

20 December 2018

Ms Graciete Ferreira President Master Builders Association of the Australian Capital Territory

By e-mail: canberra@mba.org.au

Dear Ms Ferreira

Master Builders Association of the Australian Capital Territory Financial Report for the year ended 30 June 2018 - FR2018/177

I acknowledge receipt of the financial report for the year ended 30 June 2018 for the Master Builders Association of the Australian Capital Territory. The financial report was lodged with the Registered Organisations Commission (ROC) on 20 December 2018.

The financial report has now been filed. You are not required to take any further action in respect of the report lodged.

Should you wish to discuss the matters raised in this letter, or if you require further information on the financial reporting requirements of the Act, I may be contacted on (03) 9603 0707 or by email at ken.morgan@roc.gov.au

Yours faithfully

KEN MORGAN

Financial Reporting Specialist

Registered Organisations Commission

MASTER BUILDERS ASSOCIATION OF THE ACT

s. 268 Fair Work (Registered Organisations) Act 2009

CERTIFICATE BY PRESCRIBED DESIGNATED OFFICER¹

Certificate of the year ended 30 June 2018

I, GRACIETE FERREIRA, being the PRESIDENT of the MASTER BUILDERS ASSOCIATION OF THE ACT certify:

- That the documents lodged herewith are copies of the full report for the Master Builders Association of the ACT for the period ended referred to in s. 268 of the Fair Work (Registered Organisations) Act 2009; and
- That the full report was provided to the Executive Committee (being the Committee of Management) on 18 December 2018; and
- That the full report is now accessible to all members on the Master Builders ACT website (www.mba.org.au).

Signature of prescribed designated officer:

Name of prescribed designated officer: GRACIETE FERRERIRA

Title of prescribed designated officer:

PRESIDENT

Dated: <u>20.12.18</u>

¹ Regulation 162 of the Fair Work (Registered Organisations) Regulations 2009 defines a 'prescribed designated officer' of a reporting unit of the purposes of s.268(c) as:

the secretary; or (a)

an officer of the organisation other than the secretary who is authorised by the organisation or by the rules of the organisation to sign the certificate mentioned in that paragraph.

Ms Gracie Ferreira

Dated: 17 December 2018

Operating report

For the year ended 30 June 2018

Your Members of the Council of Management present their report on the Master Builders Association of the ACT (the "Parent") and its controlled entity (collectively the "Association") for the financial year ended 30 June 2018.

Members of the council of management

The names of the Members of the Council of Management during the year and to the date of this report are:

Ms Graciete Ferreira (President)

Mr Frank Porreca (Treasurer)

Ms Rosa Josifoski

Mr Marc Roland

Mr Stephen Wise

Mr Brian Leeming

Mr Richard Corver

Mr Peter Middleton

Mr Martin Boyd

Mr Simon Butt

Mr Gerard Allen

Mr Jack Harris

Mr Rod Mitton

Ms Anisha Sachdeva Mr Matthew Rayment Appointed 31 February 2018

Resigned 20 February 2018

Appointed 21 August 2017

Members of the Council of Management have been in Council since the start of the financial year to the date of this report unless otherwise stated.

Rights of members to resign

As required to be disclosed by the Fair Work (Registered Organisations) Act 2009, and in accordance with Rule 8 of the Association's rule a member may resign from the Association by written notice addressed and delivered to a person designated for the purpose in the rules of Association.

Trustee or director of trustee company of superannuation entity or exempt public sector superannuation scheme - S254(2)(d)

No officer, or member of the reporting unit, to the best of our knowledge, holds a position as a trustee or director of a superannuation entity or exempt public sector superannuation scheme where the criterion for holding such position is that they are an officer or member of an organisation.

Review of operations

The consolidated profit of the Association amounted to \$176 845 (2017: loss of \$868,619). The loss of the parent entity amounted to \$70,935 (2017: loss of \$683,011).

A review of operations of the Association and its controlled entity during the financial year noted that the following were contributing factor to the financial performance:

- Higher than anticipated revenues from short course training.
- · Lower than anticipated salary and related costs due to a restructure of the Association.

Principal activities - s254(2)(9a)

The principal activities of the Association are to promote, protect and advance the interest of its members engaged in any manner of the construction and building industry within the ACT and its surrounding region by being a representative body for the building and construction industry.

Operating report (continued)

For the year ended 30 June 2018

The Association provides professional services, information and advice including industrial relations advice, dispute resolution, training (including, but not limited to, business, apprentice and workplace health and safety), changes to acts and legislation, changes to awards rates and work practices to members of the Association throughout Australian Capital Territory.

Principal activities - s254(2)(9a) (continued)

The Association also represents its members at all levels of Government and holds events and seminars throughout the year to engage and support its membership to connect and network.

The controlled entity of the Association, MBA Group Training Limited, engages in Registered Training Organisation (RTO) and Group Training Organisation (GTO) activities including hiring, placing and training of apprentices. The education and training of apprentices is essential in the continued growth, development and success of the construction and building industry in the ACT through educating the future trades people in the ACT and the surrounding region.

MBA Group Training Limited also undertakes short course training for the wider building industry to train and maintain skills for the broader community which engages with the construction and building industry in the ACT.

Results of principal activities

The Association has expanded short course training this year, including workplace health and safety (WH&S) and asbestos training. The Association continues to undertake all aspects of the services listed above.

Significant changes in the state of financial affairs - s254(2)(b)

Apart from the changes listed in the review of operations, no significant changes in the Association's state of financial affairs occurred during the financial year.

Significant changes in nature of principal activities - s254(2)(a)

There were no significant changes in the nature of the Association's principal activities during the financial year.

Significant events after the reporting period

At the time of signing this report, no matter or circumstances have arisen since the end of the financial year which significantly affected or may significantly affect the operations of the Association, the results of those operations, or the state of affairs of the Association in future financial years.

Likely developments and expected results of operations

The Association expects to maintain the present status and level of operations. Likely developments in the operations of the Association and the expected results of those operations in future financial years have not been included in this report as the inclusion of such information is likely to result in unreasonable prejudice to the Association.

Environmental regulation

The Association's operations are not regulated by any significant environmental regulation under a law of the Commonwealth or of a state or territory.

Number of members

The number of persons who, at the end of the financial year were recorded on the Register of Members was 1,100 (2017: 1,115).

Operating report

For the year ended 30 June 2018

Number of employees

The number of persons who were, at the end of the financial year employees of the Association was 18 (2017:15), measured on a fill equivalent basis.

Mr Frank Porreca

Signed in accordance with a resolution of the Members of the Council of Management.

Ms Gracie Ferreira

Dated: 17 December 2018

Statement by Members of the Council of Management

On the 17 September 2018, the Members of the Council of Management of the Master Builders Association of the ACT passed the following resolution in relation to the General Purpose Financial Report (GPFR) for the year ended 30 June 2018:

We, G Ferreira and F Porreca being two members of the Council of Management of the Master Builders Association of the ACT, do state on behalf of the Council that in the opinion of the Council:

- The financial statements and notes comply with the Australian Accounting Standards, mandatory professional reporting requirements and other authoritative pronouncement of the Australian Accounting Standard Board;
- 2) The financial statements and notes comply with any other requirements imposed by the Reporting Guidelines or Part 3 of Chapter 8 of the Fair Work (Registered Organisations) Act 2009 (the RO Act);
- 3) The financial statements and notes give a true and fair value of the financial performance, financial position and cash flows of the Association and its controlled entity for the financial year to which they relate;
- 4) There are reasonable grounds to believe that the Association will be able to pay its debts as and when they fall due; and
- 5) During the financial year to which the financial report relates and since the end of that year:
 - (i) Meetings of the Council were held in accordance with rules of the organisation including the rules of the branch concerned;
 - (ii) The financial affairs of the Association have been managed in accordance with rules of the organisation including the rules of the branch concerned;
 - (iii) The financial records of the Association have been kept and maintained in accordance with the Fair Work (Registered Organisations) Act 2009;
 - (iv) Where the organisation consists of two or more reporting units, the financial records of the reporting unit have been kept, as far as practicable, in a consistent manner with each of the other reporting units of the organisation;
 - (v) Where information has been sought in any request of a member of the Association or a Commissioner duly made under the Fair Work (Registered Organisations) Act 2009 has been furnished to the member or Commissioner; and
 - (vi) There has been compliance with any order for inspection of financial records made by the Fair Work Commission under Fair Work (Registered Organisations) Act 2009.

Mr/Frank Porreca

Signed in accordance with a resolution of the Members of the Council of Management.

Ms Gracie Ferreira

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF

MASTER BUILDERS ASSOCIATION OF THE ACT

Opinion

I have audited the financial report of Master Builders Association of the ACT and its subsidiary (the Group) which comprises the consolidated statement of financial position as at 30 June 2018, the consolidated statement of comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year ended 30 June 2018, notes to the financial statements, including a summary of significant accounting policies; and the Council of Management Statement, the subsection 255(2A) report and the Officer Declaration Statement.

In my opinion, the accompanying financial report presents fairly, in all material aspects, the financial position of Master Builders Association as at 30 June 2018, and its financial performance and its cash flows for the year ended on that date in accordance with:

- a) the Australian Accounting Standards; and
- b) any other requirements imposed by the Reporting Guidelines or Part 3 of Chapter 8 of the Fair Work (Registered Organisations) Act 2009 (the RO Act).

I declare that management's use of the going concern basis in the preparation of the financial statements of the Reporting Unit is appropriate.

Basis for Opinion

I conducted my audit in accordance with Australian Auditing Standards. My responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of my report. I am independent of the Reporting Unit in accordance with the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants* (the Code) that are relevant to my audit of the financial report in Australia. I have also fulfilled my other ethical responsibilities in accordance with the Code.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Information Other than the Financial Report and Auditor's Report Thereon

The Council of Management is responsible for the other information. The other information obtained at the date of this auditor's report is in the Operating Report accompanying the financial report.

My opinion on the financial report does not cover the other information and accordingly I do not express any form of assurance conclusion thereon.

THE POWER OF BEING UNDERSTOOD

AUDIT | TAX | CONSULTING

RSM Australia Pty Ltd is a member of the RSM network and trades as RSM. RSM is the trading name used by the members of the RSM network. Each member of the RSM network is an independent accounting and consulting firm which practices in its own right. The RSM network is not itself a separate legal entity in any jurisdiction.

In connection with my audit of the financial report, my responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or my knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work I have performed, I conclude that there is a material misstatement of this other information, I am required to report that fact. I have nothing to report in this regard.

Responsibilities of Council of Management for the Financial Report

The Council of Management of the Reporting Unit is responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the RO Act, and for such internal control as the Council of Management determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the Council of Management is responsible for assessing the Reporting Unit's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Council of Management either intend to liquidate the Reporting Unit or to cease operations, or have no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Report

My objective is to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial report.

As part of an audit in accordance with the Australian Auditing Standards, I exercise professional judgement and maintain professional scepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Reporting Unit's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Committee of Management.
- Conclude on the appropriateness of the Council of Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Reporting Unit's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my auditor's report. However, future events or conditions may cause the Reporting Unit to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and
 whether the financial report represents the underlying transactions and events in a manner that achieves fair
 presentation.

Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business
activities within the Reporting Unit to express an opinion on the financial report. I am responsible for the
direction, supervision and performance of the Reporting Unit audit. I remain solely responsible for my audit
opinion.

I communicate with the Council of Management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

I declare that I am an approved auditor, a member of Chartered Accountants Australia and New Zealand and hold a current Public Practice Certificate.

RSM Australia Pty Ltd

General information

The consolidated financial statements cover the Master Builders Association of the ACT (the "parent") and its Controlled Entity (MBA Group Training Limited), collectively the "Association", and the separate financial statements cover the Master Builders Association of the ACT as an individual parent entity.

The nature of the operations and principal activities of the Association are described in the operating report.

Note 1. Significant accounting policies

Basis of preparation of the financial statements

The financial statements are general purpose financial statements and have been prepared in accordance with Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board (AASB) that apply for the reporting period, and the Fair Work (Registered Organisation) Act 2009. For the purpose of preparing the general purpose financial statements, the Association is a not-for-profit entity.

The financial statements have been prepared on an accrual basis and in accordance with the historical cost, except for certain assets and liabilities measured at fair value, as explained in the accounting policies below. Historical cost is generally based on the fair values of the consideration given in exchange for assets. Except where stated, no allowance is made for the effect of changing prices on the results or the financial position. The financial statements are presented in Australian dollars.

Comparative amounts

When required by Accounting Standards, comparative figures have been adjusted to conform to changes in presentation for the current financial year.

The financial statements for the reporting year ended 30 June 2017 were audited by other independent auditor whose report dated 18 September 2017 expressed an unmodified opinion on those financial statements.

New or amended Accounting Standards and Interpretations adopted

The Association has adopted all of the new or amended Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') that are mandatory for the current reporting period.

Any new or amended Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

Principles of consolidation

The consolidated financial statements incorporate the assets and liabilities of all subsidiaries of Master Builders Association of the ACT as at 30 June 2018 and the results of a subsidiary for the year then ended.

Subsidiaries are all those entities over which the Association has control. The Association controls an entity when the Association is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Association. They are de-consolidated from the date that control ceases.

Intercompany transactions, balances and unrealised gains on transactions between entities in the Association are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of the impairment of the asset transferred. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Association.

Where the Association loses control over a subsidiary, it derecognises the assets including goodwill, liabilities and non-controlling interest in the subsidiary together with any cumulative translation differences recognised in equity. The Association recognises the fair value of the consideration received and the fair value of any investment retained together with any gain or loss in profit or loss.

Note 1. Significant accounting policies (continued)

Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable.

Revenue from subscriptions is accounted for on an accrual basis and is recorded as revenue in the year to which it relates.

Revenue from the sale of goods is recognised when, the risks and rewards of ownership have been transferred to the buyer, the Association retains no managerial involvement or effective control over the goods, the revenue and transaction costs incurred can be reliably measured, and it is probable that the economic benefits associated with the transaction will flow to the Association.

Donation income is recognised when it is received.

Interest revenue is recognised on an accrual basis using the effective interest method.

Rental revenue from operating leases is recognised on a straight-line basis over the term of the relevant lease.

Income tax

The Association is exempt from income tax under Section 50-15 of the Income Tax Assessment Act 1997, however still has obligation for Fringe Benefits Tax (FBT) and the Goods and Services Tax (GST).

Revenues, expenses and assets are recognised net of GST except:

- where the amount of GST incurred is not recoverable from the Australian Taxation Office; and
- for receivables and payables.

The net amount of GST recoverable from, or payable to, the taxation authority is included as part of receivables or payables.

Cash flows are included in the statement of cash flows on a gross basis. The GST component of cash flows arising from investing and financing activities which is recoverable from, or payable to, the Australian Taxation Office is classified within operating cash flows.

Current and non-current classification

Assets and liabilities are presented in the statement of financial position based on current and non-current classification.

An asset is classified as current when: it is either expected to be realised or intended to be sold or consumed in the Association's normal operating cycle; it is held primarily for the purpose of trading; it is expected to be realised within 12 months after the reporting period; or the asset is cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least 12 months after the reporting period. All other assets are classified as non-current

A liability is classified as current when: it is either expected to be settled in the Association's normal operating cycle; it is held primarily for the purpose of trading; it is due to be settled within 12 months after the reporting period; or there is no unconditional right to defer the settlement of the liability for at least 12 months after the reporting period. All other liabilities are classified as non-current.

Cash and cash equivalents

Cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

Note 1. Significant accounting policies (continued)

Trade and other receivables

Trade and other receivables are recognised at amortised cost, less any provision for impairment.

Collectability of trade receivables is reviewed on an ongoing basis. Debts which are known to be uncollectable are written off by reducing the carrying amount directly. A provision for impairment of trade receivables is raised when there is objective evidence that the Association will not be able to collect all amounts due according to the original terms of the receivables. Significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy or financial reorganisation and default or delinquency in payments are considered indicators that the trade receivable may be impaired. The amount of the impairment allowance is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the original effective interest rate. Cash flows relating to short-term receivables are not discounted if the effect of discounting is immaterial.

Other receivables are recognised at amortised cost, less any provision for impairment.

Investments and other financial assets

Investments and other financial assets are initially measured at fair value. Transaction costs are included as part of the initial measurement, except for financial assets at fair value through profit or loss. They are subsequently measured at either amortised cost or fair value depending on their classification. Classification is determined based on the purpose of the acquisition and subsequent reclassification to other categories is restricted.

Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred and the Association has transferred substantially all the risks and rewards of ownership.

Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss are either: (i) held for trading, where they are acquired for the purpose of selling in the short-term with an intention of making a profit; or (ii) designated as such upon initial recognition, where they are managed on a fair value basis or to eliminate or significantly reduce an accounting mismatch. Except for effective hedging instruments, derivatives are also categorised as fair value through profit or loss. Fair value movements are recognised in profit or loss.

Impairment of financial assets

The Association assesses at the end of each reporting period whether there is any objective evidence that a financial asset or group of financial assets is impaired. Objective evidence includes significant financial difficulty of the issuer or obligor; a breach of contract such as default or delinquency in payments; the lender granting to a borrower concession due to economic or legal reasons that the lender would not otherwise do; it becomes probable that the borrower will enter bankruptcy or other financial reorganisation; the disappearance of an active market for the financial asset; or observable data indicating that there is a measurable decrease in estimated future cash flows.

The amount of the impairment allowance for financial assets carried at cost is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the current market rate of return for similar financial assets.

Investments and other financial assets

Available-for-sale financial assets are considered impaired when there has been a significant or prolonged decline in value below initial cost. Subsequent increments in value are recognised in other comprehensive income through the available for-sale reserve.

Note 1. Significant accounting policies (continued)

Property, plant and equipment

Land and buildings are shown at fair value, based on periodic, at least every 3 years, valuations by external independent valuers, less subsequent depreciation and impairment for buildings. The valuations are undertaken more frequently if there is a material change in the fair value relative to the carrying amount. Any accumulated depreciation at the date of revaluation is eliminated against the gross carrying amount of the asset and the net amount is restated to the revalued amount of the asset. Increases in the carrying amounts arising on revaluation of land and buildings are credited in other comprehensive income through to the revaluation surplus reserve in equity. Any revaluation decrements are initially taken in other comprehensive income through to the revaluation surplus reserve to the extent of any previous revaluation surplus of the same asset. Thereafter the decrements are taken to profit or loss.

Plant and equipment is stated at historical cost less accumulated depreciation and impairment. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Depreciation is calculated on a straight-line basis to write off the net cost of each item of property, plant and equipment (excluding land) over their expected useful lives as follows:

Land and building Motor vehicles Plant and equipment 2.5% 6.7% to 33% 22.5%

The residual values, useful lives and depreciation methods are reviewed, and adjusted if appropriate, at each reporting date.

Leasehold improvements and plant and equipment under lease are depreciated over the unexpired period of the lease or the estimated useful life of the assets, whichever is shorter.

An item of property, plant and equipment is derecognised upon disposal or when there is no future economic benefit to the Association. Gains and losses between the carrying amount and the disposal proceeds are taken to profit or loss. Any revaluation surplus reserve relating to the item disposed of is transferred directly to retained profits.

Leases

The determination of whether an arrangement is or contains a lease is based on the substance of the arrangement and requires an assessment of whether the fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset.

A distinction is made between finance leases, which effectively transfer from the lessor to the lessee substantially all the risks and benefits incidental to the ownership of leased assets, and operating leases, under which the lessor effectively retains substantially all such risks and benefits.

Finance leases are capitalised. A lease asset and liability are established at the fair value of the leased assets, or if lower, the present value of minimum lease payments. Lease payments are allocated between the principal component of the lease liability and the finance costs, so as to achieve a constant rate of interest on the remaining balance of the liability.

Leased assets acquired under a finance lease are depreciated over the asset's useful life or over the shorter of the asset's useful life and the lease term if there is no reasonable certainty that the Association will obtain ownership at the end of the lease term.

Operating lease payments, net of any incentives received from the lessor, are charged to profit or loss on a straight-line basis over the term of the lease.

Note 1. Significant accounting policies (continued)

Intangible assets

Intangible assets acquired as part of a business combination, other than goodwill, are initially measured at their fair value at the date of the acquisition. Intangible assets acquired separately are initially recognised at cost. Indefinite life intangible assets are not amortised and are subsequently measured at cost less any impairment. Finite life intangible assets are subsequently measured at cost less amortisation and any impairment. The gains or losses recognised in profit or loss arising from the derecognition of intangible assets are measured as the difference between net disposal proceeds and the carrying amount of the intangible asset. The method and useful lives of finite life intangible assets are reviewed annually. Changes in the expected pattern of consumption or useful life are accounted for prospectively by changing the amortisation method or period.

Software

Significant costs associated with software are deferred and amortised on a straight-line basis over the period of their expected benefit, being their finite life of 3 years.

Trade and other payables

These amounts represent liabilities for goods and services provided to the Association prior to the end of the financial year and which are unpaid. Due to their short-term nature they are measured at amortised cost and are not discounted. The amounts are unsecured and are usually paid within 30 days of recognition.

Employee benefits

Short-term employee benefits

Liabilities for wages and salaries, including non-monetary benefits, annual leave, long service leave and rostered days off (RDO) expected to be settled wholly within 12 months of the reporting date are measured at the amounts expected to be paid when the liabilities are settled.

Other long-term employee benefits

The liability for annual leave and long service leave not expected to be settled within 12 months of the reporting date are measured at the present value of expected future payments to be made in respect of services provided by employees up to the reporting date using the projected unit credit method. Consideration is given to expected future wage and salary levels, experience of employee departures and periods of service. Expected future payments are discounted using market yields at the reporting date on national government bonds with terms to maturity and currency that match, as closely as possible, the estimated future cash outflows.

Fair value measurement

When an asset or liability, financial or non-financial, is measured at fair value for recognition or disclosure purposes, the fair value is based on the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date; and assumes that the transaction will take place either: in the principal market; or in the absence of a principal market, in the most advantageous market.

Fair value is measured using the assumptions that market participants would use when pricing the asset or liability, assuming they act in their economic best interests. For non-financial assets, the fair value measurement is based on its highest and best use. Valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, are used, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

Note 1. Significant accounting policies (continued)

Fair value measurement (continued)

Assets and liabilities measured at fair value are classified, into three levels, using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. Classifications are reviewed at each reporting date and transfers between levels are determined based on a reassessment of the lowest level of input that is significant to the fair value measurement.

For recurring and non-recurring fair value measurements, external valuers may be used when internal expertise is either not available or when the valuation is deemed to be significant. External valuers are selected based on market knowledge and reputation. Where there is a significant change in fair value of an asset or liability from one period to another, an analysis is undertaken, which includes a verification of the major inputs applied in the latest valuation and a comparison, where applicable, with external sources of data.

Going concern

The Association is not reliant on the agreed financial support of another reporting unit to continue as a going concern basis.

The Association has not agreed to provide financial support to another reporting unit to ensure they can continue as a going concern basis.

New Accounting Standards and Interpretations not yet mandatory or early adopted

Australian Accounting Standards and Interpretations that have recently been issued or amended but are not yet mandatory, have not been early adopted by the Association for the annual reporting period ended 30 June 2018. The Association's assessment of the impact of these new or amended Accounting Standards and Interpretations, most relevant to the Association, are set out below.

AASB 9 Financial Instruments

This standard is applicable to annual reporting periods beginning on or after 1 January 2018. The standard replaces all previous versions of AASB 9 and completes the project to replace IAS 39 'Financial Instruments: Recognition and Measurement'. AASB 9 introduces new classification and measurement models for financial assets. A financial asset shall be measured at amortised cost, if it is held within a business model whose objective is to hold assets in order to collect contractual cash flows, which arise on specified dates and solely principal and interest. All other financial instrument assets are to be classified and measured at fair value through profit or loss unless the Association makes an irrevocable election on initial recognition to present gains and losses on equity instruments (that are not held-for-trading) in other comprehensive income ('OCI'). For financial liabilities, the standard requires the portion of the change in fair value that relates to the Association's own credit risk to be presented in OCI (unless it would create an accounting mismatch). New simpler hedge accounting requirements are intended to more closely align the accounting treatment with the risk management activities of the Association. New impairment requirements will use an 'expected credit loss' ('ECL') model to recognise an allowance. Impairment will be measured under a 12-month ECL method unless the credit risk on a financial instrument has increased significantly since initial recognition in which case the lifetime ECL method is adopted. The standard introduces additional new disclosures. The Association will adopt this standard from 1 July 2018 and the impact of its adoption is expected to be minimal on the Association.

AASB 15 Revenue from Contracts with Customers

This standard is applicable to annual reporting periods beginning on or after 1 January 2018. The standard provides a single standard for revenue recognition. The core principle of the standard is that an Association will recognise revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the Association expects to be entitled in exchange for those goods or services.

Note 1. Significant accounting policies (continued)

New Accounting Standards and Interpretations not yet mandatory or early adopted (continued)

The standard will require: contracts (either written, verbal or implied) to be identified, together with the separate performance obligations within the contract; determine the transaction price, adjusted for the time value of money excluding credit risk; allocation of the transaction price to the separate performance obligations on a basis of relative stand-alone selling price of each distinct good or service, or estimation approach if no distinct observable prices exist; and recognition of revenue when each performance obligation is satisfied. Credit risk will be presented separately as an expense rather than adjusted to revenue. For goods, the performance obligation would be satisfied when the customer obtains control of the goods. For services, the performance obligation is satisfied when the service has been provided, typically for promises to transfer services to customers. For performance obligations satisfied over time, an Association would select an appropriate measure of progress to determine how much revenue should be recognised as the performance obligation is satisfied. Contracts with customers will be presented in an Association's statement of financial position as a contract liability, a contract asset, or a receivable, depending on the relationship between the Association's performance and the customer's payment. Sufficient quantitative and qualitative disclosure is required to enable users to understand the contracts with customers; the significant judgments made in applying the guidance to those contracts; and any assets recognised from the costs to obtain or fulfil a contract with a customer. The Association will adopt this standard from 1 July 2018 and the impact of its adoption is expected to be minimal on the Association.

AASB 16 Leases

This standard is applicable to annual reporting periods beginning on or after 1 January 2019. The standard replaces AASB 117 'Leases' and for lessees will eliminate the classifications of operating leases and finance leases. Subject to exceptions, a 'right-of-use' asset will be capitalised in the statement of financial position, measured at the present value of the unavoidable future lease payments to be made over the lease term. The exceptions relate to short-term leases of 12 months or less and leases of low-value assets (such as personal computers and small office furniture) where an accounting policy choice exists whereby either a 'right-of-use' asset is recognised or lease payments are expensed to profit or loss as incurred. A liability corresponding to the capitalised lease will also be recognised, adjusted for lease prepayments, lease incentives received, initial direct costs incurred and an estimate of any future restoration, removal or dismantling costs. Straight-line operating lease expense recognition will be replaced with a depreciation charge for the leased asset (included in operating costs) and an interest expense on the recognised lease liability (included in finance costs). In the earlier periods of the lease, the expenses associated with the lease under AASB 16 will be higher when compared to lease expenses under AASB 117. However EBITDA (Earnings Before Interest, Tax, Depreciation and Amortisation) results will be improved as the operating expense is replaced by interest expense and depreciation in profit or loss under AASB 16. For classification within the statement of cash flows, the lease payments will be separated into both a principal (financing activities) and interest (either operating or financing activities) component. For lessor accounting, the standard does not substantially change how a lessor accounts for leases. The Association will adopt this standard from 1 July 2019, but the impact of its adoption is yet to be assessed by the Association.

Note 2. Critical accounting judgements, estimates and assumptions

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts in the financial statements. Management continually evaluates its judgements and estimates in relation to assets, liabilities, contingent liabilities, revenue and expenses. Management bases its judgements, estimates and assumptions on historical experience and on other various factors, including expectations of future events, management believes to be reasonable under the circumstances. The resulting accounting judgements and estimates will seldom equal the related actual results. The judgements, estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities (refer to the respective notes) within the next financial year are discussed below.

Note 2. Critical accounting judgements, estimates and assumptions (continued)

Provision for impairment of receivables

The provision for impairment of receivables assessment requires a degree of estimation and judgement. The level of provision is assessed by taking into account the recent sales experience, the ageing of receivables, historical collection rates and specific knowledge of the individual debtor's financial position.

Fair value measurement hierarchy

The Association is required to classify all assets and liabilities, measured at fair value, using a three level hierarchy, based on the lowest level of input that is significant to the entire fair value measurement, being: Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the Association can access at the measurement date; Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly; and Level 3: Unobservable inputs for the asset or liability. Considerable judgement is required to determine what is significant to fair value and therefore which category the asset or liability is placed in can be subjective.

The fair value of assets and liabilities classified as level 3 is determined by the use of valuation models. These include discounted cash flow analysis or the use of observable inputs that require significant adjustments based on unobservable inputs.

Estimation of useful lives of assets

The Association determines the estimated useful lives and related depreciation and amortisation charges for its property, plant and equipment and finite life intangible assets. The useful lives could change significantly as a result of technical innovations or some other event. The depreciation and amortisation charge will increase where the useful lives are less than previously estimated lives, or technically obsolete or non-strategic assets that have been abandoned or sold will be written off or written down.

Employee benefits provision

As discussed in note 1, the liability for employee benefits expected to be settled more than 12 months from the reporting date are recognised and measured at the present value of the estimated future cash flows to be made in respect of all employees at the reporting date. In determining the present value of the liability, estimates of attrition rates and pay increases through promotion and inflation have been taken into account.

Financial risk management objectives

The main risk arising from the Association's financial instruments is the liquidity risk.

The Association manages its exposure to the liquidity risk in accordance with the Association's policies. The objective of the policy is to support the delivery of the Association's services whilst protecting financial security. The liquidity risk is mainly monitored through the development of cash flow forecasts and maintaining adequate cash reserves.

Market risk

Foreign currency risk

The Association is not exposed to any foreign currency risk. The Association does not have any foreign currency dealings or transactions.

Price risk

The Association is not exposed to any significant price risk. The Association's revenue and expenses are not significantly impacted by market prices.

Note 18. Financial instruments (continued)

Market risk (continued)

Interest rate risk

The Association is not exposed to any significant interest rate risk. The Association has very limited exposure to interest rate risk as there is no debt with interest component.

Sensitivity analysis of the risk that the entity is exposed to for 2018

		Change in	Effect	on
	Risk variable	risk variable %	Profit and loss	Equity
			\$	\$
Interest rate risk	\$52,500	+1%	525	525
Interest rate risk	\$52,500	-1%	(525)	(525)

Sensitivity analysis of the risk that the entity is exposed to for 2017

			Change in	Effect	on
*		Risk variable	risk variable [*]	Profit and loss	Equity
F. (7 1 2 - 1)	.*	CO7.040	.40/	Φ 070	P
Interest rate risk		\$67,949	+1%	679	679
Interest rate risk		\$67,949	-1%	(679)	(679)

Credit risk

The Association is not exposed to any significant credit risk. Credit risk is managed through close management of all debtors. Historically, the Association has had very few issues with the collection of debts.

Liquidity risk

Vigilant liquidity risk management required the Association to maintain sufficient liquid assets (mainly cash and cash equivalents) to be able to pay debts as and when they become due and payable.

The Association manages liquidity risk by maintaining adequate cash reserves by continuously monitoring actual and forecast cash flows and matching maturity profiles of financial assets and liabilities.

Note 19. Fair value measurement

Fair value hierarchy

The following tables detail the Association's asset and liabilities, measured or disclosed at fair value, using a three-level hierarchy, based on the lowest level of input that is significant to the entire fair value measurement, being:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date

Level 2: Inputs other than quoted prices include within Level 1 that are observable for the asset or liability, either directly or indirectly

Level 3: Unobservable inputs for the asset or liability

	Level 1 \$	Level 2 \$	Level 3 \$	Total \$
Consolidated - 2018				
Assets				
Land and buildings	_	_	8,417,641	8,417,641

There have been no transfers between levels during the year.

Note 19. Fair value measurement (continued)

The Association's assets are stated at their revalued amounts, being the fair value at the date of revaluation, less any subsequent accumulated depreciation.

Further information is set out below.

Land (Level 3)

The land was last revalued on 30 June 2015. The fair value of the land was determined using the sales comparison approach. The key inputs under this approach are the price per square metre from sales of comparable land in the area. Professional judgment of the value is used to determine the comparability of sales overdue which is unbearable.

Buildings (Level 3)

The buildings were last revalued on 30 June 2015. The fair value of the buildings was determined using the depreciated replacement cost approach. The subject asset is considered to represent a specialised, purpose-built facility, for which there is no active market, or a very limited market. The key input under this approach is the estimated gross current replacement cost which is based on the expected useful lives and any adjustment for deterioration and obsolescence.

Note 20. Section 272 Fair Work (Registered Organisations) Act 2009

In accordance with the requirements of the Fair Work (Registered Organisations) Act 2009, the attention of members is drawn to the provisions of subsections (1) to (3) of section 272, which reads as follows:

Information to be provided to members or Commissioner:

- (1) A member of a reporting unit, or the Commissioner, may apply to the reporting unit for specified prescribed information in relation to the reporting unit to be made available to the person making the application.
- (2) The application must be in writing and must specify the period within which, and the manner in which, the information is to be made available. The period must not be less than 14 days after the application is given to the reporting unit.
- (3) A reporting unit must comply with an application made under subsection (1).

Master Builders Association of the ACT and its Controlled Entity OFFICER DECLARATION STATEMENT

- acquire an asset or liability due to an amalgamation under Part 2 of Chapter 3 of the RO Act, a restructure of the branches of an organisation, a determination or revocation by the Commissioner, Fair Work Commission
- pay any other expense to another reporting unit
- incur expenses due to holding a meeting as required under the rules of the organisation
- pay a penalty imposed under the RO Act or the Fair Work Act 2009
- · have a balance within the general fund
- have another entity administer the financial affairs of the reporting unit
- make a payment to a former related party of the reporting unit

Signed by the officer:

20 November 2018

Ms Graciete Ferreira President Master Builders Association of the Australian Capital Territory

By e-mail: canberra@mba.org.au

Dear Ms Ferreira

Master Builders Association of the Australian Capital Territory Financial Report for the year ended 30 June 2018 - FR2018/177

I acknowledge receipt of the financial report for the year ended 30 June 2018 for the Master Builders Association of the Australian Capital Territory (MBA-ACT). The financial report was lodged with the Registered Organisations Commission (ROC) on 19 October 2018.

The financial report has not been filed. I have examined the report and identified a number of matters, the details of which are set out below, that you are required to address before the report can be filed.

The committee of management statement, general purpose financial report (GPFR) and officer declaration statement will require amendments. The amended reports will need to be provided to members, presented to a committee of management meeting, republished on the MBA-ACT website and lodged with the ROC.

The matters identified should be read in conjunction with the Fair Work (Registered Organisations) Act 2009 (the RO Act), Fair Work (Registered Organisations) Regulations 2009 (the RO Regs), the 5th edition of the Reporting Guidelines (RG) made under section 255 of the RO Act and Australian Accounting Standards.

1. Documents not lodged

Missing documents

Section 253 of the RO Act requires that a reporting unit cause a general purpose financial report (GPFR) to be prepared. The GPFR must consist of a statement of comprehensive income, statement of financial position, statement of changes in equity, cash flow statement, notes to the financial statements and the subsection 255(2A) expenditure report (see RO Act section 253 and AASB 101 *Presentation of Financial Statements* paragraph 10). I note that the financial statements provided do not include subsection 255(2A) expenditure report. The MBA-ACT is therefore required to prepare a GPFR that includes all the required statements.

2. Non-compliance with previous requests

While we filed last year's financial report, we raised certain issues for the reporting unit to address in the preparation of future financial reports. I note that the same error has appeared in the current report, namely the Committee of Management statement provided to the ROC was not dated. Item 27(d) of the Reporting Guidelines requires the statement to be dated as at the date the designated officer signs the statement.

The ROC aims to assist reporting units in complying with their obligations under the RO Act and reporting guidelines by providing advice about the errors identified in financial reports. The ROC is unable to file this report until the abovementioned errors have been addressed. Failure to address these issues may lead to the Commissioner exercising his powers under section 330 of the RO Act.

3. Committee of management statement

Reference to s.272

Following the enactment of the Fair Work (Registered Organisations) Amendment Act 2016, with effect from 1 May 2017, section 272 refers to Commissioner of the ROC instead of the General Manager, Fair Work Commission.

The MBA-ACT committee of management statement, at reference **(e)(v)**, refers to 'General Manager'. Please amend these two references to 'Commissioner'.

4. General purpose financial report (GPFR)

Related party disclosures

Australian Accounting Standards AASB 124 Related Party Disclosures paragraph 13 requires that the relationship between a parent and its subsidiaries shall be disclosed irrespective of whether there have been transactions between them. This information has not been provided.

Please amend the GPFR accordingly.

Financial instruments disclosures

Australian Accounting Standard AASB 7 Financial Instruments: Disclosures details the reporting disclosures required by an entity in relation to financial instruments.

Some disclosures have been made at Note 18 to the GPFR. However, it is expected that all disclosures required by AASB 7 be addressed.

Please amend note 18 accordingly.

<u>Land and buildings – revalued every 3 years</u>

The MBA-ACT accounting policy at note 1 states:

"Land and building are shown at fair value, based on periodic, at least every 3 years, valuations by independent valuers..."

The most recent independent valuation was as at 30 June 2015. The MBA-ACT does not appear to have complied with its stated accounting policy. Please ensure that this issue is addressed for the 30 June 2019 financial year.

Land and buildings - valuation

As at 30 June 2015 the MBA-ACT disclosed land and buildings at 'fair value' following an independent valuation. The following year as at 30 June 2016 land and buildings was disclosed at 'cost'. The reasons for this change from fair value to cost are unclear. It is also likely that this change is not in accordance with Australian Accounting Standards.

Please amend the GPFR to reflect land and buildings at fair value or provide an explanation as to why the valuation changed from fair value at 30 June 2015 to cost as at 30 June 2016.

If the valuation is amended to fair value as at 30 June 2018 the following Australian Accounting Standards will also need to be addressed:

- Australian Accounting Standard AASB 116 Property, Plant and Equipment paragraph 77; and
- Australian Accounting Standard AASB 13 Fair Value Measurement.

Please amend the GPFR as outlined or provide an explanation for the change to cost as at 30 June 2016.

Disclosure of employee provisions to office holders and other employees

The reporting guidelines require either the Statement of Financial Position or the notes to disclose any liability for employee benefits in respect of office holders and other employees (items 16(c) and 16(d)). Items 16(c) and 16(d) of the reporting guidelines also require these provisions to be separately disclosed as follows:

- Annual leave;
- Long service leave;
- Separation and redundancies; and
- Other employee provisions.

The employee provisions note to the financial statements has disclosed annual leave, long service leave and other employee provisions separately for office holders and employees, but does not separately disclose separation and redundancies for officers and employees.

The reporting guidelines require that all employee and office holder provisions be detailed separately (refer to items 16(c) and 16(d)).

Reporting guideline 21 states that if any activity described within items 10-20 of the reporting guidelines has not occurred in the reporting period, a statement to this effect must be included in the financial statements, notes to the financial statements or officer's declaration statement.

Nil activities - not disclosed

Reporting guideline 21 states that if any activity described within items 10-20 of the reporting guidelines have not occurred in the reporting period, a statement to this effect must be included the financial statements, notes to the financial statements or officer's declaration statement.

The GPFR contained nil activity information for all prescribed reporting guideline categories except the following:

• Item 13(e) – receive revenue from undertaking recovery of wages activity

Officer's declaration statement - to include all nil activity disclosures not elsewhere disclosed

Reporting guideline 21 states that if any activity described within items 10-20 of the reporting guidelines has not occurred in the reporting period, a statement to this effect must be included in the financial statements, notes to the financial statements or officer's declaration statement.

I note that the officer's declaration statement includes the following nil activity disclosures for which there was already an equivalent form of disclosure in the body of the notes:

- Item 10 agree to receive financial support from another reporting unit to continue as a going concern (refers to agreement regarding financial support not dollar amount)
- Item 11 agree to provide financial support to another reporting unit to ensure they
 continue as a going concern (refers to agreement regarding financial support not dollar
 amount)
- Item 14(h) pay to a person fees or allowances to attend conferences or meetings as a representative of the reporting unit
- Item 18 have cash flows to/from another reporting unit and/or controlled entity

Please note that nil activities should be disclosed once only.

Should you wish to discuss the matters raised in this letter, or if you require further information on the financial reporting requirements of the Act, I may be contacted on (03) 9603 0707 or by email at ken.morgan@roc.gov.au

Yours faithfully

KEN MORGAN

Registered Organisations Commission

MASTER BUILDERS ASSOCIATION OF THE ACT

s.268 Fair Work (Registered Organisations) Act 2009

CERTIFICATE BY PRESCRIBED DESIGNATED OFFICER¹

Certificate for the year ended 30 June 2018

I GRACIETE FERREIRA being the PRESIDENT of the MASTER BUILDERS ASSOCIATION OF THE ACT certify:

- that the documents lodged herewith are copies of the full report for the Master Builders Association of the ACT for the period ended referred to in s.268 of the Fair Work (Registered Organisations) Act 2009; and
- that the full report was provided to members of the reporting unit on 17 September 2018; and
- that the full report was presented to a general meeting of members of the reporting unit on 9 October 2018 in accordance with s.266 of the Fair Work (Registered Organisations) Act 2009.

Signature of prescribed designated officer:

Name of prescribed designated officer: GRACIETE FERREIRA

Title of prescribed designated officer: PRESIDENT

Dated: 15 October 2018

Regulation 162 of the Fair Work (Registered Organisations) Regulations 2009 defines a 'prescribed designated officer' of a reporting unit for the purposes of s.268(c) as:

⁽a) the secretary; or(b) an officer of the organisation other than the secretary who is authorised by the organisation or by the rules of the organisation to sign the certificate mentioned in that paragraph.

Operating report

For the year ended 30 June 2018

Your Members of the Council of Management present their report on the Master Builders Association of the ACT (the "Parent") and its controlled entity (collectively the "Association") for the financial year ended 30 June 2018.

Members of the council of management

The names of the Members of the Council of Management during the year and to the date of this report are:

Ms Graciete Ferreira (President)

Mr Frank Porreca (Treasurer)

Ms Rosa Josifoski

Mr Marc Roland

Mr Stephen Wise

Mr Bryan Leeming

Mr Richard Corver

Mr Peter Middleton

Mr Martin Boyd

Mr Simon Butt

Mr Gerard Allen

Mr Jack Harris

Mr Rod Mitton

Ms Anisha Sachdeva

Mr Matthew Rayment

Resigned 20 February 2018

Appointed 21 February 2018

Appointed 21 August 2017

Members of the Council of Management have been in Council since the start of the financial year to the date of this report unless otherwise stated.

Rights of members to resign

As required to be disclosed by the Fair Work (Registered Organisations) Act 2009, and in accordance with Rule 8 of the Association's rule a member may resign from the Association by written notice addressed and delivered to a person designated for the purpose in the rules of Association.

Trustee or director of trustee company of superannuation entity or exempt public sector superannuation scheme - S254(2)(d)

No officer, or member of the reporting unit, to the best of our knowledge, holds a position as a trustee or director of a superannuation entity or exempt public sector superannuation scheme where the criterion for holding such position is that they are an officer or member of an organisation.

Review of operations

The consolidated profit of the Association amounted to \$176 845 (2017: loss of \$868,619). The loss of the parent entity amounted to \$70,935 (2017: loss of \$683,011).

A review of operations of the Association and its controlled entity during the financial year noted that the following were contributing factor to the financial performance:

- Higher than anticipated revenues from short course training.
- Lower than anticipated salary and related costs due to a restructure of the Association.

Principal activities - s254(2)(9a)

The principal activities of the Association are to promote, protect and advance the interest of its members engaged in any manner of the construction and building industry within the ACT and its surrounding region by being a representative body for the building and construction industry.

Operating report (continued)

For the year ended 30 June 2018

The Association provides professional services, information and advice including industrial relations advice, dispute resolution, training (including, but not limited to, business, apprentice and workplace health and safety), changes to acts and legislation, changes to awards rates and work practices to members of the Association throughout Australian Capital Territory.

Principal activities - s254(2)(9a) (continued)

The Association also represents its members at all levels of Government and holds events and seminars throughout the year to engage and support its membership to connect and network.

The controlled entity of the Association, MBA Group Training Limited, engages in Registered Training Organisation (RTO) and Group Training Organisation (GTO) activities including hiring, placing and training of apprentices. The education and training of apprentices is essential in the continued growth, development and success of the construction and building industry in the ACT through educating the future trades people in the ACT and the surrounding region.

MBA Group Training Limited also undertakes short course training for the wider building industry to train and maintain skills for the broader community which engages with the construction and building industry in the ACT.

Results of principal activities

The Association has expanded short course training this year, including workplace health and safety (WH&S) and asbestos training. The Association continues to undertake all aspects of the services listed above.

Significant changes in the state of financial affairs - s254(2)(b)

Apart from the changes listed in the review of operations, no significant changes in the Association's state of financial affairs occurred during the financial year.

Significant changes in nature of principal activities - s254(2)(a)

There were no significant changes in the nature of the Association's principal activities during the financial year.

Significant events after the reporting period

At the time of signing this report, no matter or circumstances have arisen since the end of the financial year which significantly affected or may significantly affect the operations of the Association, the results of those operations, or the state of affairs of the Association in future financial years.

Likely developments and expected results of operations

The Association expects to maintain the present status and level of operations. Likely developments in the operations of the Association and the expected results of those operations in future financial years have not been included in this report as the inclusion of such information is likely to result in unreasonable prejudice to the Association.

Environmental regulation

The Association's operations are not regulated by any significant environmental regulation under a law of the Commonwealth or of a state or territory.

Number of members

The number of persons who, at the end of the financial year were recorded on the Register of Members was 1,100 (2017: 1,115).

Operating report

For the year ended 30 June 2018

Number of employees

The number of persons who were, at the end of the financial year employees of the Association was 18 (2017:15), measured on a fill equivalent basis.

Signed in accordance with a resolution of the Members of the Council of Management.

Ms Gracie Ferreira

Mr Frank Porreca

17/09/18

Statement by Members of the Council of Management

On the 17 September 2018, the Members of the Council of Management of the Master Builders Association of the ACT passed the following resolution in relation to the General Purpose Financial Report (GPFR) for the year ended 30 June 2018:

We, G Ferreira and F Porreca being two members of the Council of Management of the Master Builders Association of the ACT, do state on behalf of the Council that in the opinion of the Council:

- The financial statements and notes comply with the Australian Accounting Standards, mandatory professional reporting requirements and other authoritative pronouncement of the Australian Accounting Standard Board;
- 2) The financial statements and notes comply with any other requirements imposed by the Reporting Guidelines or Part 3 of Chapter 8 of the Fair Work (Registered Organisations) Act 2009 (the RO Act);
- 3) The financial statements and notes give a true and fair value of the financial performance, financial position and cash flows of the Association and its controlled entity for the financial year to which they relate;
- 4) There are reasonable grounds to believe that the Association will be able to pay its debts as and when they fall due; and
- 5) During the financial year to which the financial report relates and since the end of that year:
 - Meetings of the Council were held in accordance with rules of the organisation including the rules of the branch concerned;
 - (ii) The financial affairs of the Association have been managed in accordance with rules of the organisation including the rules of the branch concerned;
 - (iii) The financial records of the Association have been kept and maintained in accordance with the Fair Work (Registered Organisations) Act 2009;
 - (iv) Where the organisation consists of two or more reporting units, the financial records of the reporting unit have been kept, as far as practicable, in a consistent manner with each of the other reporting units of the organisation;
 - (v) Where information has been sought in any request of a member of the Association or a General Manager duly made under the Fair Work (Registered Organisations) Act 2009 has been furnished to the member or General Manager; and
 - (vi) There has been compliance with any order for inspection of financial records made by the Fair Work Commission under Fair Work (Registered Organisations) Act 2009.

Signed in accordance with a resolution of the Members of the Council of Management.

Ms Gracie Ferreira

Mr Frank Porreca

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF

MASTER BUILDERS ASSOCIATION OF THE ACT

Opinion

I have audited the financial report of Master Builders Association of the ACT and its subsidiary (the Group) which comprises the consolidated statement of financial position as at 30 June 2018, the consolidated statement of comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year ended 30 June 2018, notes to the financial statements, including a summary of significant accounting policies; and the Council of Management Statement, the subsection 255(2A) report and the Officer Declaration Statement.

In my opinion, the accompanying financial report presents fairly, in all material aspects, the financial position of Master Builders Association as at 30 June 2018, and its financial performance and its cash flows for the year ended on that date in accordance with:

- a) the Australian Accounting Standards; and
- b) any other requirements imposed by the Reporting Guidelines or Part 3 of Chapter 8 of the Fair Work (Registered Organisations) Act 2009 (the RO Act).

I declare that management's use of the going concern basis in the preparation of the financial statements of the Reporting Unit is appropriate.

Basis for Opinion

I conducted my audit in accordance with Australian Auditing Standards. My responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of my report. I am independent of the Reporting Unit in accordance with the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants* (the Code) that are relevant to my audit of the financial report in Australia. I have also fulfilled my other ethical responsibilities in accordance with the Code.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Information Other than the Financial Report and Auditor's Report Thereon

The Council of Management is responsible for the other information. The other information obtained at the date of this auditor's report is in the Operating Report accompanying the financial report.

My opinion on the financial report does not cover the other information and accordingly I do not express any form of assurance conclusion thereon.

THE POWER OF BEING UNDERSTOOD

AUDIT | TAX | CONSULTING

In connection with my audit of the financial report, my responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or my knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work I have performed, I conclude that there is a material misstatement of this other information, I am required to report that fact. I have nothing to report in this regard.

Responsibilities of Council of Management for the Financial Report

The Council of Management of the Reporting Unit is responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the RO Act, and for such internal control as the Council of Management determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the Council of Management is responsible for assessing the Reporting Unit's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Council of Management either intend to liquidate the Reporting Unit or to cease operations, or have no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Report

My objective is to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial report.

As part of an audit in accordance with the Australian Auditing Standards, I exercise professional judgement and maintain professional scepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Reporting Unit's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Committee of Management.
- Conclude on the appropriateness of the Council of Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Reporting Unit's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my auditor's report. However, future events or conditions may cause the Reporting Unit to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair

presentation.

Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business
activities within the Reporting Unit to express an opinion on the financial report. I am responsible for the
direction, supervision and performance of the Reporting Unit audit. I remain solely responsible for my audit
opinion.

I communicate with the Council of Management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

I declare that I am an approved auditor, a member of Chartered Accountants Australia and New Zealand and hold a current Public Practice Certificate.

RSM Australia Pty Ltd

The above statement of cash flows should be read in conjunction with the accompanying notes.

General information

The consolidated financial statements cover the Master Builders Association of the ACT (the "parent") and its Controlled Entity (MBA Group Training Limited), collectively the "Association", and the separate financial statements cover the Master Builders Association of the ACT as an individual parent entity.

The nature of the operations and principal activities of the Association are described in the operating report.

Note 1. Significant accounting policies

Basis of preparation of the financial statements

The financial statements are general purpose financial statements and have been prepared in accordance with Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board (AASB) that apply for the reporting period, and the Fair Work (Registered Organisation) Act 2009. For the purpose of preparing the general purpose financial statements, the Association is a not-for-profit entity.

The financial statements have been prepared on an accrual basis and in accordance with the historical cost, except for certain assets and liabilities measured at fair value, as explained in the accounting policies below. Historical cost is generally based on the fair values of the consideration given in exchange for assets. Except where stated, no allowance is made for the effect of changing prices on the results or the financial position. The financial statements are presented in Australian dollars.

Comparative amounts

When required by Accounting Standards, comparative figures have been adjusted to conform to changes in presentation for the current financial year.

The financial statements for the reporting year ended 30 June 2017 were audited by other independent auditor whose report dated 18 September 2017 expressed an unmodified opinion on those financial statements.

New or amended Accounting Standards and Interpretations adopted

The Association has adopted all of the new or amended Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') that are mandatory for the current reporting period.

Any new or amended Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

Principles of consolidation

The consolidated financial statements incorporate the assets and liabilities of all subsidiaries of Master Builders Association of the ACT as at 30 June 2018 and the results of a subsidiary for the year then ended.

Subsidiaries are all those entities over which the Association has control. The Association controls an entity when the Association is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Association. They are de-consolidated from the date that control ceases.

Intercompany transactions, balances and unrealised gains on transactions between entities in the Association are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of the impairment of the asset transferred. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Association.

Where the Association loses control over a subsidiary, it derecognises the assets including goodwill, liabilities and non-controlling interest in the subsidiary together with any cumulative translation differences recognised in equity. The Association recognises the fair value of the consideration received and the fair value of any investment retained together with any gain or loss in profit or loss.

Note 1. Significant accounting policies (continued)

Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable.

Revenue from subscriptions is accounted for on an accrual basis and is recorded as revenue in the year to which it relates.

Revenue from the sale of goods is recognised when, the risks and rewards of ownership have been transferred to the buyer, the Association retains no managerial involvement or effective control over the goods, the revenue and transaction costs incurred can be reliably measured, and it is probable that the economic benefits associated with the transaction will flow to the Association.

Donation income is recognised when it is received.

Interest revenue is recognised on an accrual basis using the effective interest method.

Rental revenue from operating leases is recognised on a straight-line basis over the term of the relevant lease.

Income tax

The Association is exempt from income tax under Section 50-15 of the Income Tax Assessment Act 1997, however still has obligation for Fringe Benefits Tax (FBT) and the Goods and Services Tax (GST).

Revenues, expenses and assets are recognised net of GST except:

- where the amount of GST incurred is not recoverable from the Australian Taxation Office; and
- for receivables and payables.

The net amount of GST recoverable from, or payable to, the taxation authority is included as part of receivables or payables.

Cash flows are included in the statement of cash flows on a gross basis. The GST component of cash flows arising from investing and financing activities which is recoverable from, or payable to, the Australian Taxation Office is classified within operating cash flows.

Current and non-current classification

Assets and liabilities are presented in the statement of financial position based on current and non-current classification.

An asset is classified as current when: it is either expected to be realised or intended to be sold or consumed in the Association's normal operating cycle; it is held primarily for the purpose of trading; it is expected to be realised within 12 months after the reporting period; or the asset is cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least 12 months after the reporting period. All other assets are classified as non-current

A liability is classified as current when: it is either expected to be settled in the Association's normal operating cycle; it is held primarily for the purpose of trading; it is due to be settled within 12 months after the reporting period; or there is no unconditional right to defer the settlement of the liability for at least 12 months after the reporting period. All other liabilities are classified as non-current.

Cash and cash equivalents

Cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

Note 1. Significant accounting policies (continued)

Trade and other receivables

Trade and other receivables are recognised at amortised cost, less any provision for impairment.

Collectability of trade receivables is reviewed on an ongoing basis. Debts which are known to be uncollectable are written off by reducing the carrying amount directly. A provision for impairment of trade receivables is raised when there is objective evidence that the Association will not be able to collect all amounts due according to the original terms of the receivables. Significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy or financial reorganisation and default or delinquency in payments are considered indicators that the trade receivable may be impaired. The amount of the impairment allowance is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the original effective interest rate. Cash flows relating to short-term receivables are not discounted if the effect of discounting is immaterial.

Other receivables are recognised at amortised cost, less any provision for impairment.

Investments and other financial assets

Investments and other financial assets are initially measured at fair value. Transaction costs are included as part of the initial measurement, except for financial assets at fair value through profit or loss. They are subsequently measured at either amortised cost or fair value depending on their classification. Classification is determined based on the purpose of the acquisition and subsequent reclassification to other categories is restricted.

Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred and the Association has transferred substantially all the risks and rewards of ownership.

Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss are either: (i) held for trading, where they are acquired for the purpose of selling in the short-term with an intention of making a profit; or (ii) designated as such upon initial recognition, where they are managed on a fair value basis or to eliminate or significantly reduce an accounting mismatch. Except for effective hedging instruments, derivatives are also categorised as fair value through profit or loss. Fair value movements are recognised in profit or loss.

Impairment of financial assets

The Association assesses at the end of each reporting period whether there is any objective evidence that a financial asset or group of financial assets is impaired. Objective evidence includes significant financial difficulty of the issuer or obligor; a breach of contract such as default or delinquency in payments; the lender granting to a borrower concession due to economic or legal reasons that the lender would not otherwise do; it becomes probable that the borrower will enter bankruptcy or other financial reorganisation; the disappearance of an active market for the financial asset; or observable data indicating that there is a measurable decrease in estimated future cash flows.

The amount of the impairment allowance for financial assets carried at cost is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the current market rate of return for similar financial assets.

Investments and other financial assets

Available-for-sale financial assets are considered impaired when there has been a significant or prolonged decline in value below initial cost. Subsequent increments in value are recognised in other comprehensive income through the available for-sale reserve.

Note 1. Significant accounting policies (continued)

Property, plant and equipment

Land and buildings are shown at fair value, based on periodic, at least every 3 years, valuations by external independent valuers, less subsequent depreciation and impairment for buildings. The valuations are undertaken more frequently if there is a material change in the fair value relative to the carrying amount. Any accumulated depreciation at the date of revaluation is eliminated against the gross carrying amount of the asset and the net amount is restated to the revalued amount of the asset. Increases in the carrying amounts arising on revaluation of land and buildings are credited in other comprehensive income through to the revaluation surplus reserve in equity. Any revaluation decrements are initially taken in other comprehensive income through to the revaluation surplus reserve to the extent of any previous revaluation surplus of the same asset. Thereafter the decrements are taken to profit or loss.

Plant and equipment is stated at historical cost less accumulated depreciation and impairment. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Depreciation is calculated on a straight-line basis to write off the net cost of each item of property, plant and equipment (excluding land) over their expected useful lives as follows:

Land and building 2.5%

Motor vehicles 6.7% to 33%

Plant and equipment 22.5%

The residual values, useful lives and depreciation methods are reviewed, and adjusted if appropriate, at each reporting date.

Leasehold improvements and plant and equipment under lease are depreciated over the unexpired period of the lease or the estimated useful life of the assets, whichever is shorter.

An item of property, plant and equipment is derecognised upon disposal or when there is no future economic benefit to the Association. Gains and losses between the carrying amount and the disposal proceeds are taken to profit or loss. Any revaluation surplus reserve relating to the item disposed of is transferred directly to retained profits.

Leases

The determination of whether an arrangement is or contains a lease is based on the substance of the arrangement and requires an assessment of whether the fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset.

A distinction is made between finance leases, which effectively transfer from the lessor to the lessee substantially all the risks and benefits incidental to the ownership of leased assets, and operating leases, under which the lessor effectively retains substantially all such risks and benefits.

Finance leases are capitalised. A lease asset and liability are established at the fair value of the leased assets, or if lower, the present value of minimum lease payments. Lease payments are allocated between the principal component of the lease liability and the finance costs, so as to achieve a constant rate of interest on the remaining balance of the liability.

Leased assets acquired under a finance lease are depreciated over the asset's useful life or over the shorter of the asset's useful life and the lease term if there is no reasonable certainty that the Association will obtain ownership at the end of the lease term.

Operating lease payments, net of any incentives received from the lessor, are charged to profit or loss on a straight-line basis over the term of the lease.

Note 1. Significant accounting policies (continued)

Intangible assets

Intangible assets acquired as part of a business combination, other than goodwill, are initially measured at their fair value at the date of the acquisition. Intangible assets acquired separately are initially recognised at cost. Indefinite life intangible assets are not amortised and are subsequently measured at cost less any impairment. Finite life intangible assets are subsequently measured at cost less amortisation and any impairment. The gains or losses recognised in profit or loss arising from the derecognition of intangible assets are measured as the difference between net disposal proceeds and the carrying amount of the intangible asset. The method and useful lives of finite life intangible assets are reviewed annually. Changes in the expected pattern of consumption or useful life are accounted for prospectively by changing the amortisation method or period.

Software

Significant costs associated with software are deferred and amortised on a straight-line basis over the period of their expected benefit, being their finite life of 3 years.

Trade and other payables

These amounts represent liabilities for goods and services provided to the Association prior to the end of the financial year and which are unpaid. Due to their short-term nature they are measured at amortised cost and are not discounted. The amounts are unsecured and are usually paid within 30 days of recognition.

Employee benefits

Short-term employee benefits

Liabilities for wages and salaries, including non-monetary benefits, annual leave, long service leave and rostered days off (RDO) expected to be settled wholly within 12 months of the reporting date are measured at the amounts expected to be paid when the liabilities are settled.

Other long-term employee benefits

The liability for annual leave and long service leave not expected to be settled within 12 months of the reporting date are measured at the present value of expected future payments to be made in respect of services provided by employees up to the reporting date using the projected unit credit method. Consideration is given to expected future wage and salary levels, experience of employee departures and periods of service. Expected future payments are discounted using market yields at the reporting date on national government bonds with terms to maturity and currency that match, as closely as possible, the estimated future cash outflows.

Fair value measurement

When an asset or liability, financial or non-financial, is measured at fair value for recognition or disclosure purposes, the fair value is based on the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date; and assumes that the transaction will take place either: in the principal market; or in the absence of a principal market, in the most advantageous market.

Fair value is measured using the assumptions that market participants would use when pricing the asset or liability, assuming they act in their economic best interests. For non-financial assets, the fair value measurement is based on its highest and best use. Valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, are used, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

Note 1. Significant accounting policies (continued)

Fair value measurement (continued)

Assets and liabilities measured at fair value are classified, into three levels, using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. Classifications are reviewed at each reporting date and transfers between levels are determined based on a reassessment of the lowest level of input that is significant to the fair value measurement.

For recurring and non-recurring fair value measurements, external valuers may be used when internal expertise is either not available or when the valuation is deemed to be significant. External valuers are selected based on market knowledge and reputation. Where there is a significant change in fair value of an asset or liability from one period to another, an analysis is undertaken, which includes a verification of the major inputs applied in the latest valuation and a comparison, where applicable, with external sources of data.

Going concern

The Association is not reliant on the agreed financial support of another reporting unit to continue as a going concern basis.

The Association has not agreed to provide financial support to another reporting unit to ensure they can continue as a going concern basis.

New Accounting Standards and Interpretations not yet mandatory or early adopted

Australian Accounting Standards and Interpretations that have recently been issued or amended but are not yet mandatory, have not been early adopted by the Association for the annual reporting period ended 30 June 2018. The Association's assessment of the impact of these new or amended Accounting Standards and Interpretations, most relevant to the Association, are set out below.

AASB 9 Financial Instruments

This standard is applicable to annual reporting periods beginning on or after 1 January 2018. The standard replaces all previous versions of AASB 9 and completes the project to replace IAS 39 'Financial Instruments: Recognition and Measurement'. AASB 9 introduces new classification and measurement models for financial assets. A financial asset shall be measured at amortised cost, if it is held within a business model whose objective is to hold assets in order to collect contractual cash flows, which arise on specified dates and solely principal and interest. All other financial instrument assets are to be classified and measured at fair value through profit or loss unless the Association makes an irrevocable election on initial recognition to present gains and losses on equity instruments (that are not held-for-trading) in other comprehensive income ('OCI'). For financial liabilities, the standard requires the portion of the change in fair value that relates to the Association's own credit risk to be presented in OCI (unless it would create an accounting mismatch). New simpler hedge accounting requirements are intended to more closely align the accounting treatment with the risk management activities of the Association. New impairment requirements will use an 'expected credit loss' ('ECL') model to recognise an allowance. Impairment will be measured under a 12-month ECL method unless the credit risk on a financial instrument has increased significantly since initial recognition in which case the lifetime ECL method is adopted. The standard introduces additional new disclosures. The Association will adopt this standard from 1 July 2018 and the impact of its adoption is expected to be minimal on the Association.

AASB 15 Revenue from Contracts with Customers

This standard is applicable to annual reporting periods beginning on or after 1 January 2018. The standard provides a single standard for revenue recognition. The core principle of the standard is that an Association will recognise revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the Association expects to be entitled in exchange for those goods or services.

Note 1. Significant accounting policies (continued)

New Accounting Standards and Interpretations not yet mandatory or early adopted (continued)

The standard will require: contracts (either written, verbal or implied) to be identified, together with the separate performance obligations within the contract; determine the transaction price, adjusted for the time value of money excluding credit risk; allocation of the transaction price to the separate performance obligations on a basis of relative stand-alone selling price of each distinct good or service, or estimation approach if no distinct observable prices exist; and recognition of revenue when each performance obligation is satisfied. Credit risk will be presented separately as an expense rather than adjusted to revenue. For goods, the performance obligation would be satisfied when the customer obtains control of the goods. For services, the performance obligation is satisfied when the service has been provided, typically for promises to transfer services to customers. For performance obligations satisfied over time, an Association would select an appropriate measure of progress to determine how much revenue should be recognised as the performance obligation is satisfied. Contracts with customers will be presented in an Association's statement of financial position as a contract liability, a contract asset, or a receivable, depending on the relationship between the Association's performance and the customer's payment. Sufficient quantitative and qualitative disclosure is required to enable users to understand the contracts with customers; the significant judgments made in applying the guidance to those contracts; and any assets recognised from the costs to obtain or fulfil a contract with a customer. The Association will adopt this standard from 1 July 2018 and the impact of its adoption is expected to be minimal on the Association.

AASB 16 Leases

This standard is applicable to annual reporting periods beginning on or after 1 January 2019. The standard replaces AASB 117 'Leases' and for lessees will eliminate the classifications of operating leases and finance leases. Subject to exceptions, a 'right-of-use' asset will be capitalised in the statement of financial position, measured at the present value of the unavoidable future lease payments to be made over the lease term. The exceptions relate to short-term leases of 12 months or less and leases of low-value assets (such as personal computers and small office furniture) where an accounting policy choice exists whereby either a 'right-of-use' asset is recognised or lease payments are expensed to profit or loss as incurred. A liability corresponding to the capitalised lease will also be recognised, adjusted for lease prepayments, lease incentives received, initial direct costs incurred and an estimate of any future restoration, removal or dismantling costs. Straight-line operating lease expense recognition will be replaced with a depreciation charge for the leased asset (included in operating costs) and an interest expense on the recognised lease liability (included in finance costs). In the earlier periods of the lease, the expenses associated with the lease under AASB 16 will be higher when compared to lease expenses under AASB 117. However EBITDA (Earnings Before Interest, Tax, Depreciation and Amortisation) results will be improved as the operating expense is replaced by interest expense and depreciation in profit or loss under AASB 16. For classification within the statement of cash flows, the lease payments will be separated into both a principal (financing activities) and interest (either operating or financing activities) component. For lessor accounting, the standard does not substantially change how a lessor accounts for leases. The Association will adopt this standard from 1 July 2019, but the impact of its adoption is yet to be assessed by the Association.

Note 2. Critical accounting judgements, estimates and assumptions

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts in the financial statements. Management continually evaluates its judgements and estimates in relation to assets, liabilities, contingent liabilities, revenue and expenses. Management bases its judgements, estimates and assumptions on historical experience and on other various factors, including expectations of future events, management believes to be reasonable under the circumstances. The resulting accounting judgements and estimates will seldom equal the related actual results. The judgements, estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities (refer to the respective notes) within the next financial year are discussed below.

Note 2. Critical accounting judgements, estimates and assumptions (continued)

Provision for impairment of receivables

The provision for impairment of receivables assessment requires a degree of estimation and judgement. The level of provision is assessed by taking into account the recent sales experience, the ageing of receivables, historical collection rates and specific knowledge of the individual debtor's financial position.

Fair value measurement hierarchy

The Association is required to classify all assets and liabilities, measured at fair value, using a three level hierarchy, based on the lowest level of input that is significant to the entire fair value measurement, being: Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the Association can access at the measurement date; Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly; and Level 3: Unobservable inputs for the asset or liability. Considerable judgement is required to determine what is significant to fair value and therefore which category the asset or liability is placed in can be subjective.

The fair value of assets and liabilities classified as level 3 is determined by the use of valuation models. These include discounted cash flow analysis or the use of observable inputs that require significant adjustments based on unobservable inputs.

Estimation of useful lives of assets

The Association determines the estimated useful lives and related depreciation and amortisation charges for its property, plant and equipment and finite life intangible assets. The useful lives could change significantly as a result of technical innovations or some other event. The depreciation and amortisation charge will increase where the useful lives are less than previously estimated lives, or technically obsolete or non-strategic assets that have been abandoned or sold will be written off or written down.

Employee benefits provision

As discussed in note 1, the liability for employee benefits expected to be settled more than 12 months from the reporting date are recognised and measured at the present value of the estimated future cash flows to be made in respect of all employees at the reporting date. In determining the present value of the liability, estimates of attrition rates and pay increases through promotion and inflation have been taken into account.

Note 18. Financial risk management

Financial risk management objectives

The main risk arising from the Association's financial instruments is the liquidity risk.

The Association manages its exposure to the liquidity risk in accordance with the Association's policies. The objective of the policy is to support the delivery of the Association's services whilst protecting financial security. The liquidity risk is mainly monitored through the development of cash flow forecasts and maintaining adequate cash reserves.

Market risk

Foreign currency risk

The Association is not exposed to any foreign currency risk. The Association does not have any foreign currency dealings or transactions.

Price risk

The Association is not exposed to any significant price risk. The Association's revenue and expenses are not significantly impacted by market prices.

Interest rate risk

The Association is not exposed to any significant interest rate risk. The Association has very limited exposure to interest rate risk as there is no debt with interest component.

Credit risk

The Association is not exposed to any significant credit risk. Credit risk is managed through close management of all debtors. Historically, the Association has had very few issues with the collection of debts.

Liquidity risk

Vigilant liquidity risk management required the Association to maintain sufficient liquid assets (mainly cash and cash equivalents) to be able to pay debts as and when they become due and payable.

The Association manages liquidity risk by maintaining adequate cash reserves by continuously monitoring actual and forecast cash flows and matching maturity profiles of financial assets and liabilities.

Note 19 Section 272 Fair Work (Registered Organisations) Act 2009

In accordance with the requirements of the Fair Work (Registered Organisations) Act 2009, the attention of members is drawn to the provisions of subsections (1) to (3) of section 272, which reads as follows:

Information to be provided to members or Commissioner:

- (1) A member of a reporting unit, or the Commissioner, may apply to the reporting unit for specified prescribed information in relation to the reporting unit to be made available to the person making the application.
- (2) The application must be in writing and must specify the period within which, and the manner in which, the information is to be made available. The period must not be less than 14 days after the application is given to the reporting unit.
- (3) A reporting unit must comply with an application made under subsection (1).

Master Builders Association of the ACT and its Controlled Entity OFFICER DECLARATION STATEMENT

I, Graciac Torca being the Resident of the Master Builders Association of the ACT and its Controlled Entity, declare that the following activities did not occur during the reporting period ending 30 June 2018.

The reporting unit did not:

- agree to receive financial support from another reporting unit to continue as a going concern (refers to agreement regarding financial support not dollar amount)
- agree to provide financial support to another reporting unit to ensure they continue as a going concern (refers to agreement regarding financial support not dollar amount)
- acquire an asset or liability due to an amalgamation under Part 2 of Chapter 3 of the RO Act, a
 restructure of the branches of an organisation, a determination or revocation by the General Manager,
 Fair Work Commission
- · pay any other expense to another reporting unit
- pay to a person fees or allowances to attend conferences or meetings as a representative of the reporting unit
- incur expenses due to holding a meeting as required under the rules of the organisation
- pay a penalty imposed under the RO Act or the Fair Work Act 2009
- have a balance within the general fund
- · provide cash flows to another reporting unit and/or controlled entity
- · receive cash flows from another reporting units and/or controlled entity
- have another entity administer the financial affairs of the reporting unit
- · make a payment to a former related party of the reporting unit

Signed by the officer:
