NOTES TO AND FORMING PART OF THE ACCOUNTS

FOR THE YEAR ENDED 31 DECEMBER 2001

1 STATEMENT OF ACCOUNTING POLICIES

The financial statements are a general purpose financial report which have been prepared in accordance with Australian Accounting Standards and other mandatory professional reporting requirements and the Workplace Relations Act 1996. The financial statements have also been prepared on the basis of historical costs and do not take into account changing money values, except land and building, which is stated at independent valuation. Cost is based on the fair values of the consideration given in exchange for assets.

The following is a summary of the material policies adopted in the preparation of the financial statements.

a. Property, Plant and Equipment

Property, plant and equipment are brought to account at cost or independent valuation less, where applicable, any accumulated depreciation or amortisation. The carrying amount of property, plant and equipment is reviewed annually by the Committee to ensure it is not in excess of the recoverable amount from these assets. The recoverable amount is assessed on the basis of the expected net cash flows which will be received from the assets employment and subsequent disposal. The expected net cash flows have not been discounted to their present values in determining recoverable amounts.

The properties are stated at independent valuation carried out by Jones Lang LaSalle in November 2000 and by David Torrens of DTZ Australia (NSW) Pty Ltd in April 2002 and directors' valuation.

The depreciable amount of all fixed assets, but excluding investment properties, is depreciated on a straight line basis over their useful lives commencing from the time the asset is held ready for use.

b. Income Tax

No provision for income tax is necessary as the Association is exempt from income tax under Section 50.15 of the Income Tax Assessment 1997.

c. Income

All income is brought to account on an accrual basis, except interest, dividends, unit trust distributions and subscription income which are brought to account on a cash receipt basis.

d. Shares

The Association's investments comprise holdings of listed and unlisted shares. Unlisted shares are disclosed at historical cost. Listed shares have been revalued at the market price applicable as at the close of trading on the last trading day of the year and any increment/decrement is recognised in the asset revaluation reserve.

The accounting policy requires the class of non-current assets described as listed shares to be revalued to market value as at the reporting date.

e. Comparative Figures

Some line items and subtotals reported in the previous financial year have been reclassified and repositioned in the financial statements as a result of the first time application on 1 January 2001 of the new standards AAS1 "Statement of Financial Performance" and AAS36 "Statement of Financial Position".

| Total Financial Liability | | | 156,943 | 327,068 |

(b) Credit Risk

The maximum exposure to credit risk at balance date to recognised financial assets, excluding the value value of any collateral or other security, is the carrying amount of the assets, net of any provisions for doubtful debts, as disclosed in the balance sheet and notes to and forming part of the financial statements.

(c) Net Fair Values

The net fair values of listed investments have been valued at the cost price at balance date. For other assets and other liabilities the net fair value approximates their carrying value. No financial assets and financial liabilities are readily traded on organised markets in standardised form other than listed investments. Financial assets where the carrying amount exceeds net fair values have not been written down as the economic entity intends to hold these assets to maturity. The aggregate net fair values and carrying amounts of financial assets and financial liabilities are disclosed in the balance sheet and in the notes to and forming part of the financial statements.

17. SUBSEQUENT EVENTS

Subsequent to balance date, the market value of the investments increased by approximately \$130,000 as at 3 April 2002.
