair Work (Registered Organisations) Act 2009</i>

## **Note 1 Summary of significant accounting policies**

### **1.1 Basis of preparation of the financial statements**

The financial statements are general purpose financial statements and have been prepared in accordance with Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board (AASB) that apply for the reporting period, and the *Fair Work (Registered Organisation) Act 2009*. For the purpose of preparing the general purpose financial statements, the Independent Education Union of Australia is a not-for-profit entity.

The financial statements have been prepared on an accrual basis and in accordance with the historical cost, except for certain assets and liabilities measured at fair value, as explained in the accounting policies below. Historical cost is generally based on the fair values of the consideration given in exchange for assets. Except where stated, no allowance is made for the effect of changing prices on the results or the financial position. The financial statements are presented in Australian dollars.

### **1.2 Comparative amounts**

When required by Accounting Standards, comparative figures have been adjusted to conform to changes in presentation for the current financial year.

### **1.3 Significant accounting judgements and estimates**

There has been no accounting assumptions or estimates identified that would indicate any significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next reporting period.

## 1.4 New Australian Accounting Standards

### ***Adoption of New Australian Accounting Standard requirements***

No accounting standard has been adopted earlier than the application date stated in the standard.

The accounting policies adopted are consistent with those of the previous financial year except for the following standards and amendments, which have been adopted for the first time in this financial year

- *AASB 2014-4 Amendments to Australian Accounting Standards – Clarification of Acceptable Methods of Depreciation and Amortisation* clarify the principle in AASB 116 *Property, Plant and Equipment* and AASB 138 *Intangible Assets* that revenue reflects a pattern of economic benefits that are generated from operating a business (of which the asset is part) rather than the economic benefits that are consumed through use of the asset. As a result, the ratio of revenue generated to total revenue expected to be generated cannot be used to depreciate property, plant and equipment and may only be used in very limited circumstances to amortise intangible assets.

There was no impact of applying this amendment on Independent Education Union of Australia.

- *AASB 2015-2 Amendments to Australian Accounting Standards – Disclosure Initiative: Amendments to AASB 101* amends AASB 101 *Presentation of Financial Statements* to clarify existing presentation and disclosure requirements and to ensure entities are able to use judgement when applying the Standard in determining what information to disclose, where and in what order information is presented in their financial statements. For example the amendments make clear that materiality applies to the whole of financial statements and that the inclusion of immaterial information can inhibit the usefulness of financial disclosures.

There was no impact of applying this amendment on Independent Education Union of Australia.

## ***Future Australian Accounting Standards Requirements***

New standards, amendments to standards or interpretations that were issued prior to the sign-off date and are applicable to the future reporting period that are not expected to have a future financial impact on Independent Education Union of Australia.

### **1.5 Investment in associates and joint arrangements**

An associate is an entity over which the Independent Education Union of Australia has significant influence and that is neither a subsidiary nor an interest in a joint venture. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

A joint venture is a type of joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint venture. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

A joint operation is a type of joint arrangement whereby the parties that have joint control of the arrangement have rights to the individual assets and obligations for the liabilities of the joint operation.

The results and assets and liabilities of associates and its joint ventures are incorporated in these financial statements using the equity method of accounting, except when the investment is classified as held for sale, in which case it is accounted for in accordance with AASB 5 'Non-current Asset Held for Sale and Discontinued Operations. 'Under the equity method, an investment in an associate or joint venture is initially recognised in the statement of financial position at cost and adjusted thereafter to recognise the share of the profit or loss and other comprehensive income of the associate. When the share of losses of an associate or joint venture exceeds the interest in that associate, the Independent Education Union of Australia discontinues recognising its share of further losses. Additional losses are recognised only to the extent that it has incurred legal or constructive obligations or made payments on behalf of the associate or joint venture.

Any excess of the cost of acquisition over the share of the net fair value of the identifiable assets, liabilities and contingent liabilities of the associate recognised at the date of acquisition is recognised as goodwill, which is included within the carrying amount of the investment. Any excess of the share of the net fair value of the identifiable assets, liabilities and contingent liabilities over the cost of acquisition, after reassessment, is recognised immediately in profit or loss.

### **1.6 Acquisition of assets and or liabilities that do not constitute a business combination**

The net book value of assets and or liabilities transferred to Independent Education Union of Australia for no consideration is used to account for an amalgamation under Part 2 of Chapter 3 of the *Fair Work (Registered Organisations) Act 2009/a* restructure of the branches of the Independent Education Union of Australia/a determination by the General Manager under subsections 245(1) of the *Fair Work (Registered Organisations) Act 2009/a* revocation by the General Manager under subsection 249(1) of the *Fair Work (Registered Organisations) Act 2009*.

The assets and liabilities are recognised as at the date of transfer.

## 1.7 Revenue

Revenue is measured at the fair value of the consideration received or receivable.

Revenue from subscriptions is accounted for on an accrual basis and is recorded as revenue in the year to which it relates.

Revenue from the sale of goods is recognised when, the risks and rewards of ownership have been transferred to the buyer, the entity retains no managerial involvement or effective control over the goods, the revenue and transaction costs incurred can be reliably measured, and it is probable that the economic benefits associated with the transaction will flow to the entity.

Donation income is recognised when it is received.

Receivables for goods and services, which have 30 day terms, are recognised at the nominal amounts due less any impairment allowance account. Collectability of debts is reviewed at end of the reporting period. Allowances are made when collectability of the debt is no longer probable.

Interest revenue is recognised on an accrual basis using the effective interest method.

Rental revenue from operating leases is recognised on a straight-line basis over the term of the relevant lease.

## 1.8 Government grants<sup>2</sup>

Government grants are not recognised until there is reasonable assurance that the Independent Education Union of Australia will comply with the conditions attaching to them and that the grants will be received.

Government grants are recognised in profit or loss on a systematic basis over the periods in which the Independent Education Union of Australia recognises as expenses the related costs for which the grants are intended to compensate. Specifically, government grants whose primary condition is that the Independent Education Union of Australia should purchase, construct otherwise acquire non-current assets are recognised as deferred revenue in the statement of financial position and transferred to profit or loss on a systematic and rational basis over the useful lives of the related assets.

Government grants that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the Independent Education Union of Australia with no future related costs are recognised in profit or loss in the period in which they become receivable.

---

<sup>2</sup> Policy relevant for for-profit reporting units. Not-for-profit reporting units must comply with AASB 1004 Contributions.

## 1.9 Gains

### ***Sale of assets***

Gains and losses from disposal of assets are recognised when control of the asset has passed to the buyer.

## 1.10 Capitation fees and levies

Capitation fees and levies are recognised on an accrual basis and recorded as a revenue and/or expense in the year to which it relates.

## 1.11 Employee benefits

A liability is recognised for benefits accruing to employees in respect of wages and salaries, annual leave, long service leave and termination benefits when it is probable that settlement will be required and they are capable of being measured reliably.

Liabilities for short-term employee benefits (as defined in AASB 119 *Employee Benefits*) and termination benefits which are expected to be settled within twelve months of the end of reporting period are measured at their nominal amounts. The nominal amount is calculated with regard to the rates expected to be paid on settlement of the liability.

Other long-term employee benefits which are expected to be settled beyond twelve months are measured as the present value of the estimated future cash outflows to be made by the reporting unit in respect of services provided by employees up to reporting date.

Payments to defined contribution retirement benefit plans are recognised as an expense when employees have rendered service entitling them to the contributions.

Provision is made for separation and redundancy benefit payments. The reporting unit recognises a provision for termination as part of a broader restructuring when it has developed a detailed formal plan for the terminations and has informed those employees affected that it will carry out the terminations. A provision for voluntary termination is recognised when the employee has accepted the offer of termination.

## 1.12 Leases

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

Where an asset is acquired by means of a finance lease, the asset is capitalised at either the fair value of the lease property or, if lower, the present value of minimum lease payments at the inception of the contract and a liability is recognised at the same time and for the same amount.

The discount rate used is the interest rate implicit in the lease. Leased assets are amortised over the period of the lease. Lease payments are allocated between the principal component and the interest expense.

Operating lease payments are expensed on a straight-line basis which is representative of the pattern of benefits derived from the leased assets.

Rental revenue from operating leases is recognised on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised on a straight-line basis over the lease term.

### **1.13 Borrowing costs**

All borrowing costs are recognised in profit and loss in the period in which they are incurred.

### **1.14 Cash**

Cash is recognised at its nominal amount. Cash and cash equivalents includes cash on hand, deposits held at call with bank, other short-term highly liquid investments with original maturity of 3 months or less that are readily convertible to known amounts of cash and subject to insignificant risk of changes in value and bank overdrafts. Bank overdrafts are shown within short-term borrowings in current liabilities on the statement of financial position.

### **1.15 Financial instruments**

Financial assets and financial liabilities are recognised when the Independent Education Union of Australia becomes a party to the contractual provisions of the instrument.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

### **1.16 Financial assets**

Financial assets are classified into the following specified categories: financial assets at fair value through profit or loss, held-to-maturity investments, available-for-sale financial assets and loans and receivables. The classification depends on the nature and purpose of the financial assets and is determined at the time of initial recognition. All regular way purchases or sales of financial assets are recognised and derecognised upon trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

### ***Fair value through profit or loss***

Financial assets are classified as at fair value through profit or loss when the financial asset is either held for trading or it is designated as at fair value through profit or loss.

A financial asset is classified as held for trading if:

- it has been acquired principally for the purpose of selling it in the near term; or
- on initial recognition it is part of a portfolio of identified financial instruments that the reporting unit manages together and has a recent actual pattern of short-term profit-taking; or
- it is a derivative that is not designated and effective as a hedging instrument.

A financial asset other than a financial asset held for trading may be designated as at fair value through profit or loss upon initial recognition if:

- such designation eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise; or
- the financial asset forms part of a group of financial assets or financial liabilities or both, which is managed and its performance is evaluated on a fair value basis, in accordance with the reporting units documented risk management or investment strategy, and information about the grouping is provided internally on that basis; or
- it forms part of a contract containing one or more embedded derivatives, and AASB 139 'Financial Instruments: Recognition and Measurement' permits the entire combined contract (asset or liability) to be designated as at fair value through profit or loss.

Financial assets at fair value through profit or loss are stated at fair value, with any gains or losses arising on re-measurement recognised in profit or loss. The net gain or loss recognised in profit or loss incorporates any dividend or interest earned on the financial asset and is included in the 'other gains and losses' line item in the statement of comprehensive income.

### ***Held-to-maturity investments***

Financial assets with fixed or determinable payments and fixed maturity dates that the reporting unit has the positive intent and ability to hold to maturity are classified as held-to-maturity investments. Held-to-maturity investments are measured at amortised cost using the effective interest method less any impairment.

### ***Available-for-sale***

Listed shares and listed redeemable notes held by the reporting unit that are traded in an active market are classified as available-for-sale and are stated at fair value. The reporting unit also has investments in unlisted shares that are not traded in an active market but that are also classified as available-for-sale financial assets and stated at fair value. Gains and losses arising from changes in fair value are recognised in other comprehensive income and accumulated in the investments revaluation reserve, with the exception of impairment losses, interest calculated using the effective interest method, and foreign exchange gains and losses on monetary assets, which are recognised in profit or loss. Where the investment is disposed of or is determined to be impaired, the cumulative gain or loss previously accumulated in the investments revaluation reserve is reclassified to profit or loss.

Dividends on available-for-sale equity instruments are recognised in profit or loss when the reporting unit right to receive the dividends is established. The fair value of available-for-sale monetary assets denominated in a foreign currency is determined in that foreign

currency and translated at the spot rate at the end of the reporting period. The foreign exchange gains and losses that are recognised in profit or loss are determined based on the amortised cost of the monetary asset. Other foreign exchange gains and losses are recognised in other comprehensive income.

### ***Loan and receivables***

Trade receivables, loans and other receivables that have fixed or determinable payments that are not quoted in an active market are classified as 'loans and receivables'. Loans and receivables are measured at amortised cost using the effective interest method less impairment. Interest is recognised by applying the effective interest rate, except for short-term receivables when the recognition of interest would be immaterial.

### ***Effective interest method***

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset, or, when appropriate, a shorter period, to the net carrying amount on initial recognition.

Income is recognised on an effective interest rate basis except for debt instruments other than those financial assets that are recognised at fair value through profit or loss.

### ***Impairment of financial assets***

Financial assets, other than those at fair value through profit or loss, are assessed for impairment at the end of each reporting period. Financial assets are considered to be impaired when there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial asset, the estimated future cash flows of the investment have been affected.

For certain categories of financial asset, such as trade receivables, assets that are assessed not to be impaired individually are, in addition, assessed for impairment on a collective basis. Objective evidence of impairment for a portfolio of receivables could include the reporting units past experience of collecting payments, an increase in the number of delayed payments in the portfolio past the average credit period of 60 days, as well as observable changes in national or local economic conditions that correlate with default on receivables.

For financial assets carried at amortised cost, the amount of the impairment loss recognised is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the financial asset's original effective interest rate.

For financial assets carried at cost, the amount of the impairment loss is measured as the difference between the asset's carrying amount and the present value of the estimated future cash flows discounted at the current market rate of return for a similar financial asset. Such impairment loss will not be reversed in subsequent periods.

The carrying amount of the financial asset is reduced by the impairment loss directly for all financial assets with the exception of trade receivables, where the carrying amount is reduced through the use of an allowance account. When a trade receivable is considered uncollectible, it is written off against the allowance account. Subsequent recoveries of

amounts previously written off are credited against the allowance account. Changes in the carrying amount of the allowance account are recognised in profit or loss.

When an available-for-sale financial asset is considered to be impaired, cumulative gains or losses previously recognised in other comprehensive income are reclassified to profit or loss in the period.

For financial assets measured at amortised cost, if, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment loss is reversed through profit or loss to the extent that the carrying amount of the investment at the date the impairment is reversed does not exceed what the amortised cost would have been had the impairment not been recognised.

In respect of available-for-sale equity securities, impairment losses previously recognised in profit or loss are not reversed through profit or loss. Any increase in fair value subsequent to an impairment loss is recognised in other comprehensive income and accumulated under the heading of investments revaluation reserve. In respect of available-for-sale debt securities, impairment losses are subsequently reversed through profit or loss if an increase in the fair value of the investment can be objectively related to an event occurring after the recognition of the impairment loss.

### ***Derecognition of financial assets***

The reporting unit derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. The difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognised in other comprehensive income and accumulated in equity is recognised in profit or loss.

## **1.17 Financial Liabilities**

Financial liabilities are classified as either financial liabilities 'at fair value through profit or loss' or other financial liabilities. Financial liabilities are recognised and derecognised upon 'trade date'.

### ***Fair value through profit or loss***

Financial liabilities are classified as at fair value through profit or loss when the financial liability is either held for trading or it is designated as at fair value through profit or loss.

A financial liability is classified as held for trading if:

- it has been acquired principally for the purpose of repurchasing it in the near term; or
- on initial recognition it is part of a portfolio of identified financial instruments that the reporting unit manages together and has a recent actual pattern of short-term profit-taking; or
- it is a derivative that is not designated and effective as a hedging instrument.

A financial liability other than a financial liability held for trading may be designated as at fair value through profit or loss upon initial recognition if:

- such designation eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise; or

- the financial liability forms part of a group of financial assets or financial liabilities or both, which is managed and its performance is evaluated on a fair value basis, in accordance with the reporting units documented risk management or investment strategy, and information about the grouping is provided internally on that basis; or
- it forms part of a contract containing one or more embedded derivatives, and AASB 139 'Financial Instruments: Recognition and Measurement' permits the entire combined contract (asset or liability) to be designated as at fair value through profit or loss.

Financial liabilities at fair value through profit or loss are stated at fair value, with any gains or losses arising on re-measurement recognised in profit or loss. The net gain or loss recognised in profit or loss incorporates any interest paid on the financial liability and is included in the 'other gains and losses' line item in the statement of comprehensive income.

### ***Other financial liabilities***

Other financial liabilities, including borrowings and trade and other payables, are initially measured at fair value, net of transaction costs.

Other financial liabilities are subsequently measured at amortised cost using the effective interest method, with interest expense recognised on an effective yield basis.

### ***Derecognition of financial liabilities***

The reporting unit derecognises financial liabilities when, and only when, the reporting units obligations are discharged, cancelled or they expire. The difference between the carrying amounts of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss.

## **1.18 Contingent Liabilities and Contingent Assets**

Contingent liabilities and contingent assets are not recognised in the Statement of Financial Position but are reported in the relevant notes. They may arise from uncertainty as to the existence of a liability or asset or represent an existing liability or asset in respect of which the amount cannot be reliably measured. Contingent assets are disclosed when settlement is probable but not virtually certain, and contingent liabilities are disclosed when settlement is greater than remote.

## **1.19 Land, Buildings, Plant and Equipment**

### ***Asset Recognition Threshold***

Purchases of land, buildings, plant and equipment are recognised initially at cost in the Statement of Financial Position. The initial cost of an asset includes an estimate of the cost of dismantling and removing the item and restoring the site on which it is located.

## **Revaluations—Land and Buildings**

Following initial recognition at cost, land and buildings are carried at fair value less subsequent accumulated depreciation and accumulated impairment losses. Revaluations are performed with sufficient frequency such that the carrying amount of assets do not differ materially from those that would be determined using fair values as at the reporting date.

Revaluation adjustments are made on a class basis. Any revaluation increment is credited to equity under the heading of asset revaluation reserve except to the extent that it reversed a previous revaluation decrement of the same asset class that was previously recognised in the surplus/deficit. Revaluation decrements for a class of assets are recognised directly in the profit or loss except to the extent that they reverse a previous revaluation increment for that class. Any accumulated depreciation as at the revaluation date is eliminated against the gross carrying amount of the asset and the asset is restated to the revalued amount.

### **Depreciation**

Depreciable property, plant and equipment assets are written-off to their estimated residual values over their estimated useful life using, in all cases, the straight line method of depreciation. Depreciation rates (useful lives), residual values and methods are reviewed at each reporting date and necessary adjustments are recognised in the current, or current and future reporting periods, as appropriate.

Depreciation rates applying to each class of depreciable asset are based on the following useful lives:

	<b>2017</b>	2016
Plant and equipment	<b>4 to 5 years</b>	4 to 5 years

### **Derecognition**

An item of land, buildings, plant and equipment is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognized in the profit and loss.

## **1.20 Investment property**

Investment properties are properties held to earn rentals and/or for capital appreciation (including property under construction for such purposes). Investment properties are measured initially at its cost, including transaction costs. Subsequent to initial recognition, investment properties are measured at fair value. Gains and losses arising from changes in the fair value of investment properties are included in profit and loss in the period in which they arise.

An investment property is derecognized upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from the disposal. Any gain or loss arising on derecognition of the property (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in profit or loss in the period in which the property is derecognized.

## **1.21 Intangibles**

Intangible assets with finite lives that are acquired separately are carried at cost less accumulated amortisation and accumulated impairment losses. Amortisation is recognised on a straight-line basis over their estimated useful life. The estimated useful lives and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis. Intangible assets with indefinite useful lives that are acquired separately are carried at cost less accumulated impairment losses.

### ***Derecognition***

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset are recognised in profit and loss when the asset is derecognised.

## **1.22 Impairment of non-financial assets**

All assets are assessed for impairment at the end of each reporting period to the extent that there is an impairment trigger. Where indications of impairment exist, the asset's recoverable amount is estimated and an impairment adjustment made if the asset's recoverable amount is less than its carrying amount.

The recoverable amount of an asset is the higher of its fair value less costs of disposal and its value in use. Value in use is the present value of the future cash flows expected to be derived from the asset. Where the future economic benefit of an asset is not primarily dependent on the asset's ability to generate future cash flows, and the asset would be replaced if the Independent Education Union of Australia were deprived of the asset, its value in use is taken to be its depreciated replacement cost.

## **1.23 Non-current assets held for sale**

Non-current assets are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use. This condition is regarded as met only when the sale is highly probable and the non-current asset is available for immediate sale in its present condition. Management must be committed to the sale, which should be expected to qualify for recognition as a completed sale within one year from the date of classification.

Non-current assets classified as held for sale are measured at the lower of their previous carrying amount and fair value less costs of disposal.

## 1.24 Taxation

Independent Education Union of Australia is exempt from income tax under section 50.1 of the Income Tax Assessment Act 1997 however still has obligation for Fringe Benefits Tax (FBT) and the Goods and Services Tax (GST).

Revenues, expenses and assets are recognised net of GST except:

- where the amount of GST incurred is not recoverable from the Australian Taxation Office; and
- for receivables and payables.

The net amount of GST recoverable from, or payable to, the taxation authority is included as part of receivables or payables.

Cash flows are included in the statement of cash flows on a gross basis. The GST component of cash flows arising from investing and financing activities which is recoverable from, or payable to, the Australian Taxation Office is classified within operating cash flows.

## 1.25 Fair value measurement

The Independent Education Union of Australia measures financial instruments, such as, financial asset as at fair value through the profit and loss, available for sale financial assets, and non-financial assets such as land and buildings and investment properties, at fair value at each balance sheet date. Also, fair values of financial instruments measured at amortised cost are disclosed in Note 16A.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Independent Education Union of Australia. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Independent Education Union of Australia uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1—Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2—Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3—Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Independent Education Union of Australia determines whether transfers have occurred between Levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

External valuers are involved for valuation of significant assets, such as land and buildings and investment properties. Selection criteria include market knowledge, reputation, independence and whether professional standards are maintained. For the purpose of fair value disclosures, the Independent Education Union of Australia has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy.

## **1.26 Going concern**

Notwithstanding the association's deficiency in net current assets, the Union is of the opinion that it will be able to continue to operate as a viable entity. The IEUA Federal Executive have undertaken to implement a course of action in 2018 in order to restore the Union's accumulated funds back to a surplus position. If required, the Union is able to enact Rule 7(d) and strike an additional levy on all IEUA state branches, to be able to accumulate additional funds to meet any shortfall.

## Note 2 Events after the reporting period

There were no events that occurred after 31 December 2017, and/or prior to the signing of the financial statements, that would affect the ongoing structure and financial activities of the Independent Education Union of Australia.

<b>Total anticipated inflows</b>	-	<b>373,366</b>	-	-	-	<b>373,366</b>

## Note 13F: Market Risk

### Interest rate risk

Reporting period whereby a future change in interest rates will affect future cash flows or the fair value of fixed assets. Such risk is managed through diversification of investments across asset classes.

## Note 14 Fair Value Measurement

### Note 14A: Financial Assets and Liabilities

Management of the Independent Education Union of Australia assessed that cash, trade receivables, trade payables, and other current liabilities approximate their carrying amounts largely due to the short term maturities of these instruments.

The fair value of financial assets and liabilities is included at the amount which the instrument could be exchanged in a current transaction between willing parties. The following methods and assumptions were used to estimate the fair values:

- Fair values of the reporting unit's interest-bearing borrowings and loans are determined by using a discounted cash flow method. The discount rate used reflects the issuer's borrowing rate as at the end of the reporting period. The own performance risk as at [year-end date] was assessed to be insignificant.
- Fair value of available-for-sale financial assets is derived from quoted market prices in active markets.
- Long-term fixed-rate and variable-rate receivables/borrowings are evaluated by the Group based on parameters such as interest rates and individual credit worthiness of the customer. Based on this evaluation, allowances are taken into account for the expected losses of these receivables. As at 31 December 2017, the carrying amounts of such receivables, net of allowances, were not materially different from their calculated fair values.

The following table contains the carrying amounts and related fair values for the Independent Education Union of Australia's financial assets and liabilities:

	<b>Carrying amount 2017 \$</b>	<b>Fair value 2017 \$</b>	<b>Carrying amount 2016 \$</b>	<b>Fair value 2016 \$</b>
<b>Financial Assets</b>				
Cash at bank	<b>309,954</b>	<b>309,954</b>	365,226	365, 226
Short term deposits				
Trade debtors and receivables	<b>2,415</b>	<b>2,415</b>	2,475	2,475
<b>Total</b>	<b>312,369</b>	<b>312,369</b>	367,701	367,701
<b>Financial Liabilities</b>				
Other payables	<b>28,899</b>	<b>28,899</b>	36,114	36,114
Trade creditors	<b>23,024</b>	<b>23,024</b>	32,304	32,304
<b>Total</b>	<b>51,923</b>	<b>51,923</b>	68,418	68,418

## Note 14B: Financial and Non-financial Assets and Liabilities Fair Value Hierarchy

The following tables provide an analysis of financial and non-financial assets and liabilities that are measured at fair value, by fair value hierarchy.

### Fair value hierarchy – 31 December 2017

Date of valuation	Level 1	Level 2	Level 3
<b>Assets measured at fair value</b>	<b>\$</b>	<b>\$</b>	<b>\$</b>
Financial assets	-	309,954	-
<b>Total</b>	-	<b>309,954</b>	-

### Liabilities measured at fair value

Financial liabilities	-	51,923	-
<b>Total</b>	-	<b>51,923</b>	-

### Fair value hierarchy – 31 December 2016

Date of valuation	Level 1	Level 2	Level 3
<b>Assets measured at fair value</b>	<b>\$</b>	<b>\$</b>	<b>\$</b>
Financial assets	-	365,226	-
<b>Total</b>	-	<b>365,226</b>	-

### Liabilities measured at fair value

Payables	-	68,418	-
<b>Total</b>	-	<b>68,418</b>	-

- (1) Quoted prices in active markets identical assets or liabilities (level 1);
- (2) Inputs other than quoted prices included within level 1 that are observable for the asset or liability, wither directly (as prices) or indirectly (derived from prices) (level 2);
- (3) Inputs for asset or liability that are not based on observable market data (unobservable inputs) (level 3)

**Note 15      Section 272 Fair Work (Registered Organisations) Act 2009**

In accordance with the requirements of the *Fair Work (Registered Organisations) Act 2009*, the attention of members is drawn to the provisions of subsections (1) to (3) of section 272, which reads as follows:

Information to be provided to members or Commissioner:

- (1) A member of a reporting unit, or the Commissioner, may apply to the reporting unit for specified prescribed information in relation to the reporting unit to be made available to the person making the application.
- (2) The application must be in writing and must specify the period within which, and the manner in which, the information is to be made available. The period must not be less than 14 days after the application is given to the reporting unit.
- (3) A reporting unit must comply with an application made under subsection (1).
